- b. Provision of credit guarantees
- c. Sales of investment trusts
- d. Management and administration of defined contribution pension plans

Company History

Nippon Life was founded as Nippon Life Assurance Co., Inc. in July 1889, and in 1891, the name was changed to Nippon Life Assurance Co., Ltd.

When the Company was founded, a premium table based on unique Japanese mortality statistics was created. At the same time, Nippon Life became the first Japanese life insurer to decide to offer profit dividends to policyholders, which embodied the spirit of mutual aid. And so, after its first major closing of books in 1898, Nippon Life paid the first policyholder dividends in Japan.

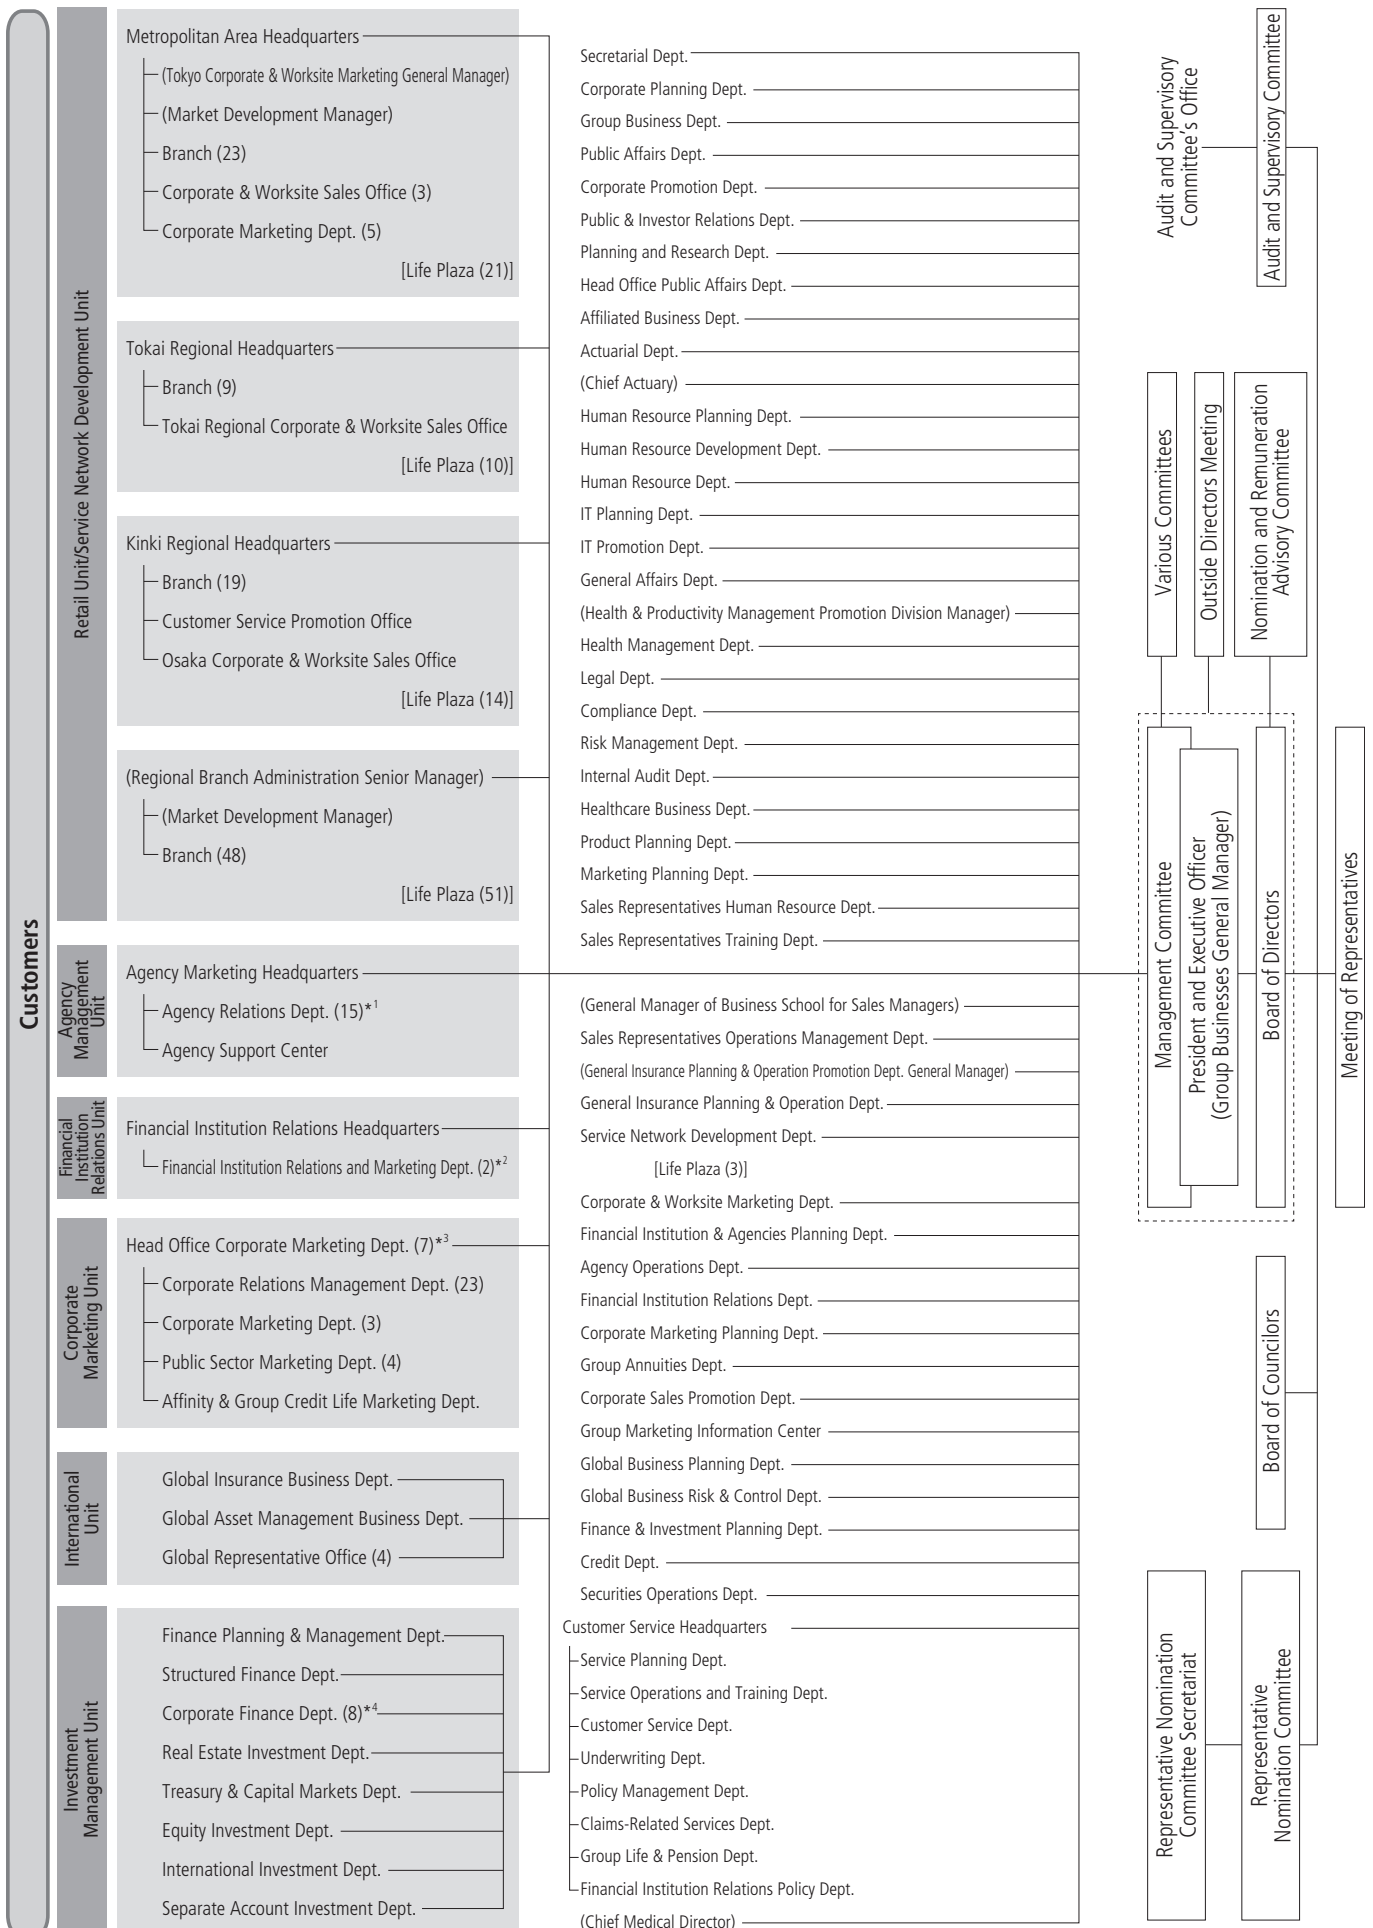

After World War II, the Company was reborn as Nippon Life Insurance Company in 1947 and continues to work to realize the philosophy of "co-existence, co-prosperity, and mutualism" as a mutual company.

1889	○ Nippon Life Assurance Co., Inc. established	1975	○ New York Liaison Office opened (Renamed New York Representative Office in 1977) ○ Full transfer of Ryukyu Life Insurance

◆Status of Executive Remuneration

Individuals with total remuneration, etc. of ¥100 million or more (April 1, 2021 to March 31, 2022)

(Unit: Millions of Yen)

Name (position of executive)	Total remuneration, etc.	Fiscal year ended March 31, 2022		
		Monthly remuneration	Bonus	Single-year contribution to performance-linked retirement or severance remuneration
Yoshinobu Tsutsui (Director)	111	69	24	17
Hiroshi Shimizu (Director)	159	90	44	25

Notes: 1. Remuneration is shown only for individuals whose total remuneration, etc. is ¥100 million or more.

2. The single-year contribution to performance-linked retirement or severance remuneration is recognized as the amount for each year under review that has been contributed under internal rules, in order to provide for the payment of performance-linked retirement or severance remuneration to directors and Audit and Supervisory Board members.

◆Status of Accounting Audits

(1) Name of Accounting Auditors

Deloitte Touche Tohmatsu LLC

(2) Continuous Auditing Period

16 years

(3) Certified Public Accountants Who Conducted Auditing Operations

Yoshiyuki Higuchi

Hideo Shirata

Keisuke Yamaguchi

The number of years of continuous audits was not more than seven years for each of the certified public accountants who conducted auditing operations.

(4) Composition of Assistants Involved in Auditing Operations

The assistants involved in auditing operations consisted of a total of 31 certified public accountants and 53 other individuals.

(5) Policy and Reasons for Selecting the Accounting Auditors

In cases where it is deemed to be difficult for the accounting auditors to perform their duties appropriately or in other circumstances deemed necessary, the Audit and Supervisory Committee will determine the content of proposals concerning the dismissal or non-reappointment of the accounting auditors. The Audit and Supervisory Committee will dismiss the accounting auditors if it believes that the accounting auditors fall under the grounds set forth in the items of Article 53-9, Paragraph 1 of the Insurance Business Act with their terms replaced pursuant to Article 53-9, Paragraph 5 of the Act.

(6) Evaluation of the Accounting Auditors by the Audit and Supervisory Board

This item shows the status prior to the transition to the Audit and Supervisory Committee.

The Audit and Supervisory Board evaluates the accounting auditors after confirming factors such as whether the accounting auditors have the required independence and expertise. This is done based on standards formulated in accordance with various guidelines and other information concerning accounting auditors published by the Japan Audit & Supervisory Board Members Association.

As a result of the foregoing, the Audit and Supervisory Board can confirm that there are no particular problems with the qualifications and auditing history of the accounting auditors. It has also determined that the auditing methods and results of the accounting auditors in the fiscal year ended March 31, 2022 were appropriate. For this reason, the Audit and Supervisory Board has decided that it would be appropriate to reappoint the accounting auditors.

◆Details of Audit Remuneration and Related Matters

(1) Remuneration for Accounting Auditors

(Unit: Millions of Yen)

Category	Fiscal year ended March 31, 2022		Fiscal year ended March 31, 2021

*1 The names of the main offices indicate the name of the main sales office in each region.

*2 "For investment" refers to the component for properties held for the purpose of generating income through leasing and related activities, and the ancillary component necessary for this purpose.

*3 Book value is aggregated for each region where the applicable properties are located. The number of employees is aggregated for each region where the main office of their organizations is located.

*4 Book value is proportionately allocated to the book-value categories of "for investment" and "for sales activities" according to the ratio between the floor area of leased buildings and the floor area of buildings for sales activities.

*5 Interior remodeling of leased buildings has been recorded in a lump sum under Osaka Head Office as the monetary amount is very small.

*6 The area of leased land is enclosed in square brackets. Nippon Life paid leasing fees related to real estate of ¥14.9 billion (comprising ¥7.5 billion in buildings and ¥7.3 billion in land).

*7 The "Others" component of book value comprises lease assets of ¥5.4 billion, construction in progress of ¥29.9 billion, and other tangible fixed assets of ¥13.6 billion. The main component of other tangible fixed assets is furniture and related items. Furniture and related items in use at each office are recorded in a lump sum under Osaka Head Office, as they represent only a small monetary amount.

◆Plans for Building New Facilities or Disposition, etc. of Existing Facilities

(1) Plans for Building New Facilities

Name of office (location)	Description of facility	Method of funding	Month and year of initiation	Month and year of completion

Note: We reserve the right to refrain from disclosing the amount of planned investment as agreed upon with the counter party to the agreement.

(2) Plans for Disposition, etc. of Main Facilities

Not applicable.

Products and Services for Individuals

Nippon Life strives to offer services and products with primary emphasis on providing truly useful coverage for customers.

The areas that customers want to prioritize when choosing coverage vary according to their life stages. Furthermore, lifestyles have been diversifying in recent years; people are getting married later in life and an increasing number of people are remaining single, leading to growth in the number of double-income households.

To respond thoroughly to such diversifying customer needs, Nippon Life has reviewed and, where appropriate, improved its product lineup. We combine coverage for “death,” “medical and nursing care,” “savings and retirement,” and “children” with other products to supply customers with comprehensive, well-balanced coverage according to their needs.

Life Insurance Products (as of July 2022)

◆ Nissay *Mirai no Katachi*

The “*Mirai no Katachi*” product provides customers with lifelong support by allowing them to make up different combinations of insurance. These can also be altered after enrollment. “*Mirai no Katachi*” was further strengthened with the addition of “*Three Major Diseases 3 Jumaru*” the new three major diseases insurance coverage which was upgraded in April 2022.

When they enroll, customers can flexibly combine 14 types of insurance as needed. These insurances can be divided into four categories: “death risk,” “risk of serious diseases and nursing care,” “medical risks,” and “risk of requiring accumulated funds for old age and other risks.”

After enrollment, customers can freely revise policy details according to changes in their lives and their needs. For example, customers can selectively revise only the parts they need to change or add new insurance. In this way, customers can change their policy details to precisely meet their protection needs at any time.

Notes: 1. Combinations are subject to certain restrictions.

