Q-Manager Desktop PC by Others

The Q-Manager desktop PC by others is a dedicated desktop PC used to run the Quantum light management software. Optionally, it can be used as a client PC to run the Quantum Vue application.

Quantum Vue allows the operator to control the Quantum system, monitor system status, and run system reports.

During system start-up, the Lutron field engineer will install the Q-Manager software on the desktop. The customer's IT department staff must be available on-site to assist with this process.

The desktop is dedicated for Lutron Quantum software only.

Enterprise Vue is only compatible with Server Hardware/OS. For more information see the Enterprise Vue Spec Submittal (P/N 3691076) at www.lutron.com

Hardware Requirements

Software Version	Laptop or Desktop
Quantum 1.5-1.9	Intel® Core i3 processor Integrated Intel® HD Graphics or 256 MB dedicated graphics card I GB RAM So GB hard drive Screen with minimum 1024 x 768 resolution Inveloped Honor Management (100 MB) Inveloped Honor MB wired Ethernet network interface
Quantum 2.0 - 2.7	Intel® Core i3 processor Integrated Intel® HD Graphics or 256 MB dedicated graphics card 2 GB RAM 100 GB hard drive Screen with minimum 1024 x 768 resolution 10/100 MB wired Ethernet network interface
Quantum 3.0-3.3	Intel® Core i3 processor Integrated Intel® HD Graphics or 256 MB dedicated graphics card 4 GB RAM 250 GB hard drive Screen with minimum 1280 x 1024 resolution 10/100 MB wired Ethernet network interface
myRoom 3.3 (Programming laptop only)	Minimum AMD _® Ryzen _® 7 or Intel _® i7 processor 4 core, 8 threads 2.5 GHz clock speed Minimum 500 GB* NVME (SSD) hard drive Minimum 32 GB RAM Minimum 1280 x 1024 screen resolution Windows _® 10 professional operating system (64-bit) Minimum one 100 Mbps wired Ethernet interface 802.11 Wi-Fi Ethernet connection
Quantum 3.4	 Intel® Core i7 (4 cores, 8 threads 2.5 GHz) or AMD® equivalent processor 16 GB RAM 500 GB* SSD hard drive Screen with minimum 1280 x 1024 resolution Minimum 100 MB wired Ethernet network interface

^{*} If using secondary drive for installation and SQL storage, the primary drive must

Microsoft₀ SQL & OS Required for Each Quantum Version

Quantum Version	Microsoft⊚ SQL Version	Microsoft⊚ OS Version
1.5-1.9	SQL Server 2005 Express (default) SQL Server 2005 Full** (requires custom installation)	Windows⊚ XP Pro (32-bit)
2.0-2.7	SQL Server 2005 Express (default) SQL Server 2005 Full** (requires custom installation)	Windows® XP Pro (32-bit) Windows® 7 Professional (32 or 64-bit)
3.0-3.1	SQL Server 2012 Express (default) SQL Server 2012 Full** (requires custom installation)	Windows® 7 Professional (64-bit) Windows® 8 Professional (64-bit) Windows® 8.1 Professional (64-bit)
3.2	SQL Server 2012 Express (default) SQL Server 2012 Full** (requires custom installation)	Windowso 7 Professional (64-bit) Windowso 8 Professional (64-bit) Windowso 8.1 Professional (64-bit) Windowso 10 Professional (64-bit) Windowso 10 Enterprise (64-bit)
3.4.399 and older	SQL Server 2017 Express (default) SQL Server 2017 Full** (requires custom installation)	Windows® 8 Professional (64-bit) Windows® 8.1 Professional (64-bit) Windows® 10 Professional (64-bit) Windows® 10 Enterprise (64-bit)
3.4.401 - 3.4.437	SQL Server 2019 Express (default) SQL Server 2019 Full** (requires custom installation)	Windows® 10 Professional (64-bit) Windows® 10 Enterprise (64-bit)
3.4.441 and newer	SQL Server 2019 Express (default) SQL Server 2019 Full** (requires custom installation)	Windowse 10 Professional (64-bit) Windowse 10 Enterprise (64-bit) Windowse 11 Professional (64-bit) Windowse 11 Enterprise (64-bit)

Software Required

- Microsoft_® Internet Information Services (IIS) 7 or later (for Quantum Vue)
- Microsoft_® Internet Explorer_® 9 or later
- Microsoft_® .NET Framework 3.5
- Microsoft_® .NET Framework 4.5 (Quantum 3.0 and 3.1)
- Microsoft_® .NET Framework 4.6.1 (Quantum 3.2 and newer)

For more information on system and network configurations see the Lutron IT Implementation Guide: (P/N 040423) at www.lutron.com

Considerations for Customer-Supplied Computers

- Lutron Field Service will install the purchased Lutron software on one computer only, at the time of commissioning. Customer must have available:
 - The working computer that meets the minimum Lutron specification
 - The original Windows® installation disks
 - All driver disks for the customer-supplied computer
 - Administrative rights for the customer-supplied computer
 - An IT representative
- Computers that meet the minimum specification but cannot be configured by Field Service (maximum on-site configuration time is limited to 4 hours) will require a connection to the Internet for remote access from a Lutron services company representative (additional charges may apply)
- If remote access is not available, the computer must be shipped (using an insured shipment) by the customer, at the owner's risk and expense, to Lutron for Lutron software installation. The computer must be shipped with the correct operating system disk and all driver disks. A 4 week leadtime will apply to any computers shipped to Lutron. To cover the Lutron troubleshooting, an additional 4 hour service charge will apply.
 Computers supplied by the customer are not covered by a Lutron warranty
- Once configured by Lutron, the computer must be used for Lutron lighting control only and cannot be used for other applications
- Lutron reserves the right to ask the customer to reformat the customer's computer and reload the operating system to rectify any installation issues
- Any Lutron software upgrades can only be loaded on computers that have been unaltered after the initial Lutron configuration. Otherwise, additional charges will apply
- When the Quantum software suite is hosted on a desktop PC, the software is designed to be used locally on the PC. Remote connection to the PC from another PC or tablet is not supported
- When the Quantum software suite is hosted on a computer running a server-grade operating system, a laptop, desktop PC or tablet can connect to the server using a web browser. In these cases, Lutron recommends following the guidelines in QS-A-CMP-SBO-0 for machines that will function as servers

Software Updates/Patches

- Note that Lutron will not be responsible for maintenance, security and software patching of the machine.
- Lutron recommends that the machine is installed and maintained as part of the customer's IT infrastructure and involve the customer's IT department in the patching, security and maintenance of the machine.