2. Services may not be available if Nippon Life does not handle the relevant system when requests are made.

Type of Insurance		Summary	Product Name
Insurance that covers death risk	Whole life insurance	Insurance providing death protection over the insured’s whole life	Nissay <i>Mirai no Katachi</i> Whole life insurance
	Term life insurance	Insurance with death protection for a set period	Nissay <i>Mirai no Katachi</i> Term life insurance
	Term life insurance with survival benefits	Insurance that provides special payouts in addition to death protection for a set period	Nissay <i>Mirai no Katachi</i> Term life insurance with survival benefits
Insurance that covers risk of serious diseases and nursing care*1	New three major diseases insurance	Insurance that covers cancer, acute myocardial infarction and stroke (option with death coverage available)	Nissay <i>Mirai no Katachi</i> New three major diseases insurance “ <i>Three Major Diseases 3 Jumaru</i> ”
	Specified serious disease insurance coverage	Insurance focused on coverage for specified serious diseases with reduced emphasis on death coverage	Nissay <i>Mirai no Katachi</i> Specific medical coverage “ <i>Daijobu</i> ”
	Physical disability insurance	Insurance that covers physical disability and death	Nissay <i>Mirai no Katachi</i> Physical disability insurance
	Nursing care insurance	Insurance that covers specified conditions that require nursing, as well as death	Nissay <i>Mirai no Katachi</i> Nursing care insurance
	Dementia coverage insurance	Insurance focused on coverage for dementia with reduced emphasis on death coverage	Nissay <i>Mirai no Katachi</i> Dementia coverage insurance “ <i>Ninchisho Support Plus</i> ”
Insurance that covers medical risks	General hospitalization insurance	Insurance that covers hospitalization, surgery, etc.	Nissay <i>Mirai no Katachi</i> General hospitalization insurance “ <i>NEW in 1</i> ”
	Income support insurance for continuous hospitalization	Insurance that covers decreases in income due to a certain period of continuous hospitalization	Nissay <i>Mirai no Katachi</i> Income support insurance for extended hospital stays “ <i>Shu NEW 1</i> ”
	Cancer medical insurance	Insurance that covers hospitalization, surgery, etc. due to cancer	Nissay <i>Mirai no Katachi</i> Cancer medical insurance
	Limited injury insurance	Insurance for treatment of broken bones due to an accident	Nissay <i>Mirai no Katachi</i> Limited injury insurance
Insurance that covers risk of requiring accumulated funds for old age and other risks*2	Annuity insurance	Insurance that enables systematic planning of living expenses after retirement	Nissay <i>Mirai no Katachi</i> Annuity insurance
	Endowment insurance	Insurance that enables asset formation over a set period while providing death protection	Nissay <i>Mirai no Katachi</i> Endowment insurance

*1 Death claim payouts for insurance against physical disability and nursing care are the same as the sums paid out under these respective policies.

With specified serious disease insurance coverage and dementia coverage insurance, payout on death is limited to 10% of the sum paid for these respective insurances. With the new three major diseases insurance coverage, customers can choose Death Coverage 100% with a payout on death that is equivalent to the sum paid for the three major diseases insurance claim or Death Coverage 10% that has a payout on death limited to 10% of the sum paid for the insurance claim.

*2 With endowment insurance policies, death claim payouts are the same amount as the total amount of maturity benefits payable on the policy.

◆ Other Products and Systems

Type of Insurance		Summary	Product Name
Protection for children	Juvenile insurance	Insurance that provides for children's education expenses, the death of the policyholders, etc.	Nissay juvenile insurance "Genki"

* Sales were on hold as of July 5, 2022.

Note: The foregoing statements provide an overview of products and do not include all information related to the policy.

When considering a policy, please be sure to confirm by reading the pamphlets, prospectuses (policy guides), reminders, "Policy Clause—Bylaws/Terms and Conditions" and other materials.

In April 2022, we reduced the assumed interest rates for some individual insurance and annuities policy products to address customer needs for long-term stable asset formation and guaranteed coverage even in an environment with low-interest rates.

Assumed Interest Rates on Main Eligible Products

(Unit: %)

Eligible products	Assumed interest rates		
	Prior to revision (until March 31, 2022)	Revised (from April 1, 2022)	Extent of revision
Annuity insurance* Endowment insurance* Term life insurance with survival benefits Long-life insurance (low surrender value type)	0.85	0.60	(0.25)
Whole life insurance* Long-term term life insurance Long-term life coverage with period of extensive coverage for accidents insurance ----- <The revisions for the following products only apply to those with whole life coverage periods> Nursing care insurance Dementia coverage insurance General hospitalization insurance Cancer medical insurance Three major diseases insurance General medical insurance	0.40	0.25	(0.15)

* Excluding single-payments

The insurance premium rates applicable for term life insurance, specified serious disease insurance coverage, physical disability insurance, income support insurance for continuous hospitalization, limited injury insurance, juvenile insurance, children's general medical insurance, education endowment insurance, coverage against the three major diseases with birth support benefits, single-payment whole life insurance, increasing term insurance, three major diseases insurance coverage with continuous support, fixed-term nursing care, dementia coverage, general hospitalization, cancer medical, three major diseases and general medical insurances during the coverage period, and updated policies which were originally underwritten on or before April 1, 2012 are outside the scope of this revision.

We reduced the policy loan rate for policies dated after April 2, 2022, to further address the funding needs of customers. The policy loan rate for current policyholders will be partially reduced from October 1, 2022.

(Unit: %)

Policy term	Current policy loan rate (until September 30, 2022)	Revised policy loan rate (from October 1, 2022)
Policy on or prior to April 1, 1994	5.75	5.75
Policy from April 2, 1994 to April 1, 1996	4.75	4.75
Policy from April 2, 1996 to April 1, 2001	3.75	3.75
Policy from April 2, 2001 to April 1, 2014		3.05
Policy from April 2, 2014 to April 1, 2017	3.00	2.55
Policy from April 2, 2017 to April 1, 2022		2.25
Policy on or after April 2, 2022	2.00	2.00

Note: The policy loan rates on this table may vary for some products including asset-formation insurance, corporate insurance and variable interest rate annuity insurance.

◆ Services

<Zutto Motto Service>

The “Zutto Motto Service” is a unique Nippon Life service offered to policyholders. This service reflects Nippon Life’s commitment to “work even harder and longer (*zutto motto*) at providing each policyholder with better after-sales services.”

Through this service, policyholders and their families provide us with information about their status. This enables us to supply timely information that reflects changes in the lives of policyholders. Staying in touch also makes it possible to perform insurance claim and benefit procedures and many other tasks more efficiently.

As one of the benefits of the “Zutto Motto Service,” the “Health and Nursing Care Consultation Line” offers the following toll-free consultation services on health, nursing care and childcare.

Consultation Services	Summary
Health consultation	Consult with specialists at any time about health concerns.
Support services for lifestyle diseases	Users can consult with specialists at any time regarding concerns over lifestyle diseases.
 <small>女性の体の悩み電話相談</small> Wellness-dial <small>ウエルネスダイアル</small>	A telephone counseling service by female specialists to discuss health issues and medical symptoms specific to women. Note: Limited to female policyholders
 育児相談しまとライン	Consult with specialists at any time about the health and care of children.
Nursing care consultation	Consult with specialists at any time about dementia and nursing care.

Notes: 1. The Health and Nursing Care Consultation Line is one of the benefits of Zutto Motto Service which is provided by Life Care Partners Co., Ltd. This is not an insurance product or service of Nippon Life. We are not liable for any damage incurred through using this product or service.
 2. For detailed service descriptions and information on how to access the Zutto Motto Service, please see the Nissay website.
 3. Individual customers issued with an ID by Nippon Life are eligible for the Zutto Motto Service (some exceptions exist).

<aruku& (arukuto) × Kurashi no Notore>

Combining the challenges of daily walking and brain training is expected to lead to healthier bodies and brains easily and enjoyably.

The following people can use the service:

- Nippon Life policyholders and insured persons

Notes: 1. *aruku&(arukuto)* and *Kurashi no Notore* are respectively a smartphone app managed by ONE COMPATH CO., LTD. and a service provided by Nissay Information Technology Co., Ltd. This is not an insurance policy or service of Nippon Life. We are not liable for any damage incurred through using this product or service.
 2. The registered trademark for *aruku&(arukuto)* belongs to ONE COMPATH CO., LTD.
 3. The registered trademark for *Kurashi no Notore* belongs to Nissay Information Technology Co., Ltd.
 4. *Kurashi no Notore* does not ensure cognitive abilities or the prevention of severe medical conditions.

<Nissay Bereaved Relative Support Service>

Provides complete support to bereaved relatives for the various procedures that must be carried out when an insured passes away. (Telephone consultation (free of charge) / the provision of reports (free of charge) / procedures performed by specialist agents (subject to fee) etc.)

The following people can use the service:

- Death benefit recipients (or the surviving family)

Note: Nissay Bereaved Relative Support Service is a service provided by SEIWA BUSINESS LINK CO., LTD. This is not an insurance policy or service of Nippon Life. We are not liable for any damage incurred through using this product or service.

<Policyholder Support Service>

When it is difficult for an elderly customer to make an inquiry about the procedure themselves, a registered family member may provide support to the customer.

Note: Provided as a service combining the existing Contract Information Family Contact Service and the Policyholder Agency System.

The following people can use the service:

- In principle, individual policyholders aged 70 or over

Note: Products for companies and organizations and those offered through the bancassurance channel are ineligible.

<Gran Age Star> **Paid**

A service for seniors with information on trips with special events in addition to "personal references," "living support," "voluntary guardianship" and "posthumous administrative services such as funerals and interment."

The following people can use the service:

- All customers

Notes: 1. Gran Age Star is the name of services provided by different service providers. This is not an insurance policy or service of Nippon Life. We are not liable for any damage incurred through using this product or service.

2. Each service within Gran Age Star is available for all customers.

—Customers without life insurance policies with Nippon Life may use these services.

3. To use this service, customers must enter into contracts with the companies providing each service.

4. Gran Age Star may not be available depending on the region.

Provides introductions free of charge to physicians from the outstanding specialists selected for its Best Doctors in Japan™ list.

Notes: 1. Outstanding specialists means skilled specialists recommended by physicians selected by Best Doctors, Inc. based on questionnaires of numerous physicians.
2. Fees for treatments and second opinions are entirely borne by the user.

Policyholders diagnosed with the following conditions are eligible for the service.

Cancer*1	Heart disease*2	Stroke*2	Liver disease*2

- Disability insurance (no surrender refund)

Notes: 1. The Best Doctors® Service is provided by Houken Corporation. This is not an insurance policy or service of Nippon Life. We are not liable for any damage incurred through using this product or service.
2. Best Doctors® and Best Doctors in Japan™ are trademarks of Best Doctors, Inc. in the United States and other countries.
3. Disease/diagnostic criteria used to confirm eligibility for the Best Doctors® Service differ from those applied to products of Nippon Life.
4. This is not a service aimed for hospitalization or referrals.
5. This service does not cover necessary emergency surgeries.
6. The eligible conditions above are subject to change.

We support customers to develop their optimal health through a smartphone app to prevent the recurrence and aggravation of heart disease and cerebrovascular disease.

Note: This is a six-month program. Fees to continue services after two months since starting the program and some optional fees will be borne by the user.

Policyholders diagnosed with the following conditions are eligible for the service.

Angina pectoris	Acute myocardial infarction	Cerebral aneurysm	Transient ischemic attack	Stroke
-----------------	-----------------------------	-------------------	---------------------------	--------

Notes: 1. Services may not be available for cases that do not meet the criteria established by the companies providing the service or the determination of the physician.
2. After the cancellation of the policy, services can be used for two years from the day following the date that insurance claims for three major diseases insurance are paid (or the date that the first annuity payment is made in the case of special provisions pertaining to annuity payments for insurance claims in which the entire insurance claim is paid with the annuity payment).

The following people can use the service:

- *Mirai no Katachi* “new three major diseases insurance” insured persons

Note: Lifestyle Improvement Support Program is a service to prevent severe medical conditions provided by PREVENT inc. This is not an insurance policy or service of Nippon Life. We are not liable for any damage incurred through using this product or service.

Qualified counselors from NICHIGAKKAN CO., LTD. (care managers, etc.) provide consultations via phone or home visits for worries, concerns or the like regarding dementia or nursing care.

Note: Do not act as agents or arrange reservations for nursing care facilities, medical institutions, etc.

The following people can use the service:

- *Mirai no Katachi* nursing care insurance
 - *Mirai no Katachi* dementia coverage insurance
 - Nissay Variable Interest Rate Single-Payment Increasing-Coverage Whole Life Insurance (Policy on or after April 1, 2013)
 - Nissay Single-Premium Whole Life Insurance Policy with Variable Accumulation Rate in a Designated Currency
 - Nissay Variable Insurance with Designated Currency Living Benefit
 - Nissay Term Life Insurance with Designated Currency Living Benefit (fixed rate only)
- insured persons, death benefit recipients, fixed-payment recipients, survival benefit recipients, designated proxies and agents for policyholders

Note: *Ninchisho Kaigo Anata no Soba no Concierge* service is provided by NICHIGAKKAN CO. LTD. with Life Care Partners Co., Ltd. as an agency. This is not an insurance policy or service of Nippon Life. We are not liable for any damage incurred through using this service.

Orally answering questions from the app enables easy confirmation of cognitive abilities on that day.

The following people can use the service:

- *Mirai no Katachi* "dementia coverage insurance" policyholders and insured persons

Notes: 1. ONSEI is a service provided by Nipponect Systems co., Ltd. This is not an insurance policy or service of Nippon Life. We are not liable for any damage incurred through using this service.

2. The registered trademark for ONSEI belongs to Nipponect Systems co., Ltd.

3. This does not guarantee any connection with dementia or mild cognitive impairment (MCI).

Notes: 1. The services listed above on p. 11–14 are current as of July 2022. Service content may be revised, or the services may be discontinued in the future.

2. Conditions apply when using the services listed above on p. 11–14. For detailed service descriptions and the terms of service for the companies providing each service, please see the Nissay website.

Non-Life Insurance Products (as of April 2022)

Nippon Life handles non-life insurance products centered on automobile insurance and fire insurance products as an agency for Aioi Nissay Dowa Insurance Co., Ltd. In automobile insurance, Nippon Life has been promoting sales of "TOUGH Mimamoru Automobile Insurance Plus" and "Long," an automobile insurance product with special "accident free" payouts. Long automobile insurance offers special "accident free" payouts*1 to policyholders who have no accidents during the coverage period of three years. Long offers many advantages to customers, for example, the premium rate determined at enrollment stays fixed at its original annual rate for each year, even if the policyholder has an accident during that time. Also, policyholders need not undertake annual renewal procedures during the coverage period. For a good deal, we recommend the "Long Policy"*2 for fire insurance and earthquake insurance as well.

Furthermore, Nippon Life offers "Marugoto Mamoru" an insurance product that covers the third-party liability risk associated with bicycle accidents and similar events, and "Pet Insurance"*3 policies to provide coverage for veterinary care expenses. Demand for such insurance products has been growing in recent years.

*1 10% of the first-year premium.

*2 "TOUGH" house insurance (policy with multi-year annual payments or multi-year installment payments) with up to five years of coverage.

*3 Pet Insurance policies are joint insurance contracts underwritten by Aioi Nissay Dowa Insurance and au Insurance Co. Ltd.

Note: The above statements provide an overview of products (riders). When considering a policy, please be sure to confirm details by reading pamphlets, the Explanations of Important Matters, Policy Overview and Reminders, the Policy Clause (Ordinary Insurance Policy Clause—Terms and Conditions and Riders) and other materials.

Products and Services for Corporate Customers

Nippon Life offers a broad range of products and consulting services to match the needs of corporate managers and company owners who are working to enhance benefit plans for their employees.

Nippon Life's Main Corporate Products (as of July 2022)

Represents self-reliant products: Insurance premiums that are borne not by the corporation or organization, but by the employees themselves.

Note: Although the above lists the names of Nippon Life products that pertain to main benefit plans, it does not cover all the particulars pertaining to policies. When reviewing a policy, always confirm policy details by reading pamphlets, Policy Clauses—Bylaws / Terms and Conditions, pre-contract documents based on Article 37-3 of the Financial Instruments and Exchange Act as applied mutatis mutandis, Especially Important Notifications and other information.

Besides the non-life policies detailed above, Nippon Life partners with Aioi Nissay Dowa Insurance Co., Ltd. to supply corporate clients with other non-life insurance products and services. Further details can be found on the Aioi Nissay Dowa website.

<https://www.aioinissaydowa.co.jp/english/>

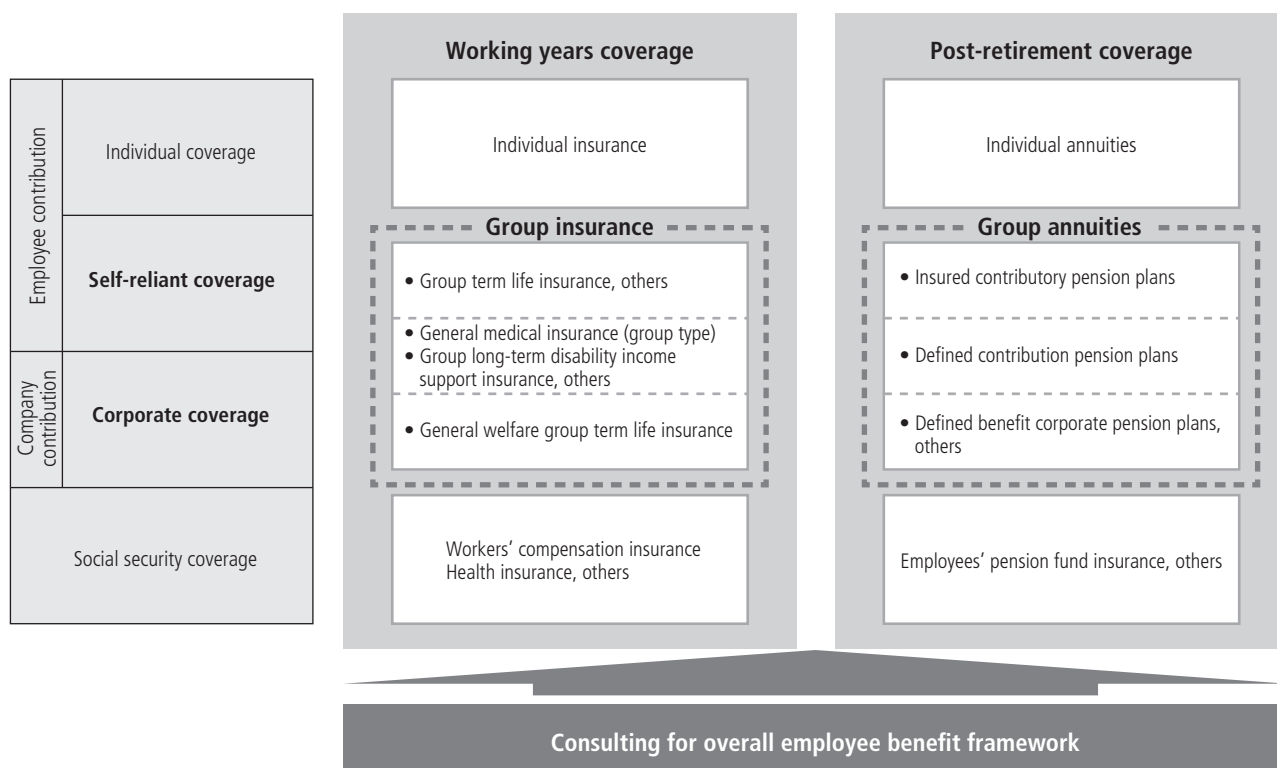

Note: Excludes some products and services such as compulsory auto insurance lines.

Services for Establishing and Upgrading Employee Benefit Plans

◆ Implementation of Total Consulting for Employee Benefits

Significant changes in society and the management of companies are creating more diversity in how companies employ people, how people lead their lives, and in people's awareness of these issues. As a result, an increasing number of companies and other organizations are considering revisions to their employee benefit programs.

We aim to provide total consulting and information provision services for employee benefits in order to work with companies and organizations to solve issues as a primary partner in employee benefits.

<Total Consulting for Employee Benefits>

Nippon Life provides consulting on the design of employee benefit plans based on social security system and supports employees' individual lifestyle design plans to address employees' coverage needs during their working years and after retirement.

[Working Years Coverage]

In corporate coverage, we offer products that support the design of employee benefit plans, and the leveling of costs and back finance, based on trends in social security system, industry conditions and the requests of customers. These products cover plans that make condolence payments or non-statutory workers' accident compensation payments, and plans that provide support to employees if they are unable to work.

In self-reliant coverage, we offer advice on designing plans such as coverage plans that allow employees to cover expenses in case of an emergency. We also offer advice to encourage the use of such plans.

[Post-Retirement Coverage]

In corporate coverage, we offer clients consulting on pension plan design. This consulting service assists clients with various amendments they may need to make to their pension plans, such as modifying and consolidating pension plans. In pension fund management, we offer clients consulting on pension fund management, including asset allocation in shifting market conditions and simulation testing. In October 2015, we started referring clients to Nissay Asset Management Corporation to provide optimized pension plan management services and various related products on a discretionary contract basis.

In self-reliant coverage, we offer advice on designing plans such as savings plans that allow employees to supplement government annuities or cover expenses until an annuity starts. We also offer advice to encourage the use of such plans.

<Service to Supply Information about Employee Benefits>

Nippon Life supplies a wide range of information about employee benefits by holding seminars, publishing reports and through other activities.

(Main activities)

- Supply information about changes in employee benefit plans
- Supply information about work style reforms (such as assistance for balancing work with childcare, nursing care and medical treatment, and equal pay for equal work policies)
- Supply information about Kenko-Keiei®* (Health and Productivity Management) and health planning based on medical data
- Supply information about mental health programs
- Supply information about the employment of seniors (including extending the mandatory retirement age)

[Seminars]

Seminars on welfare (work practice reforms, Health and Productivity Management, promotion of female employment, etc.) and corporate pensions (fund management, latest trends, etc.)

[Reports]

Corporate welfare reports, welfare survey and research reports, guide maps on future trends in corporate welfare (welfare guidebook) and pension-related news

* Kenko-Keiei® is a registered trademark of Nonprofit Organization Kenkokeiei.

Risk Mitigation Solution from Nippon Life to Upgrade Corporate Welfare Systems

In the past few years, in conjunction with diversification in how companies employ people, responses to work style reforms and remote work as well as support for balancing work with nursing care or illnesses are becoming even more important. With these trends, the needs of companies for welfare have become more and more diverse.

For business owners working to enhance their corporate welfare systems, Nippon Life designs various plans and offers products to mitigate four types of risks for employees.

<p>(1) Coverage for death risk</p> <p>General Welfare Group Term Life Insurance</p> <p>POINT Upgrades welfare via condolence payments, severance payments to the estate of deceased employees, non-statutory workers' accident compensation, etc.</p>	<p>(2) Living costs associated with longevity risk</p> <p>Defined Benefit Corporate Pension Plans Defined Contribution Pension Plans</p> <p>POINT Standardizes the provision of post-retirement coverage and pension contributions for directors and employees.</p>
<p>(3) Risk of losing capacity to work</p> <p>Group Long-Term Disability Income Support Insurance</p> <p>POINT Provides permanent income coverage for directors and employees unable to work due to injury or illness.</p>	<p>(4) Hospitalization/surgery risks</p> <p>General Medical Insurance (Group Type)</p> <p>POINT Subsidizes the costs of admission to hospital or surgery for directors and employees.</p>

◆ Corporate Policy-Related Services

"N-Concierge" (Corporate Policy Support Service)

[Services available to those covered by corporate policies]

Those who are covered by corporate policies are able to use certain products and services at a special price for a limited time, in addition to the access to various services for health, nursing care, lifestyle, leisure and entertainment that are beneficially priced.

[Services available to HR or general affairs personnel]

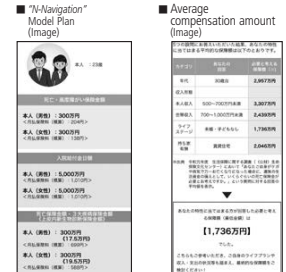

Free specialist consultation available on issues such as employee mental health, taking leave and returning to work, as well as provision of free or beneficially priced information and services useful for resolving labor-related issues, such as support to avoid workers leaving because of nursing elderly parents.

"N-Navigation" / "Corporate Insurance Internet Service"

Our "Corporate Insurance Internet Service (Kiho Net)" helps personnel in HR departments or employees of corporate clients to complete procedures quickly online for eligible group insurance and contributory pension plans.

We also provide the "N-Navigation" to make it simpler for personnel in HR departments or employees to enroll online (or check the status of enrollment application) using a smartphone or PC for self-reliant coverage products such as group term life insurance policies.

Nippon Life strives to improve support for employees to enroll in insurance or review insurance coverage by giving descriptions using model plans or average amounts of coverage.

"NISSAY Business INSIGHT" Portal Site to Support Corporate Management

In April 2021, Nippon Life launched "NISSAY Business INSIGHT," a portal site to support corporate management. The portal site brings together information on how various management issues faced by companies in different phases of growth might be solved. In doing so, Nippon Life aims to make it even more convenient for companies to access information as digitalization proceeds further.

(Main content published on the portal website)

- (1) Feature articles that lead to the solution of business issues faced by companies
- (2) Case studies of the use of corporate insurance and insurance for business owners
- (3) Seminars that can be viewed free of charge online
- (4) Acceptance of entry to the NISSAY business matching service

NISSAY Business INSIGHT

Corporate Zutto Motto Service

[Nissay Corporate Internet Service]

Customers can obtain information on policy details, accounting and future receipts over the internet.

In addition, customers can take out policy loans, withdraw accumulated dividends, defer special payments and perform other transactions through online procedures to respond to urgent funding needs.

[Management Consultation and Employee Benefit Service]

Customers can undergo management consultation or use benefit services such as access to leisure facilities and health support.

"Five-Star Rating" for Defined Contribution (DC) Pension Plan Call Center for Nine Consecutive Years

The "NISSAY DC Call Center" and "NISSAY DC Internet Site" (a website reserved for participating members) received a "Five-Star Rating" from HDI-Japan* under the "HDI Five-Star Certification Program." Nippon Life is the only company in the defined contribution pension plan industry to be given the highest rating for nine consecutive years.

* HDI (Help Desk Institute) was established in the U.S. in 1989 and has grown to become the world's largest membership-based customer support and service association. HDI establishes international support standards, operates an international certification program and has other activities. Activities in Japan are performed by HDI-Japan.

From Application to Conclusion of a Policy

General procedures and information disclosure at the time of enrollment in an individual insurance policy are as follows.

Note: Processes may not necessarily follow the pattern below due to policy details, the scheduling of various procedures and other factors.

Procedure Flow

Considering a Plan

Tell us what kind of coverage you want.

Examine the plans by referring to the prospectuses (policy guides) and product pamphlets.

Note: Please be sure to read prospectuses (policy guides) when considering an insurance policy application, as they contain important matters regarding coverage details, situations in which insurance claims and benefits cannot be paid and other information.

Product pamphlet

Application

We ask the customer to reconfirm before applying that the product is what they really want, and then enter these details via the "TASKALL" customer intention confirmation screen.

The customer should enter their data and provide the digital signature by inputting it into the "TASKALL" wireless terminal. We also ask them to certify with their signatures that they have received the "Especially Important Notifications" and "Policy Clause—Bylaws/ Terms and Conditions."

Application procedure screens (Image)

Before proceeding with the application procedure, we clearly explain important matters and demerit information.

To prevent unreasonable loss for customers due to a lack of information, Nippon Life has prepared a pamphlet entitled "Especially Important Notifications" * that explains items we would especially like customers to confirm, such as product details, disclosure obligations, examples of when insurance claims and benefits cannot be paid and other items. The pamphlet is given to customers along with the "Policy Clause—Bylaws/Terms and Conditions."

*Prospectus (policy guide), reminder, and others

Disclosure

When entering information about the insured's medical history and current state of health via the "TASKALL" disclosure screen, or when answering questions posed by a doctor designated by Nippon Life during an examination, please provide accurate and complete answers.

Duty of Disclosure and Penalties for Nondisclosure

Customers are required to disclose accurate and complete information regarding their health condition. Please be aware that in the event that facts are not disclosed or inaccurate information is provided, whether intentionally or by gross negligence, the policy or rider may be canceled on the grounds of nondisclosure, and Nippon Life might not pay insurance claims and benefits.

Disclosure screens (Image)

Prospectus (policy guide)

Guidance on Policies and Services

To ensure greater peace of mind for customers, in addition to sales representatives, customer service representatives also conduct meetings with customers to provide explanations via telephone or an actual visit to confirm application details and provide guidance on policy procedures.

The goal is to help customers to understand insurance products and important matters more clearly, as well as to improve after-sales services based on accurate customer information.

Reminder

Conclusion of a Policy

Commencement of Policy Coverage

Once a customer agrees to have Nippon Life underwrite their insurance policy, policy coverage commences upon the completion of the application and disclosure process (processes differ for single-payment insurance policies).

Confirmation of the "Policy Content Notice"

Once a policy is underwritten, Nippon Life sends the "Policy Content Notice" to the policyholder. We ask the customer whether or not there are discrepancies between the information provided on the "Policy Content Notice" with that provided at the time of application.

In the event that the policy content differs, or if you have any questions, please contact a Nissay Call Center using the contact details provided on the reverse side of the "Policy Conclusion Notice."

Customer ID Notice

Nippon Life will send you a customer ID, which is necessary to complete various services and procedures.

When you have received the "Customer ID Notice," please promptly register your password (a four-digit PIN code).

Note: In principle, Nippon Life will not deliver a Customer ID Notice to customers who already have such an ID. These customers are asked to log in to their account from the Nissay website, and confirm whether their customer ID and password (four-digit PIN code) are valid.

Decisions About Underwriting at Nippon Life

Life insurance is a system wherein a large number of people, through insurance payments, mutually support one another. In order to maintain fairness between policyholders, decisions about underwriting are made based upon the content of the application and disclosure forms.

Payment of Premiums

After the conclusion of a policy, Nippon Life requests that customers pay premiums using the method that they designated at the time of application.

◆ For any questions about policies, please check the "Policy Clause —Bylaws / Terms and Conditions."

The "Policy Clause—Bylaws/Terms and Conditions" contain critical information about the policy and various procedures. As such, it is an extremely important set of documents that must be consulted not only during the application process, but during the term of the policy. Terms and conditions of the policy dictate the agreement from policy enrollment to expiration and contain information about claims receiving as well as the processing of premium payments and also explain about the invalidation of the policy in the event of premium nonpayment and the handling of policy cancellations.

Additionally, as an effort to improve convenience for customers and reduce environmental impact through reduction of paper resource usage, we have offered information about the terms and conditions and policy clause on the Nissay website since April 2018 and October 2019, respectively. We provide customers with a booklet ("Policy Clause—Bylaws/Terms and Conditions" (universal version)) which includes information such as how to view a summary of the reminders or policy clause. These documents must be confirmed during the application period, so we ask that you store them in a safe place. We will also prepare a booklet in case a customer requests details about the policy clause or terms and conditions in a paper format.

◆ Cooling Off System

Under what is known as the cooling off system, applicants and policyholders may withdraw their applications or cancel their policies by submitting a written request or an electronic record within eight days from the later date of either the application date or the date they received the "Policy Clause—Bylaws/Terms and Conditions (universal version)" (if the policyholder had used the coverage revision system or partial coverage revision system, the policies will be returned to the policies in force before the systems were used).

[Submitting a Written Request]

In this case, written requests under the cooling off system are considered active from the time they are sent (the postmark date) and must be mailed within the eight-day period and sent to the sales office or Nissay Life Plaza that handled the application or policy.

[Submitting an Electronic Record]

We provide the Nissay website as the main service counter for submitting an electronic record. This must be submitted on the website within the eight-day period.

If the customer decides to change his/her mind under the provisions of the cooling off system, Nippon Life will return in full any premiums received during the cooling off period.

The cooling off system does not apply after an examination by a doctor designated by Nippon Life or when the customer is a corporate client.

Requesting Payment of Insurance Claims and Benefits

In the event of hospitalization, surgery or other unexpected events that may warrant the payment of insurance claims or benefits, the first thing to do is to contact us through your sales representative, visit a nearby Nissay Life Plaza or other service counter, or contact a Nissay Call Center. Internet claims can be made for certain hospitalization or surgery benefits using the Nissay website or Nippon Life app.

To prepare for the unexpected, please confirm the details of your policy and make sure that the insured person and the beneficiary (or designated proxy) also understand the details of the policy.

Procedure Flow

An Event Occurs That Is a Reason for Payment of Claims or Benefits

When an event occurs that is a reason for payment of claims or benefits, please contact us through one of the following.

- Your sales representative
- Nissay Life Plaza
- Nissay Call Centers 0120-201-021 (Toll-free in Japan)
(For details, please check our website)

Note: Internet claims can be made for fixed hospitalization or surgery benefits using our website or app.

Filing a Mortality Insurance Claim

The beneficiary himself or herself should file a mortality insurance claim.

Filing a Claim for Hospitalization and/or Surgery

The insured person should personally file any claim for hospitalization and/or surgery benefits. In the event of the death of the insured, his/her lawful heir(s) should submit the payment request. However, in the event that such heir(s) is (are) unable to submit a payment request of their own volition, a designated proxy may submit the claim.

Receiving Claim Processing Documents

We will provide you with a set of claim processing documents, either in person or by post. In the case of sending by post, the forms will be dispatched around one week after you contact us.

Note: We may be unable to process claims by post in some cases.

Documents Required for Processing Claims

Please confirm the documents required for processing claims shown on the guidance sheet provided to you when filing claims.

Submitting Claim Processing Documents

After filling out the required sections of the claim processing documents, submit them to your sales representative either in person or by post. You can also bring them to a service counter yourself.

Receiving Payment of Claims or Benefits

If the payment assessment results in a decision to make a payment, you will be asked to carry out payment procedures.

Once the payment procedures are complete, we will send you a "Payment Statement" by post. Please confirm the details of the statement.

In cases where we cannot make a payment for a claim, we will notify you and provide the reason.

◆ Guidance for Application Procedures

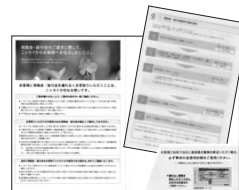

To ensure that customers receive full payments of claims and benefits, Nippon Life delivers documents with information about the application procedure and related matters and prepares various booklets and pamphlets.

Information Provided When Applying for Payment of a Claim or Benefit

After receiving an application, Nippon Life sends the policyholder a document with information about the application procedure.

The document informs policyholders of the documents required to submit a claim. Policyholders can also use this document to reconfirm the content of their claim and policy and to check that they have not overlooked any claims.

A video explaining the procedures for benefits and points to remember can be viewed on the Nissay website and on TASKALL wireless devices carried by sales representatives.

Video image

"The Receipt of Insurance Claims and Benefits"

This booklet explains the procedures for requesting insurance claims and benefits, as well as examples of circumstances in which payments may or may not be received. The pamphlet is also available on Nissay website.

Information Provided When a Claim or Benefit Payment Is Received

To ensure that customers receive all claim and benefit payments they are entitled to, Nippon Life encloses materials about various points to check payment statements.

◆ **Designated Proxy System**

The Designated Proxy System is a system whereby a designated proxy may request the payment of benefits on behalf of the beneficiary in the event that the beneficiary is unable to request payment of his/her own volition, or in the event that circumstances designated by policy clauses occur. A designated proxy must be selected in advance through prescribed procedures. This system may also be applied to your existing policy (service not applicable to corporate policies).

◆ **Cases Where Insurance Claims, Pensions or Benefits Cannot Be Received**

Notification will be delivered to policyholders if payment of insurance premiums is not made in the month it is due. However, if the premium payment is not made within a designated period, the policy will be invalidated*, and customers will be unable to receive insurance claims, annuities, and benefits, even if there is a reason for payment.

* Procedures differ depending on the type of policy, enrollment period, and other factors, so please confirm the "Policy Clause—Bylaws/Terms and Conditions" for the policy you are enrolled in.

Consultation Counter for the Receipt of Payments of Insurance Claims and Benefits

Nippon Life has a consultation counter exclusively for the receipt of payments of insurance claims and benefits by customers. Customers are encouraged to contact the Nissay consultation counter with any queries relating to receiving policy claims, benefits, or related points (specialist consultants are available to answer questions directly).

For customers who are dissatisfied with the explanation provided by the sales representative and wish to consult with a third party, we have also established the Outside Lawyer Consultation System, whereby we introduce these customers to lawyers from outside of the Company, with whom Nippon Life has not concluded advisory agreements, for free consultations. If customers wish to use the Outside Lawyer Consultation System, they can inquire at a Nissay office.

When a customer files an objection regarding the payment of insurance claims or benefits, the Claims-Related Services Review Session reviews the appropriateness of the claim and makes recommendations to the payment units based on its findings. Two lawyers from outside of the Company* are appointed as the chair and vice-chair of this committee.

If customers remain unsatisfied after using the Outside Lawyer Consultation System, they can request a review by the Claims-Related Services Review Session.

* Legal professionals with whom Nippon Life has not concluded advisory agreements

[Use of the Request System in the Fiscal Year Ended March 31, 2022]

	Number
Number of cases where the Outside Lawyer Consultation System was used	3
Number of cases where a request for reevaluation was made and deliberation was conducted at the Claims-Related Services Review Session	2

Nippon Life's Solicitation Policy

We will do our best to earn customers' trust and strive to ensure appropriate solicitation activities.

We sell insurance and other financial products in compliance with all laws and regulations, but beyond that, we emphasize integrity in our sales, in order to merit the trust of our customers and society.

<Sales and Appropriate Solicitation Based on Customer Needs>

Comprehensively taking into account customers' knowledge of insurance and other financial products, their purpose for purchasing the policies, their family situation and their asset status, we constantly carry out consultative sales so that customers choose the most appropriate insurance and other financial products while explaining products from the customers' standpoint.

Nippon Life uses policy guides and reminders to explain policies in an easy-to-understand manner so that customers fully understand the content of insurance products and how they work, and takes steps to confirm that the products match the needs of customers.

In particular, for such products as variable annuities, foreign currency-denominated insurance and investment trusts that entail market risk, we recommend those considered most appropriate for each customer's age, knowledge and investment experience while giving appropriate explanations regarding products and their risks.

When explaining products over the phone or during customer visits, we take the customer's perspective while giving sufficient consideration to time, place and other factors.

We are striving to eliminate moral risk and ensure that proper notification is received

from customers so that we treat all policyholders impartially and operate a morally sound insurance system. In particular, when underwriting life insurance policies that insure juveniles, we strive for proper solicitation by ensuring that the customers' needs are met once proper insurance coverage amounts have been established.

We do not get involved in antisocial activities that pose a threat to social order and safety, such as those of organized crime, and we take a resolute stand if we do come into contact with such activities.

<Appropriate Solicitation Activities through Education and Training>

Moreover, we are striving to ensure that our solicitation activities are appropriate by educating, managing and instructing all employees and executives through a systematic training program that includes compliance-related training.

<Proper Handling of Customer Information>

Nippon Life takes steps to properly manage, use and protect customer information.

<Responding to Customer Feedback>

Nippon Life is constantly gathering a wide range of opinions and suggestions from customers so that it can act on this feedback to increase customer satisfaction.

Personal Information Protection Policy (Handling Customers' Personal Information)

We have established policies regarding the handling of personal information and are working to properly manage, use and protect customer information in order to be a company that customers can trust. In order to realize appropriate protection of personal information, we continue to maintain and improve this policy.

1. Information Collection

Customers' personal information is collected to the extent required to conduct business, specifically to underwrite various insurance policies, continue and maintain management, and handle payments, such as for insurance claims and benefits.

2. Types of Information Collected

We collect information necessary to the conduct of business, underwrite various insurance policies, conduct continuation and maintenance management, and handle payments such as for insurance claims and benefits. This information primarily includes a customer's name, address, date of birth, state of health and occupation. Furthermore, for other types of products and services we offer, customers provide additional information necessary to conduct business.

3. Information Collection Method

We collect customer information using legal and impartial methods. The information is mainly collected through policy applications, contracts, claims and surveys (including such documents by electronic means). Furthermore, there are times when information is gathered over the internet and through postcard surveys/mailings when conducting various activities including campaigns.

4. Purposes of Using a Customer's Personal Information

A customer's information (excluding Individual Numbers stipulated under the Act on the Use of Numbers to Identify a Specific Individual in Administrative Procedures (My Number Act)) is only used as needed for administrative purposes for the following:

- (1) Underwriting various insurance policies, conducting continuation and maintenance management and handling various types of payments, such as insurance claims and benefits
- (2) Explaining and providing various products and services, including those of related and affiliated companies and conducting policy maintenance management
- (3) Providing information concerning our business, managing our operations and expanding our lineup of products and services
- (4) Other insurance-related business

Furthermore, there are times when we analyze browsing history such as messages in emails and the content of flyers provided to customers, our website and app, and the customers' transaction history to explain and provide various products and services, which includes distribution of advertisements.

Use of customers' Individual Numbers shall be based on the Act on the Use of Numbers to Identify a Specific Individual in Administrative Procedures and for only the following uses with the scope necessary for administrative purposes.

- 1) Administrative work related to production of documentation for payments for insurance transactions
- 2) Administrative work related to production of documentation and tax withholding slips for corporate pensions
- 3) Administrative work related to opening accounts for fund management or to produce documentation for payments
- 4) Administrative work related to production of documentation for real estate transactions
- 5) Administrative work related to production of documentation for remuneration, fees, contracted sums and prizes
- 6) Any other administrative work or the like related to the Individual Number as stipulated by any other act, regulation or suchlike

The purposes of these uses are given in our Personal Information Protection Policy,

which is available through our website, Disclosure Report and elsewhere.

Furthermore, when personal information is collected directly from customers, the purpose of the use to which it will be put is clearly explained to the customer at that time.

5. Information Management and Safe Management Measures

In order to guarantee that a customer's personal information is up to date and correct, we take the appropriate steps necessary to conduct business. Furthermore, we implement measures deemed necessary and appropriate for the safe management of a customer's personal information in order to prevent its inappropriate access, leakage, loss or destruction.

6. Provision of Information

As a general rule, we do not provide a customer's personal information (excluding Individual Numbers) to third parties without receiving consent from the customer. However, in the following situations, we will provide customer information to third parties without customer consent:

- (1) When prior approval from the customer has been obtained
- (2) When the provision of a customer's personal information to a third party without customer consent is permitted by Article 23, Clause 1 of the Act on the Protection of Personal Information (Personal Information Act) or other laws and regulations
- (3) When the provision of a customer's personal information to firms that Nippon Life has outsourced work to is necessary to Nippon Life's continued business
- (4) When sharing a customer's personal information as stipulated by the Act on the Protection of Personal Information
- (5) In other cases where the Act on the Protection of Personal Information permits the provision of a customer's personal information without customer consent

When providing a customer's Individual Number to a person conducting the administrative work, or when handling of the Individual Number is outsourced partly or wholly, the Individual Number will not be provided to a third party unless for reasons stipulated under the My Number Act.

7. Disclosure, Revision or Other Processing of Information

In the event that a customer requests that their own personal information be disclosed, revised or otherwise processed, we will respond to the request promptly after confirming the individual's identity, unless there is special reason not to do so.

8. Compliance with Related Laws and Regulations

Regarding customers' personal information, we conduct business in a manner that adheres to all aspects, such as definition, attitude and handling, of the Personal Information Protection Law, all other related laws, regulations and guidelines, and the Life Insurance Association of Japan's guidelines on handling personal information protection for the life insurance industry.

9. Establishment of and Improvements to the Compliance Program

In order to guarantee that customers' personal information is being handled appropriately, a compliance program was established that all our employees, the firms to which we have outsourced work and other related parties have been made thoroughly aware of, and we conduct necessary and appropriate supervision.

Furthermore, we review and revise the policy and the compliance program when necessary.

10. Customer Requests Regarding Personal Information

Customer requests regarding the handling of their personal information are received at the personal information counter and processed in an appropriate and efficient manner.

- Consultation counter related to the handling of personal information
Nissay call centers: 0120-201-021 (Toll-free in Japan)

Operating hours: Monday to Friday 9:00–18:00; Saturday 9:00–17:00 (Excluding public holidays and the period from December 31 to January 3)

- Inquiries and consultation counter regarding contracts, etc.

Please contact a sales representative or one of the Nissay Life Plazas.

- Nippon Life as a target entity of an organization authorized to protect personal information

Nippon Life is a target entity of the Life Insurance Association of Japan, an organization authorized for the protection of personal information. The association has a reception line dedicated to complaints and consultations related to the handling of personal information.

<Contact> Insurance Consultation Center, Life Insurance Association of Japan  <https://www.seiho.or.jp/english/>

Overview of the 75th Meeting of Representatives

On July 5, 2022, the 75th Meeting of Representatives was held at the RIHGA Royal Hotel located at 5-3-68 Nakanoshima, Kita-ku, Osaka-shi.

The 147 representatives who attended the meeting on the day (196 individuals including those attending by proxy) discussed agenda items after reporting items were explained. The meeting was set up in the same manner as the previous fiscal year allowing participants to attend online in addition to in-person at the assembly hall, and 40 representatives attended the meeting online.

Nippon Life received various opinions and questions from representatives at the Meeting of Representatives.

In addition, nine company members (participating insurance policyholders) attended the Meeting of Representatives.

Reporting Items

- The fiscal year ended March 31, 2022 business report, nonconsolidated balance sheets, nonconsolidated statements of income, nonconsolidated statements of changes in net assets, consolidated balance sheets, consolidated statements of income and consolidated statements of changes in net assets
- Report on the results of the Nissay Konwakai Meetings held and advisory matters for the Board of Councilors

Agenda Items

- Approval of proposed appropriation of surplus for the fiscal year ended March 31, 2022
- Allocation of policyholder dividends based on the fiscal year ended March 31, 2022 performance
- Partial amendment of the Articles of Incorporation
- Appointment of 17 directors (excluding ones that are Audit and Supervisory Committee members)
- Appointment of five directors that are Audit and Supervisory Committee members
- Establishment of remuneration for directors (excluding ones that are Audit and Supervisory Committee members)
- Establishment of remuneration for directors that are Audit and Supervisory Committee members

In response to questions received in advance in writing and other means from the representatives, Nippon Life distributed handout materials with answers to all of the questions and requests. The chairperson and the relevant executives provided explanations and responses summarizing each representative question and request into themes.

[Question 1]

- Q. While the transition itself to a Company with an Audit and Supervisory Committee will not necessarily lead to an enhanced governance framework, I believe that this enhancement can be expected by voluntarily establishing a Nomination and Remuneration Advisory Committee with independent outside directors who are the majority and one of which serves as the chairperson. If the intention is to transition to a monitoring board, one option could be transitioning to a Company with a Nominating Committee, Etc. that further strengthens the authority of the committee as a statutory board. Will Nippon Life consider this approach in the future?

[Question 2]

- Q. While transitioning to a Company with an Audit and Supervisory Committee will be a significant change for the governance framework, a Company with a Nominating Committee, Etc. would also be an option for the governance structure. Could you discuss the reason for choosing a Company with an Audit and Supervisory Committee rather than one with a Nominating Committee, Etc. as the governance structure for Nippon Life which is a Mutual Company?

[Question 3]

- Q. I would like Nippon Life to ramp up its efforts to enhance the governance framework and grow as a leader in the financial sector.

[Responses to Questions 1 to 3]

- A**
- Nippon Life will transition to a Company with an Audit and Supervisory Committee to enhance its corporate governance framework on the condition that the partial amendment of the Articles of Incorporation is approved by the current Annual Meeting of Representatives as an agenda item.
 - Based on the Board of Directors' direct oversight of business execution, we believe that it's important for Nippon Life as an insurance company to leverage customer and employee feedback in management. In order to do so, it's necessary to build a structure in which the supervision function and execution function exert their respective capabilities as well as collaborate. Currently we have selected the transition to a Company with an Audit and Supervisory Committee to continue to develop this structure. At the present time, we are not considering a transition to a Company with a Nominating Committee Etc., that is oriented to a complete separation of the supervision function and executive function.
 - Moreover, by enhancing this corporate governance framework, we aim to (1) achieve a swift and decisive business executive structure, (2) strengthen strategic discussions and (3) reinforce the supervisory and audit function. As you point out, we recognize that to achieve our expected results it is imperative to make an operational change, not merely a change in organizational design in the transition to a Company with an Audit and Supervisory Committee.
 - In concrete terms, we would like to work on the following three items based on the initiatives stated on p. 95 of the Annual Meeting of Representatives Proposals.
 - Further improved mid- to long-term strategic discussions by opting for a scale of the Board of Directors meetings to facilitate better discussions as well as by reviewing agenda items and resolving discussions on agenda items intended to provide information
 - Further enhanced strategic planning for the execution of business and strategic discussions at the Board of Directors meetings by focusing on the deliberation of important management matters and by incorporating and actively leveraging more external knowledge at the Outside Directors Meeting established by reorganizing the Outside Directors Committee
 - Provision of strategies through the executive officers who can be flexibly arranged executing business swiftly and decisively in each unit
 - We will achieve an enhanced corporate governance structure through these initiatives. Taking into consideration the changes to the business and the environment, we would like to ceaselessly review this structure going forward.

[Questions Received in Advance]

- You seem to position the Sustainability Committee as an advisory body to the Management Committee. I have heard that the practice of establishing a Sustainability Committee within the Board of Directors with independent outside directors in a leadership role has become mainstream internationally. In Japan, there is also a trend of establishing similar committees at some firms. Could you please discuss your policies of future initiatives for sustainability and governance framework to monitor sustainability management?
- Could you please discuss the future expansion of digital transformation (DX) in the sales representative channel?
- You have to launch different apps to share screens and audio for procedures using a screen sharing system. This makes the procedures more time-consuming than those in-person. Moreover, I feel this is inconvenient since the procedures are only compatible with PCs and tablets and not smartphones. May I suggest that you take the following steps based on the attributes of policyholders rather than creating a uniform system to target a wide range of customers?
 - (1) You allow customers who are comfortable with digital technology to carry out procedures for themselves like you can with internet insurance.
 - (2) You maintain a system for sales representatives to support customers maximizing face-to-face interactions for customers who are not comfortable with digital technology.
- Could you please discuss the following regarding the elimination of successful recruitment goals for sales representatives?
 - (1) Will there be a minimum number of hires?
 - (2) What is the turnover rate for employees working less than three years?
 - (3) What efforts will be taken to prevent future turnover in addition to enhancing education such as employee training?
- In a significantly changing business environment, I would like Nippon Life to stick with customer-oriented sales valuing face-to-face support as its strength.
- As you continue to establish infrastructure during the prolonged COVID-19 pandemic, I'm worried about the mental health of sales representatives. I believe that management taking care of sales representatives will lead to improved productivity, so I would like you to commit to this more than ever.
- While national health insurance has covered infertility treatment since April 2022, I have concerns over increased financial costs when undergoing treatment not covered by insurance due to the elimination of the subsidy system. Nippon Life has insurance that covers infertility treatment, but I would recommend taking this opportunity to revise the content of that coverage. In addition, since people are still unfamiliar with this insurance, why not strengthen initiatives to improve brand recognition?
- A more careful response is required when proposing insurance for customers concerned about the underwriting of new insurance policies regarding past benefit claim history and other information. Have the necessary measures been introduced in this respect?
- If you have no choice but to refuse to underwrite a insurance policy, is there a system in place to clearly explain this to customers such as notification documents, actions you'd like to take or other guidelines?
- Could you please discuss how the prolonged situation in Russia and Ukraine will impact management?
- Could you please discuss the impact of the hikes in US interest rates on your investment securities portfolio and the measures you are taking for this?
- Cyberattacks are increasing due to the impact of the situation in Russia and Ukraine. As such, surely it is necessary for Nippon Life to further strengthen cyber security measures since it retains a lot of customer information? Also, may I suggest that you highlight whether Nippon Life handles any insurance for cyber security?
- As part of its initiatives to address climate change, Nippon Life Group sets a reduction of at least 51% of CO₂ emissions (versus fiscal 2013) in its business activities as an intermediary target for the fiscal year ending March 31, 2031. How will you measure CO₂ emissions and what are your initiatives to achieve this target?
- Could you please discuss the specific carbon neutral measures at Nippon Life Group and the possibility of accelerating them?
- You mentioned that the customer satisfaction survey was conducted for customers in agency and financial institution over-the-counter distribution channels as well as the sales representative channel. What new insight did you gain from this survey? Also,

why don't you disclose the satisfaction for each channel not just the overall satisfaction?

- Last year, the Tokyo Stock Exchange revised the corporate governance code and positioned intellectual property as essential assets for management, so this should be supervised and disclosed by the Board of Directors. Historically, many of the intellectual property-related problems handled in the manufacturing industry centered around patents, but I think branding and information technology due to DX will become key issues even in the financial and service industries. Could you please discuss what kinds of measures Nippon Life is implementing including those planned to be implemented in the future?
- Nippon Life stated that it makes plans, formulates strategies and works on initiatives at the branch level. I think a mid- to long-term and cross-regional approach is necessary to revitalize local communities, so I recommend for you to consider the following.
 - (1) Plans and strategies to revitalize local communities that are not at the branch level; for example, formulation of these at a more cross-regional level based on regional characteristics, industrial clusters and other factors
 - (2) Existing sales performance evaluation conducted at a cross-regional level and social impact measurement implemented at the branch level
 - (3) Research on the relationship between social impact measurement and performance evaluation
- While culture and sports aren't part of the 17 Sustainable Development Goals (SDGs), these were proven once again to be essential for social development at the Olympic and Paralympic Games Tokyo 2020. I want Nippon Life to continue work on initiatives related to culture and sports and to actively provide information about how it is sponsoring cultural and sports events as part of its SDGs.
- Nippon Life noted that ordinary profit in the fiscal year ended March 31, 2022 was ¥493.2 billion (+14.4% year-on-year) and generated a profit increase, despite the challenging business environment. How did the following factors impact this?
 - (1) Exchange rate (weak yen), (2) Spread of COVID-19,
 - (3) Situation in Russia and Ukraine, and (4) Global environmental issues
- Nippon Life stated that it strives to strengthen equity with an eye on new international capital regulation. However, what kind of new international capital regulation is this and what future risk does it pose to Nippon Life?
- The Financial Services Agency's revised Comprehensive Guidelines for Supervision for Insurance Companies was implemented. It requires the provision of information on public insurance at the time of offering insurance. Could you discuss the current situation and future measures for this?

[After Responses to Questions Received in Advance]

- Nippon Life needs to assess whether it has any case studies that are analogous to refusing to underwrite new insurance policies in the past benefit claim history. I recognize that such case studies will only be an effective improvement measure if they are sufficiently analyzed and verified regardless of the volume of cases. Furthermore, it is important to quickly detect and address any errors that may have occurred. How does your headquarters identify and address these when there are new policy applications? Nippon Life stated that it conducts in-house training, but I hope you consider addressing staff at the organization's headquarters who engage in underwriting policies as well as customer-facing sales representatives.

[After Deliberation of Proposals]

- Nippon Life stated that it will organize a pavilion at the Expo 2025 Osaka, Kansai, Japan. I hope that you are planning an exhibit where children and adults can experience the future of healthcare. While July 18 marks 1,000 days before the event, there's a lack of excitement for it throughout Japan, which is why I would like Nippon Life to leverage its network to try to build momentum.
- Nippon Life mentioned that the turnover rate for employees working less than three years was more than 50%. Various themes were discussed pertaining to work styles, such as telework during the COVID-19 pandemic, the family separation allowance system, prolonged employment, and leave for nursing care. Could you discuss the vision for employees' workstyles including the appeal of working at Nippon Life, and matching individual lifestyles with role models? I want you to make efforts to improve the well-being of employees.

Opinions Expressed on the Day of the Conference of Representatives (Kondankai) for Fiscal 2021 (December 2, 2021)

- In your stewardship activities, you said that your policy is to continue to strengthen dialogue on E (Environment) and S (Society) as well as G (Governance). What are your action policies for the particularly important theme of climate change? In addition, I would like you to work to provide better public explanations for your activities.
- It's becoming more difficult for sales representatives to meet customers in person due to the spread of COVID-19 in addition to enhanced security at corporations. You should be able to continue sales activities while figuring these things out day by day. As we're reaching an era where the average life expectancy is 100 years due to the development of medical technology, I would like Nippon Life to expand the lineup of products and services that are even more hospitable and supportive for a long life. In addition to the conventional products and services, this lineup should contain flexible insurance for health management using new digital technology.
- The concept of "spouse" at life insurance companies sometimes includes common-law marriages and same-sex partners and sometimes it does not. Are these included at Nippon Life? If they are not included in the concept of "spouse," are there any plans to include them in the future? Moreover, I believe there are people with same-sex partners among your staff, but do your internal systems for nursing care leave, bereavement, annuities and so on apply for their partners as it would for spouses?
- Under the Nippon Life Digital 5-Year Plan, you promote (1) cost efficiency and (2) value creation through digitalization. Could you please discuss each of the following matters? (a) Targets and status (b) Issues and measures to achieve targets
- During the COVID-19 pandemic new work styles were adopted including work-from-home, reduced work hours and remote conferences. I think you could organize the various accumulated case studies of these work styles into their respective advantages and disadvantages. Could you discuss Nippon Life's preferred work style and what it envisions for the future?
- I believe that Nippon Life played a significant role as a sponsor of the Olympic and Paralympic Games Tokyo 2020. I realized once again that sports uplift people's spirits, enhancing the unifying force and revitalization of organizations. Supporting big events and major sports players and organizations has a major significance, so could you please discuss your approach and measures for sponsoring athletes and sports in the future?
- Many seniors ignore treatable issues such as an irregular pulse which could lead to heart failure or a stroke. In the U.S., insurance and medical institutions are actively working on preventative medicine using digital technology. For example, they issue a wearable device to the insured as a form of primary prevention which includes pulse measurements and advice on facilitating exercise. These initiatives will lead to mitigating insurance claims and as the population continues to age in Japan, the roles of corporations appear to be growing. As such, I would like Nippon Life to cooperate with the government and push forward these initiatives.
- During the COVID-19 pandemic, you implemented sales activities combining in-person and online formats. Aspects of this might be difficult for elderly sales representatives. Could you please discuss your ideas in terms of education to promote digitalization?
- You mentioned that you're incorporating digital technology to improve productivity and services for customers. While on the one hand digital is more convenient, it requires an entirely new approach in terms of cyber security. What measures are you taking to address this issue? Since the technologies for a cyberattack are advancing, I believe it's necessary to construct a system that can quickly detect and respond to incidents assuming there is a cyber threat.
- ESG investment and finance are being promoted globally, especially by institutional investors. However, how much demand is there for this? Also, the scope of market is very broad for ESG investment and finance, so how much are you covering? To what extent can you ensure returns compared to other markets?
- It's important to create a system that prevents sales representatives from committing fraud in regards to the news report that sales representatives have fraudulently used customers' points. What sort of measures have you taken to prevent this?
- Having watched the third news report following 2014 and 2020, I am worried about fraud pertaining to the Smaller Enterprise Retirement Allowance Mutual Aid plan. I believe a thorough investigation is required to clean up the corruption of the past.
- Since the inauguration of the Kishida cabinet, growth and distribution has become a topic of conversation. As Nippon Life is a prominent institutional investor with investment and financing of more than ¥70 trillion, I want you to engage with this to support sustainable growth for corporations and society. Especially in recent years, the trend of short-term management stressing the dividend payout ratio and stock prices has become prominent. Therefore, I hope that you'll encourage personnel and capital investment to progress as part of this distribution for mid- to long-term growth.

Main Opinions and Requests at Nissay Konwakai Meetings for Fiscal 2021 and Our Responses

Q. Correspondence with representatives through social media and the screen sharing system is convenient. While continuing to emphasize the importance of face-to-face activities, I would like Nippon Life to take steps to fulfill a diverse array of needs in combination with online capabilities.

- A**
- Confronted with the changes to customer lifestyles and the market environment, including the adoption of telework due to the spread of COVID-19, we are working on Face-to-face Activities for the Digital Era that combine face-to-face and online services.
 - In concrete terms, we are advancing the following initiatives for better equipping with digital technology.
 - In January 2021, we deployed a screen sharing system at all stores to share the screen of the TASKALL mobile device for sales representatives and the PC screens of customers. For customers who do not seek in-person interactions and customers located afar, sales representatives and customers can use this system to carry out insurance enrollment, policy maintenance and other procedures together with customers while they view the same screen online.
 - In August 2021, we allocated the N-phone smartphone for sales activities to all sales representatives and installed LINE WORKS and Zoom in addition to email to enable sales representatives to interact with customers online in a method that meets customer needs.
 - We are striving to enhance the information we provide online by upgrading and expanding content that can be sent via email, social media and other means. This content includes product explanation videos designed to encourage customers to become interested in insurance, and a tool that enables customers to run simulations of premiums on their smartphones.
 - While we advance these sorts of online initiatives, we also recognize that, there are customers who would like to consult or confirm matters with sales representatives in person, as before. These customers seek to meet with sales representatives to, for example, receive detailed explanations of the policies they are currently enrolled in and any insurance coverage they may need.
 - We will continue to combine both in-person and online channels so that we can fulfill a diverse array of customer needs. In the process, we will work to ensure that we can provide services that match the preferences of every customer.

Other Opinions and Requests

[Sales Networks]

- I would like Nippon Life to continue to strengthen the consulting capabilities of sales representatives and thereby provide appropriate proposals and information.
- I would like Nippon Life to conduct even more seminars that are useful for young employees of companies and asset formation by making use of a full range of resources, including online capabilities.

[Products and Services]

- Nippon Life mentioned that COVID-19 infections are eligible for payments of hospitalization benefits and other benefits, but will these benefits be paid if you recuperate at home or were in close contact with someone who was infected?
- "Shu NEW 1" is a good product that fits the current times and needs. I expect Nippon Life to continue to develop and offer these sorts of products going forward.
- I would like Nippon Life to expand the lineup of products and services focused on an era with an average life expectancy of 100 years—products and services that everyone, including seniors, can enjoy in.

[Supply of Information]

- There are many young people who have not enrolled in life insurance. I would like Nippon Life to make more efforts to supply information via social media and other channels and provide young people with insurance products that are easy to enroll in.
- The TV commercial "A Long Happy Life" is touching and a wonderful commercial.

However, may I suggest running more TV commercials that highlight Nippon Life's products in greater detail?

[Sustainability Management]

- I urge you to continue to implement SDGs initiatives including ones to reduce CO₂. Also, may I suggest that you highlight these initiatives even more?

[Asset Management]

- I believe ESG investment and finance is important, but could you discuss the specific initiatives and the advantages for policyholders?

[Profitability/Soundness]

- I am concerned about downturns in the company results due to the impact of COVID-19, such as the increase in payments for insurance claims and benefits. In this harsh environment, I would like Nippon Life to enhance dividends.

[Administrative Procedures]

- I would like Nippon Life to advance paperless operations and improve convenience through efforts such as upgrading and expanding the functionality of its website and smartphone apps.

[Digital Technology]

- It is good that Nippon Life is promoting the digitalization of various procedures, but I would like it to also consider the needs of customers such as seniors who are not used to digital technology.

Initiatives toward Important Sustainability Priorities (Mid-Term Management Plan 2021–2023)

Field	Important sustainability priority	Initiatives/Targets in the mid-term management plan	Action policies for FY2021	Results for FY2021	Action policies for FY2022
Customers/Communities and society	Improve customer satisfaction and enhance the provision of information	<ul style="list-style-type: none"> Work intensively to implement measures that address Nippon Life's goals and social issues, with customer-oriented business operations positioned as the foundation of all its activities 	<ul style="list-style-type: none"> Implement a customer-oriented approach that captures the needs of the times in each field by reflecting the voices of customers and employees in daily business operations, with an emphasis on digitalization and tackling social issues 	<ul style="list-style-type: none"> Promote initiatives to analyze and flexibly respond to the feedback of customers and employees in each business field Set targets, deliberate the status of activities in the Customer-Oriented Business Operational Promotion Committee, and report to the Management Committee and the Board of Directors Achieved a consistently high customer satisfaction rating of 91.4% Update our Company-wide policy and newly disclose the details of activities at each distribution channel with the objective of having all units more deeply embed customer-oriented business operations in their day-to-day processes 	<ul style="list-style-type: none"> Implement initiatives to enhance customer-oriented business operations <ul style="list-style-type: none"> Implement PDCA initiatives to promote customer-oriented business operations in each business field Implement initiatives that harness the voices of customers and employees
	Address social issues through provision of products and services	<ul style="list-style-type: none"> Provide products and services that support customers seeking to "prepare for risk" and "reduce risk" in a 100-year life era Provide a broad range of support that transcends the insurance field 	<ul style="list-style-type: none"> Consider products and services that help to solve social issues in a 100-year life era 	<ul style="list-style-type: none"> Began offering income support insurance for continuous hospitalization "Shu NEW 1" in July 2021 to address the needs to ensure sufficient coverage for policyholders whose hospitalization is prolonged Began offering "SalivaChecker[®]," a simple form of cancer screening that uses saliva, to policyholders at a special price in April 2021 Began offering Glycemic Variability Check Plan, that can check glycemic variability in real time and distribute tips from diabetes specialists via the internet, in August 2021 in some regions Continued Nippon Life Sign Language Interpretation Relay Service, a service that began in January 2021 	<ul style="list-style-type: none"> Efforts to develop and offer products and services that help solve social issues taking into account the diverse needs of customers and society and regional characteristics <ul style="list-style-type: none"> Provide products and services that suit the changing lifestyles of customers and the social issues in a 100-year life era including products and services pertaining to dementia and lifestyle improvement Develop the insurance and asset management business overseas in the U.S., Europe and Asia-Pacific region and contribute to the development of the insurance market and the asset formation for customers
	Provide universal services		<ul style="list-style-type: none"> Continue to consider services that contribute to universal services 		
	Provide insurance services suited to every region	<ul style="list-style-type: none"> Provide procedures and services for customers that accommodate regional characteristics and lifestyles (Access to insurance services) 	<p><Japan></p> <ul style="list-style-type: none"> Consider enhancements to contact lines with customers to accommodate regional characteristics and lifestyles 	<p><Japan></p> <ul style="list-style-type: none"> Enhanced Nissay app <ul style="list-style-type: none"> Begin system to obtain Individual Number Card while alive Renew design to make each service more user-friendly Begin online notification of Policy Details Reminder in the individual insurance field Renew different types of "N-Navigation" to have improved usability by overhauling the screen and making other adjustments in the corporate insurance field Develop online version of the procedures for changing addresses in the bancassurance field

The accompanying notes are an integral part of the consolidated financial statements.

6. Notes to the Consolidated Financial Statements

Nippon Life Insurance Company and its Consolidated Subsidiaries

1. Basis of Presenting the Consolidated Financial Statements

(1) Accounting principles and presentation

The accompanying consolidated financial statements have been prepared from the accounts and records maintained by NIPPON LIFE INSURANCE COMPANY ("Nippon Life" or the "Company") and its consolidated subsidiaries in accordance with the provisions set forth in the Insurance Business Act and the related rules and regulations applicable to the life insurance industry, and in accordance with accounting principles generally accepted in Japan, which are different in certain respects from the application and disclosure requirements of International Financial Reporting Standards. Certain accounting and reporting practices required to be followed by the industry are regulated by the Financial Services Agency and the related ministry by means of ministerial ordinances and guidance. The accompanying consolidated financial statements of the Company and its consolidated subsidiaries are in compliance with such requirements. The information provided in the consolidated financial statements including the Notes to the Consolidated Financial Statements is limited to information required by the Insurance Business Act and the related rules and regulations applicable to the life insurance industry and disclosed as additional information. Amounts of less than one million yen and one million U.S. dollars have been eliminated for consolidated financial statement presentation. As a result, totals may not add up exactly.

(2) U.S. dollar amounts

Nippon Life prepares its consolidated financial statements in Japanese yen. The U.S. dollar amounts included in the consolidated financial statements and notes thereto represent the arithmetical results of translating Japanese yen to U.S. dollars on the basis of ¥122.39=U.S. \$1, the effective rate of exchange at the balance sheet date of March 31, 2022. The inclusion of such U.S. dollar amounts is solely for convenience and is not intended to imply that Japanese yen amounts have been or could be readily converted, realized or settled in U.S. dollars at ¥122.39=U.S. \$1 or at any other rate.

2. Summary of Significant Accounting Policies

(1) Principles of consolidation

i) Consolidated subsidiaries

The consolidated financial statements include the accounts of Nippon Life and its subsidiaries. Consolidated subsidiaries as of March 31, 2022, 2021 and 2020, are listed as follows:

Nissay Credit Guarantee Co., Ltd. (Japan)
Nissay Leasing Co., Ltd. (Japan)
Nissay Capital Co., Ltd. (Japan)
Nissay Asset Management Corporation (Japan)
Nissay Information Technology Co., Ltd. (Japan)
TAIJU LIFE INSURANCE COMPANY LIMITED (Japan)
Nippon Wealth Life Insurance Company Limited (Japan)
HANASAKU LIFE INSURANCE Co., Ltd. (Japan) (from the fiscal year

ended March 31, 2020)
Nippon Life Insurance Company of America (U.S.A.)
Nippon Life Americas, Inc. (NLI US Investments, Inc.) (U.S.A.)
MLC Limited (Australia)
Nippon Life India Asset Management Limited (India) (from the fiscal year ended March 31, 2020)

HANASAKU LIFE INSURANCE Co., Ltd., which has started its operation as a life insurance company, has been included in the scope of consolidation starting from the fiscal year ended March 31, 2020, due to its increased significance.

Reliance Nippon Life Asset Management Limited, which was an affiliate accounted for under the equity method up to the fiscal year ended March 31, 2019, and its four affiliated companies have been included in the scope of consolidation from the fiscal year ended March 31, 2020, due to the Company's additional acquisition of its shares.

Reliance Nippon Life Asset Management Limited was renamed Nippon Life India Asset Management Limited on January 13, 2020.

NLI Commercial Mortgage Fund, LLC and NLI Commercial Mortgage Fund II, LLC have been excluded from the scope of consolidation from the fiscal year ended March 31, 2020, due to their declined significance.

One affiliate of Nippon Life India Asset Management Limited has been excluded from the scope of consolidation from the fiscal year ended March 31, 2020, due to the sale of this affiliate.

NLI US Investments, Inc. was renamed Nippon Life Americas, Inc. on May 1, 2021.

The major subsidiaries excluded from consolidation are Nippon Life Global Investors Americas, Inc., Nissay Trading Corporation, and Nissay Insurance Agency Co., Ltd.

The respective and aggregate effects of the companies, which are excluded from consolidation, based on total assets, revenues, net income, and surplus for the fiscal years ended March 31, 2022, 2021 and 2020, are immaterial. This exclusion from consolidation does not prevent a reasonable assessment of the financial position of the Company and its subsidiaries and the results of their operations.

ii) Affiliates

Major affiliates accounted for under the equity method as of March 31, 2022, 2021 and 2020, are listed as follows:

The Master Trust Bank of Japan, Ltd. (Japan)
Corporate-Pension Business Service Co., Ltd. (Japan)
Great Wall Changsheng Life Insurance Co., Ltd. (China)
Bangkok Life Assurance Public Company Limited (Thailand)
Reliance Nippon Life Insurance Company Limited (India)
Post Advisory Group, LLC (U.S.A.)
PT Sequis (Indonesia)
PT Asuransi Jiwa Sequis Life (Indonesia)
The TCW Group, Inc. (U.S.A.)
Grand Guardian Nippon Life Insurance Company Limited (Myanmar)

(from the fiscal year ended March 31, 2020)

Nippon Life India Asset Management Limited became a consolidated subsidiary due to the Company's additional acquisition of its shares.

Accordingly, Nippon Life India Asset Management Limited has been excluded from the scope of application of the equity method from the fiscal year ended March 31, 2020. Meanwhile, one affiliate of Nippon Life India Asset Management Limited has been included in the scope of application of the equity method from the fiscal year ended March 31, 2020.

Grand Guardian Nippon Life Insurance Company Limited has been included in the scope of application of the equity method due to its increased significance associated with the acquisition of permission from Myanmar financial authorities to operate as a life insurance joint venture after obtaining its equity interests in the fiscal year ended March 31, 2020. The subsidiaries not consolidated, such as Nippon Life Global Investors Americas, Inc., and Nissay Trading Corporation, and affiliates other than those listed above, such as SL Towers Co., Ltd. are not accounted for under the equity method. The respective and aggregate effects of such companies on consolidated net income and surplus for the fiscal years ended March 31, 2022, 2021 and 2020, are immaterial.

The number of consolidated subsidiaries and unconsolidated subsidiaries and affiliates accounted for under the equity method as of March 31, 2022, 2021 and 2020, was as follows:

	2022	2021	2020
Consolidated subsidiaries	15	15	15
Subsidiaries not consolidated but accounted for under the equity method	0	0	0
Affiliates accounted for under the equity method	15	15	15

iii) *Reporting date for consolidated subsidiaries*

The reporting dates for consolidated overseas subsidiaries are December 31 and March 31. In preparing the consolidated financial statements, consolidated overseas subsidiaries with the reporting date of December 31 use the financial statements as of December 31, and necessary adjustments are made to reflect significant transactions that occurred between December 31 and the Company's reporting date of March 31.

iv) *Valuation of assets and liabilities of consolidated subsidiaries*

Assets and liabilities of consolidated subsidiaries acquired by the Company are initially measured at fair value as of the date of the acquisition.

v) *Amortization of goodwill*

Goodwill and the equivalent amount of goodwill from affiliates accounted for under the equity method ("goodwill and goodwill equivalent") are amortized under the straight-line method over 20 years.

However, for items that are immaterial, the total amount of goodwill is expensed as incurred.

vi) All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profits/losses included in assets/liabilities resulting from transactions within the group are eliminated.

(2) Business combinations

Business combinations are accounted for using the purchase method. Acquisition-related costs, such as advisory fees or professional fees, are accounted for as expenses in the periods in which the costs are incurred. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the business combination occurs, an acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, which shall not exceed one year from the acquisition, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and that would have affected the measurement of the amounts recognized as of that date. Such adjustments shall be recognized as if the accounting for the business combination had been completed at the acquisition date. The acquirer recognizes any bargain purchase gain in profit or loss immediately on the acquisition date after reassessing and confirming that all of the assets acquired and all of the liabilities assumed have been identified after a review of the procedures used in the purchase price allocation. A parent's ownership interest in a subsidiary might change if the parent purchases or sells ownership interests in its subsidiary. The carrying amount of noncontrolling interest is adjusted to reflect the change in the parent's ownership interest in its subsidiary while the parent retains its controlling interest in its subsidiary. Any difference between the fair value of the consideration received or paid and the amount by which the noncontrolling interest is adjusted is accounted for as capital surplus as long as the parent retains control over its subsidiary.

(3) Cash and cash equivalents

Cash and cash equivalents, for the purpose of reporting consolidated cash flows, are composed of cash in hand, deposits held at call with banks, and all highly liquid short-term investments with a maturity of three months or less when purchased, which are readily convertible into cash and present insignificant risk of change in value.

(4) Securities and hedging activities

The "Accounting Standard for Fair Value Measurement" (ASBJ* Statement No. 30, July 4, 2019; "Fair Value Measurement Accounting Standard") has been applied to the Company and certain consolidated subsidiaries from the fiscal year ended March 31, 2022, and a partial revision of the fair value calculation method of financial instruments has been implemented. The application of the Fair Value Measurement Accounting Standard is in accordance with the transitional provisions set forth under Paragraph 19 of the Fair Value Measurement Accounting Standard and Paragraph 44-2 of the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, July 4, 2019). The new accounting policy establishing the Fair Value Measurement Accounting Standard has been applied prospectively from the fiscal year ended March 31, 2022. Consequently, while stocks (including foreign stocks) among other securities had been conventionally valued using the fair value based on the one-month average of the market price before

the end of the previous consolidated fiscal year, from the fiscal year ended March 31, 2022, they are valued using the fair value based on the market price, etc., at the end of the consolidated fiscal year. Furthermore, matters regarding the breakdown at each level of the fair value of financial instruments are documented in Note 7 Financial Instruments in the Notes to the Consolidated Financial Statements.

* ASBJ: Accounting Standards Board of Japan

1) Securities of the Company and certain consolidated subsidiaries (including items, such as deposits and monetary receivables purchased, which are treated as securities based on the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10) and securities within assets held in trust), are valued as follows:

- i) Trading securities are stated at fair value on the balance sheet date. The moving average method is used for calculating the cost basis.
- ii) Held-to-maturity debt securities are valued using the moving average method, net of accumulated amortization (straight-line).
- iii) Policy-reserve-matching bonds are valued using the moving average method, net of accumulated amortization (straight-line), in accordance with the Industry Audit Committee Report No. 21, "Temporary Treatment of Accounting and Auditing Concerning Policy-Reserve-Matching Bonds in the Insurance Industry," issued by the Japanese Institute of Certified Public Accountants (JICPA).
- iv) Investments in subsidiaries and affiliates that are neither consolidated nor accounted for under the equity method (stocks issued by subsidiaries prescribed in Article 2, Paragraph 12 of the Insurance Business Act or subsidiaries prescribed in Article 13-5-2, Paragraph 3 of the Order for Enforcement of the Insurance Business Act and stocks issued by affiliates prescribed in Article 13-5-2, Paragraph 4 of the Order for Enforcement of the Insurance Business Act) are stated at cost using the moving average method.
- v) Available-for-sale securities

Evaluation methods for the fiscal year ended March 31, 2022, are as follows.

- a. Fair value based on the market value, etc., at the end of the consolidated fiscal year (the cost basis is calculated using the moving average method, and public corporate bonds (including foreign bonds) for which the difference between the purchase price and face value is due to an interest rate adjustment are valued using the moving average method, net of accumulated amortization (straight-line method)).
- b. Stocks and other securities without readily determinable market values are stated at cost using the moving average method.

Evaluation methods for the fiscal years ended March 31, 2021 and 2020, are as follows.

- a. Regarding securities with a fair value, stocks (including foreign stocks) are valued using the average fair value during the period of one month before the balance sheet date (the cost basis is calculated using the moving average method). Other securities with a fair value are valued using the fair value on the balance

sheet date (the cost basis is calculated using the moving average method).

- b. Regarding securities of which the fair value is extremely difficult to determine, bonds (including foreign bonds) for which the difference between the purchase price and face value is due to an interest rate adjustment are stated at cost using the moving average method, net of accumulated amortization (straight-line). Other securities without readily determinable fair values are stated at cost using the moving average method.

2) Unrealized gains/losses, net of applicable taxes for available-for-sale securities, are recorded as a separate component of net assets.

Hedge accounting is applied by the Company and certain consolidated subsidiaries based on the following methods:

- 1) The Company and certain consolidated subsidiaries mainly apply the following hedge accounting methods: The exceptional accounting treatment ("Tokurei-shori") for interest rate swaps is applied to hedge the cash flow volatility of certain loans denominated in Japanese yen and certain loans denominated in foreign currencies; deferred hedge accounting for interest rate swaps is applied to hedge the interest rate fluctuation exposures on certain insurance policies, based on the Industry Audit Committee Report No. 26, "Accounting and Auditing Treatments related to Application of Accounting for Financial Instruments in the Insurance Industry," issued by the JICPA; deferred hedge accounting and designated hedge accounting ("Furiate-shori") for currency swaps are applied to hedge the cash flow volatility caused by foreign exchange rate fluctuations on certain foreign currency-denominated bonds, certain foreign currency-denominated loans, and foreign currency-denominated subordinated corporate bonds issued by the Company; fair value hedge accounting for foreign exchange forward contracts is applied to hedge the price fluctuation exposures related to foreign exchange rate fluctuations on certain foreign currency-denominated bonds and certain other foreign currency-denominated instruments; and fair value hedge accounting for equity forward contracts is applied to hedge the price fluctuation exposures on certain domestic stocks.

2) Hedging instruments and hedged items

(Hedging instruments)	(Hedged items)
Interest rate swaps	Loans, foreign currency-denominated loans, and insurance policies
Currency swaps	Foreign currency-denominated bonds, foreign currency-denominated loans, and foreign currency-denominated subordinated corporate bonds
Foreign exchange forward contracts	Foreign currency-denominated bonds and other foreign currency-denominated instruments
Equity forward contracts	Domestic stocks

Accompanying the replacement of interest rate benchmarks, exceptional accounting treatment for certain interest rate swaps has been applied for the fiscal year ended March 31, 2022, based on the "Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR" (ASBJ PITF* No. 40, March 17, 2022).

* PITF: Practical Issues Task Force

- 3) Effectiveness of hedging activities is mainly evaluated by performing a ratio analysis of fair value movement comparisons based on the hedging instruments and hedged items taken, which is in accordance with the internal risk management policies of the Company and certain consolidated subsidiaries.
- 4) Derivative financial instruments and derivative financial instruments within assets held in trust are stated at fair value.

(5) Policy-reserve-matching bonds

Securities that are held for the purpose of matching the duration of outstanding liabilities within the subgroups classified by insurance type, payment method, maturity period, currency, and investment policy are classified as policy-reserve-matching bonds in accordance with the Industry Audit Committee Report No. 21, "Temporary Treatment of Accounting and Auditing Concerning Policy-Reserve-Matching Bonds in the Insurance Industry," issued by the JICPA.

The Company has specified and subcategorized the following insurance policies:

(a) The Company

- 1) All insurance policies for products other than single premium products and group annuities
- 2) All insurance policies for single premium products (denominated in yen) other than variable assumed rate-type insurance
- 3) All insurance policies for group annuities other than guaranteed fixed-term rate products
- 4) All single premium products (denominated in U.S. dollars) other than the foregoing
- 5) All single premium products (denominated in Australian dollars) other than the foregoing
- 6) All single premium products (denominated in euros) other than the foregoing

(b) TAIJU LIFE INSURANCE COMPANY LIMITED

- 1) Subcategory for whole life insurance and annuity insurance (up to 40 years) (the component of future cash flows generated from whole life insurance (including whole life insurance with term rider) and annuity insurance for up to 40 years)
- 2) Subcategory for insured contributory pension plans (up to 27 years) (the component of future cash flows generated from insured contributory pension plans for up to 27 years)
- 3) Subcategory 1 for foreign currency-denominated single premium endowment insurance (U.S. dollar) (foreign currency-denominated single premium endowment insurance (U.S. dollar) commencing from October 1, 2015, to September 30, 2019)
- 4) Subcategory 2 for foreign currency-denominated single premium endowment insurance (U.S. dollar) (foreign currency-denominated single premium endowment insurance (U.S. dollar) commencing on or after October 1, 2019)
- 5) Subcategory 1 for foreign currency-denominated single premium endowment insurance (Australian dollar) (foreign currency-denominated

single premium endowment insurance (Australian dollar) commencing from October 1, 2015, to September 30, 2019)

- 6) Subcategory 2 for foreign currency-denominated single premium endowment insurance (Australian dollar) (foreign currency-denominated single premium endowment insurance (Australian dollar) commencing on or after October 1, 2019)

From the fiscal year ended March 31, 2020, TAIJU LIFE INSURANCE COMPANY LIMITED has created, for policies commencing on or before September 30, 2019, Subcategory 1 for foreign currency-denominated single premium endowment insurance (U.S. dollar) (policies commencing from October 1, 2015, to September 30, 2019) and Subcategory 1 for foreign currency-denominated single premium endowment insurance (Australian dollar) (policies commencing from October 1, 2015, to September 30, 2019) by extending the commencement periods for the previous subcategories for foreign currency-denominated single premium endowment insurance (U.S. dollar) (policies commencing on or after January 1, 2019) and foreign currency-denominated single premium endowment insurance (Australian dollar) (policies commencing on or after October 1, 2017). Additionally, it has also created Subcategory 2 for foreign currency-denominated single premium endowment insurance (U.S. dollar) (policies commencing on or after October 1, 2019) and Subcategory 2 for foreign currency-denominated single premium endowment insurance (Australian dollar) (policies commencing on or after October 1, 2019) as new subcategories.

There has been no impact on profit or loss for the fiscal year ended March 31, 2020, as a result of this revision.

(c) Nippon Wealth Life Insurance Company Limited

- 1) Individual insurance and individual annuity products (certain types of insurance are excluded)
- 2) Whole life cancer insurance and endowment insurance products
- 3) Single premium whole life insurance (fixed accumulation value type) products
- 4) Yen-denominated single premium products other than the above (excluding single premium fixed annuities commencing on or after April 1, 2006, and for which the insured was 80 years of age or older as of the date the policy was concluded)
- 5) U.S. dollar-denominated products other than the above (certain types of insurance are excluded)
- 6) Australian dollar-denominated single premium annuity products other than the above

(d) HANASAKU LIFE INSURANCE Co., Ltd.

From the fiscal year ended March 31, 2020, all insurance policy groups are classified as a single subcategory, and securities that are held for the purpose of matching the duration of these outstanding insurance liabilities are classified as policy-reserve-matching bonds.

(6) Foreign currency translation

Assets and liabilities denominated in foreign currencies are translated into Japanese yen using the "Accounting Standards for Foreign Currency Transactions" (Business Accounting Council).

Foreign currency-denominated available-for-sale securities of the Company, with exchange rates that have significantly fluctuated and where recovery is not expected, are converted to Japanese yen using either the rate on the balance sheet date or the average one-month rate prior to the balance sheet date, whichever indicates a weaker yen. This translation difference is recorded as a loss on valuation of securities.

Moreover, translation differences related to bonds included in translation differences of foreign currency-denominated available-for-sale securities held by certain consolidated subsidiaries are recorded as foreign exchange gains/losses, net, while translation differences related to other foreign currency-denominated available-for-sale securities are recorded as a separate component of net assets.

(7) Tangible fixed assets

- 1) Tangible fixed assets are depreciated based on the following methods:
 - a. Tangible fixed assets (except for lease assets)
 - (i) Buildings
Straight-line method.
 - (ii) Assets other than the above
Primarily, the declining-balance method.
Certain other tangible fixed assets with an acquisition price of less than ¥200,000 of the Company and certain consolidated subsidiaries are depreciated over a 3 year period on a straight-line basis.
 - b. Lease assets
 - (i) Lease assets related to financial leases that transfer ownership of the leased property to the lessee
The same depreciation method applied to owned fixed assets.
 - (ii) Lease assets other than the above
Straight-line method based on lease period.

The estimated useful lives of major items are as follows:

Buildings	2 to 60 years
Other tangible fixed assets	2 to 20 years

Tangible fixed assets are stated at cost, net of accumulated depreciation and impairment losses.

- 2) Revaluation of land used in the operations of the Company is performed based on the Act on Revaluation of Land. The tax effect of the amount related to the valuation difference between book value and the revalued amount for land revaluation is recognized as a deferred tax liability within the liability section. The valuation differences, excluding tax, are recognized as land revaluation losses within the net assets section.

Revaluation date	March 31, 2002
Revaluation methodology	The amount is calculated using the listed value of the land and road rate as prescribed by Article 2, Items 1 and 4, respectively, of the Order for Enforcement of the Act on Revaluation of Land.

(8) Software

Capitalized software for internal use, which is included within intangible fixed assets, is amortized using the straight-line method over its estimated useful lives as internally determined (13 months to 15 years).

(9) Leases

Regarding financial leases where a consolidated subsidiary is the lessor and ownership is not transferred, if any, the Company recognizes income and expense at the time of receiving the lease fee as other ordinary income and other ordinary expenses, respectively.

(10) Allowance for doubtful accounts

- 1) An allowance for doubtful accounts for the Company is recognized in accordance with the Company's internal Asset Valuation Regulation and Write-Off/Provision Rule.
 - i) An allowance for loans to borrowers who are legally or substantially bankrupt, such as being bankrupt or being in the process of civil rehabilitation proceedings, is recognized based on the amount of credit remaining after directly deducting amounts expected to be collected through the disposal of collateral or the execution of guarantees from the balance of loans (as mentioned at 4) below).
 - ii) An allowance for loans to borrowers who are not currently legally bankrupt, but have a significant possibility of bankruptcy is recognized at the amounts deemed necessary considering an assessment of the borrowers' overall solvency and the amounts remaining after deduction of amounts expected to be collected through the disposal of collateral or the execution of guarantees.
 - iii) An allowance for loans to borrowers other than the above is provided based on the borrowers' balance multiplied by the historical average (of a certain period) percentage of bad debt.

An allowance for loans to borrowers whose future business results are expected to worsen in case of a sudden event that has a large impact on economic conditions is recognized based on the estimated amount of impact on credit risk that has not yet been reflected in the borrowers' financial information and other disclosures for the fiscal years ended March 31, 2022 and 2021.

- 2) All credits extended by the Company are assessed by responsible sections in accordance with the Company's internal Asset Valuation Regulation. The assessments are verified by the independent Asset Auditing Department. The results of the assessments are reflected in the calculation of the allowance for doubtful accounts.
- 3) For consolidated subsidiaries, the Company records the allowance amounts deemed necessary mainly in accordance with the Company's internal Asset Valuation Regulation and Write-Off/Provision Rule.
- 4) The estimated uncollectible amount calculated by subtracting the amount of collateral value or the amount collectible by the execution of guarantees from the balance of loans is directly deducted from the balance of loans (including loans with credits secured and/or guaranteed) made to legally or substantially bankrupt borrowers. The estimated uncollectible

amounts were ¥1,603 million (U.S. \$13 million) (including ¥70 million (U.S. \$0 million) of credits secured and/or guaranteed), ¥3,784 million (including ¥64 million of credits secured and/or guaranteed), and ¥3,382 million (including ¥70 million of credits secured and/or guaranteed) as of March 31, 2022, 2021 and 2020, respectively.

(11) Accrued bonuses for directors and audit & supervisory board members

Accrued bonuses for directors and audit & supervisory board members are recognized based on amounts estimated to be paid.

(12) Net defined benefit liability

- 1) Net defined benefit liability is the amount of retirement benefit obligations prepared for payment of employee retirement benefits, less pension plan assets, based on the projected amounts as of March 31, 2022, 2021 and 2020.
- 2) The accounting methods of the Company and certain consolidated subsidiaries used for retirement benefits as of March 31, 2022, 2021 and 2020, are as follows:
 - i) Attribution method for estimated retirement benefits: Benefit formula basis
 - ii) Period of amortizing actuarial gains/losses: 5 years
 - iii) Period of amortizing prior service costs: 5 years

(13) Accrued retirement benefits for directors and audit & supervisory board members

In order to provide for payments of retirement benefits to directors and audit & supervisory board members, accrued retirement benefits for directors and audit & supervisory board members are recognized based on estimated payment amounts under internal rules.

The Company passed a resolution at the meeting of representatives held on July 2, 2020, to abolish the retirement benefit plan for directors and audit & supervisory board members. As a result of this resolution, the payment prescribed under this plan was finalized. Accordingly, the unpaid amount of ¥4,432 million in accrued retirement benefits for directors and audit & supervisory board members was reversed, transferred to accounts payable, and presented in other liabilities for the fiscal year ended March 31, 2021.

(14) Reserve for program points

A reserve for program points is recognized based on the amount projected to be incurred for expenses from the use of points granted to policyholders.

(15) Reserve for price fluctuations in investments in securities

Reserve for price fluctuations in investments in securities is recognized based on Article 115 of the Insurance Business Act.

(16) Accounting for consumption taxes

Consumption taxes and local consumption taxes of the Company and certain consolidated subsidiaries are accounted for by the tax exclusion method.

However, consumption taxes paid on certain asset transactions, which are not deductible from consumption taxes withheld and are stipulated to be deferred under the Consumption Tax Act, are deferred as prepaid expenses and amortized over a 5 year period on a straight-line basis. Consumption taxes other than deferred consumption taxes are expensed as incurred.

(17) Consolidated taxation system

Effective from the fiscal year ended March 31, 2020, the Company and certain subsidiaries have applied the consolidated taxation system as the parent company for consolidated taxation purposes. In accordance with the "Practical Solution on the Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System" (ASBJ PITF No. 39, March 31, 2020), the Company and its certain subsidiaries calculate the amounts of deferred tax assets and liabilities based on tax laws and regulations before the revision.

(18) Policy reserves

- 1) Policy reserves of the Company and its consolidated subsidiaries that are domestic life insurance companies are reserves set forth in accordance with Article 116 of the Insurance Business Act. These reserves are accumulated in order to prepare for payments of future obligations based on insurance policies. Insurance premium reserves are recognized based on the following methodology. In accordance with Article 69, Paragraph 5 of the Ordinance for Enforcement of the Insurance Business Act, policy reserves include those that are reserved for certain individual annuity policies and for certain whole life insurance policies.
 - i) Reserves for policies subject to the standard policy reserve are calculated in accordance with the method prescribed by the Commissioner of the Financial Services Agency (Ordinance No. 48 issued by the Ministry of Finance in 1996).
 - ii) Reserves for other policies are calculated based on the net level premium method.

In addition, the Company and some of its consolidated life insurance companies in Japan provided additional policy reserves in the fiscal year ended March 31, 2022. As a result, policy reserves increased by ¥596,186 million (U.S. \$4,871 million), while ordinary profit and surplus before income taxes decreased by ¥596,186 million (U.S. \$4,871 million).

a. The Company

Effective from the fiscal year ended March 31, 2020, the Company has provided for additional policy reserves to cover a possible deficiency in the reserve for paid-up insurance policies and similar policies among certain whole life insurance policies (including single premium policies). For such policies with premiums that have been paid and similar policies (including single premium policies), the Company had previously decided to successively provide additional policy reserves over a three-year period, but in the fiscal year ended March 31, 2022, the Company provided for these additional policy reserves in a lump sum. Effective from the fiscal year ended March 31, 2022, the Company has expanded eligibility for whole life insurance policies

(including single premium policies) for which additional policy reserves are provided, and has decided to successively provide additional policy reserves over a five-year period for such policies with premiums that have been paid (including single premium policies). As a result, the policy reserves increased by ¥586,606 million (U.S. \$4,792 million), while ordinary profit and surplus before income taxes decreased by ¥586,606 million (U.S. \$4,792 million), compared with amounts that would have been recorded if the additional policy reserves had not been provided in the fiscal year ended March 31, 2022.

b. TAIJU LIFE INSURANCE COMPANY LIMITED

TAIJU LIFE INSURANCE COMPANY LIMITED has provided additional policy reserves to cover a possible deficiency in the reserve for certain individual annuity policyholders. As a result, policy reserves increased by ¥9,579 million (U.S. \$78 million), while ordinary profit and surplus before income taxes decreased by ¥9,579 million (U.S. \$78 million), compared with amounts that would have been recorded if the additional policy reserves had not been provided in the fiscal year ended March 31, 2022.

Matters concerning additional policy reserve amounts accumulated during the fiscal year ended March 31, 2021, are as follows:

The Company and some of its consolidated life insurance companies in Japan provided additional policy reserves in the fiscal year ended March 31, 2021. As a result, policy reserves increased by ¥382,024 million, while ordinary profit and surplus before income taxes decreased by ¥382,024 million.

a. The Company

Effective from the fiscal year ended March 31, 2019, the Company has provided for additional policy reserves over a five-year period to cover a possible deficiency in the reserve for certain individual annuity policyholders. In the fiscal year ended March 31, 2021, the Company provided for these additional policy reserves in a lump sum. Moreover, effective from the fiscal year ended March 31, 2020, the Company has provided for additional policy reserves to cover a possible deficiency in the reserve for paid-up insurance policies and similar policies among certain whole life insurance policies (including single premium policies). For such policies with premiums that have been paid and similar policies (including single premium policies), the Company had previously decided to successively provide additional policy reserves over a six-year period. Effective from the fiscal year ended March 31, 2021, the Company has decided to successively provide these additional policy reserves over a three-year period. As a result, the policy reserves increased by ¥369,175 million, while ordinary profit and surplus before income taxes decreased by ¥369,175 million, compared with amounts that would have been recorded if the additional policy reserves had not been provided in the fiscal year ended March 31, 2021.

b. TAIJU LIFE INSURANCE COMPANY LIMITED

TAIJU LIFE INSURANCE COMPANY LIMITED has provided additional

policy reserves to cover a possible deficiency in the reserve for certain individual annuity policyholders. As a result, policy reserves increased by ¥12,849 million, while ordinary profit and surplus before income taxes decreased by ¥12,849 million, compared with amounts that would have been recorded if the additional policy reserves had not been provided in the fiscal year ended March 31, 2021.

Matters concerning additional policy reserve amounts accumulated during the fiscal year ended March 31, 2020, are as follows:

The Company and some of its consolidated life insurance companies in Japan provided additional policy reserves in the fiscal year ended March 31, 2020. As a result, policy reserves increased by ¥199,869 million, while ordinary profit and surplus before income taxes decreased by ¥199,869 million.

a. The Company

Effective from the fiscal year ended March 31, 2020, the Company has reserved additional policy amounts over a five-year period to cover a possible deficiency in the reserve for certain individual annuity policyholders. Effective from the fiscal year ended March 31, 2020, the Company has reserved additional policy amounts to cover a possible deficiency in the reserve for paid-up insurance policies and similar policies among certain whole life insurance policies (including single premium policies). For such policies with premiums paid up as of March 31, 2020 and similar policies (including single premium policies), the Company will successively reserve additional policy amounts over a six-year period. As a result, the policy reserves increased by ¥186,113 million, while ordinary profit and surplus before income taxes decreased by ¥186,113 million, compared with amounts that would have been recorded had the additional policy amounts not been reserved in the fiscal year ended March 31, 2020.

b. TAIJU LIFE INSURANCE COMPANY LIMITED

TAIJU LIFE INSURANCE COMPANY LIMITED has provided additional policy reserves to cover a possible deficiency in the reserve for certain individual annuity policyholders. As a result, policy reserves increased by ¥13,756 million, while ordinary profit and surplus before income taxes decreased by ¥13,756 million, compared with amounts that would have been recorded if the additional policy reserves had not been provided in the fiscal year ended March 31, 2020.

2) Policy reserves of consolidated overseas life insurance companies are recorded as the amounts calculated in accordance with the accounting standards of each country, such as Australian accounting standards.

(19) Revenues from insurance and reinsurance and benefits and other payments

The Company and its consolidated subsidiaries have adopted the following significant accounting principles and procedures in cases where the provisions of the relevant accounting standards identified in accordance with the "Revised Accounting Standard for Accounting Policy Disclosures, Accounting Changes and Error Corrections" (revised ASBJ Statement No. 24) were not clear.

1) Revenues from insurance and reinsurance (excluding revenues from

reinsurance) of the Company and certain domestic consolidated subsidiaries are recorded as the amount of payments that have been received, in principle.

Unearned insurance premiums of the Company and certain domestic consolidated subsidiaries are recognized as policy reserves.

- 2) Benefits and other payments (excluding reinsurance premiums) of the Company and certain domestic consolidated subsidiaries are recorded as the amount of payments made with respect to policies for which an event that is a reason for payment of claims or benefits has occurred based on the policy clauses and the amount determined based on those policy clauses was paid.

In addition to the above, revenues from insurance of consolidated overseas subsidiaries with a regular due date are recognized on a due basis and revenues from insurance due but not collected are recognized as revenues.

(20) Policy acquisition costs

Policy acquisition costs of the Company and certain consolidated subsidiaries are recorded to expense as incurred.

Policy acquisition costs of certain consolidated overseas subsidiaries are deferred and amortized over the period that the policy will generate profits.

(21) Income taxes

The provision for income taxes is computed based on the pretax income included in the consolidated statements of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying the enacted statutory tax rates to the temporary differences.

(22) Stock options

Compensation expense for the stock options of a consolidated subsidiary is recognized based on the fair value at the date of grant and over the vesting period as consideration for receiving goods or services.

In the balance sheet, the stock option is presented as share acquisition rights as a separate component of net assets until exercised.

(23) Unification of Accounting Policies Applied to Foreign

Subsidiaries for the Consolidated Financial Statements

Under the "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements" (ASBJ PITF No.18, May 17, 2006), the accounting policies and procedures applied to a parent company and its subsidiaries for similar transactions and events under similar circumstances should in principle be unified for the preparation of the consolidated financial statements. However, financial statements prepared by foreign subsidiaries in accordance with either International Financial Reporting Standards or generally accepted accounting principles in the United States of America (Financial Accounting Standards Board Accounting Standards Codification—"FASB ASC") tentatively may be used for the

consolidation process, except for the following items that should be adjusted in the consolidation process so that net income is accounted for in accordance with Japanese GAAP, unless they are not material: (a) amortization of goodwill; (b) scheduled amortization of actuarial gain or loss of pensions that has been recorded in equity through other comprehensive income; (c) expensing capitalized development costs of R&D; (d) cancellation of the fair value model of accounting for property, plant and equipment and investment properties and incorporation of the cost model of accounting; and (e) recording a gain or loss through profit or loss on the sale of an investment in an equity instrument for the difference between the acquisition cost and selling price, and recording impairment loss through profit or loss for other-than-temporary declines in the fair value of an investment in an equity instrument, where a foreign subsidiary elects to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument.

3. Significant Accounting Estimate

The Company has applied the "Accounting Standard for Disclosure of Accounting Estimates" (ASBJ Statement No. 31) from the fiscal year ended March 31, 2021.

The significant accounting estimates identified based on this Accounting Standard comprise valuations of goodwill and goodwill equivalent.

Goodwill and goodwill equivalent recorded in the consolidated balance sheet as of March 31, 2022, comprise the following:

1) Goodwill	¥84,383 million (U.S. \$689 million)
Nippon Life India Asset Management Limited	¥84,383 million (U.S. \$689 million)
2) Goodwill equivalent	¥78,425 million (U.S. \$640 million)
Reliance Nippon Life Insurance Company Limited	¥36,494 million (U.S. \$298 million)
The TCW Group, Inc.	¥22,430 million (U.S. \$183 million)
PT Sequis	¥19,500 million (U.S. \$159 million)

Goodwill and goodwill equivalent recorded in the consolidated balance sheet as of March 31, 2021, comprise the following:

1) Goodwill	¥83,185 million
Nippon Life India Asset Management Limited	¥83,185 million
2) Goodwill equivalent	¥77,554 million
Reliance Nippon Life Insurance Company Limited	¥36,896 million
The TCW Group, Inc.	¥21,445 million
PT Sequis	¥19,212 million

For details on the accounting estimates used to record impairment losses on goodwill and goodwill equivalent, please see Note 24 Impairment Losses in the Notes to the Consolidated Financial Statements for the fiscal year ended March 31, 2022.

4. Business Combination

Matters concerning business combinations through acquisition are as follows:

(1) Nippon Wealth Life Insurance Company Limited (for the fiscal year ended March 31, 2022)

On October 29, 2021, the Company acquired approximately 14.9% of the shares of Nippon Wealth Life Insurance Company Limited ("Nippon Wealth Life") from MassMutual International, LLC, making it a wholly owned subsidiary.

- 1) Overview of the transaction
 - a. Name and business of the acquiree
Name: Nippon Wealth Life Insurance Company Limited
Business: Life insurance business
 - b. Business combination date
October 1, 2021 (deemed acquisition date)
 - c. Legal form of the business combination
Establishment of a wholly owned subsidiary through acquisition of the additional shares from the noncontrolling shareholders
 - d. Name of company after business combination
Nippon Wealth Life Insurance Company Limited
 - e. Other matters concerning the overview of the transaction
The Company makes Nippon Wealth Life its wholly owned subsidiary to further strengthen and expand the business foundation of the Group's over-the-counter sales at financial institutions.
- 2) Overview of accounting treatment that was applied
The Company has accounted for the transaction as a transaction with the noncontrolling shareholders within the category of transactions under common control. This accounting treatment is based on the "Accounting Standard for Business Combinations" (ASBJ Statement No. 21) and the "Implementation Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (ASBJ Guidance No. 10).
- 3) Acquisition cost and breakdown by type of consideration
Consideration for acquisition: Payment in cash ¥23,819 million (U.S. \$194 million)
Acquisition cost: ¥23,819 million (U.S. \$194 million)
- 4) Matters concerning changes in the Company's equity with respect to the transaction with the noncontrolling shareholders
 - a. Main reasons for changes in consolidated surplus
Acquisition of additional shares of a subsidiary
 - b. Increase in consolidated surplus due to the transaction with the noncontrolling shareholders
¥6,671 million (U.S. \$54 million)

(2) Nissay Plus SSI Company Inc. (for the fiscal year ended March 31, 2022)

Nissay Small-Amount and Short-Term Insurance Preparatory Company (the "Preparatory Company"), which was established by the Company on April 30, 2021, changed its trade name to Nissay Plus SSI Company Inc. ("Nissay Plus") on March 24, 2022, following completion of the acquisition of approvals of the Commissioner of the Financial Services Agency pursuant to Article 272-31, Paragraph 1 and Article 106, Paragraph 7 of the Insurance Business Act by the Company and the acquisition of a small-amount short-term life insurance business license pursuant to Article 272 of the Insurance Business Act by the Preparatory Company on the same day.

- 1) Purpose of company establishment
The purpose of establishing the company is to flexibly and dynamically provide various insurance products for the areas of both life and non-life insurance in order to address diversifying customer needs against the backdrop of changing lifestyles, diversifying individual values, and the widespread use of digital environments.
- 2) Overview of Nissay Plus
 - a. Company name: Nissay Plus SSI Company Inc.
 - b. Head office location: Chiyoda-ku, Tokyo
 - c. Capital stock: ¥2.6 billion (U.S. \$21 million) (including ¥1.3 billion (U.S. \$10 million) of capital reserve)
- 3) Date of establishment
April 30, 2021
- 4) Percentage of voting rights held by the Company
100%

(3) TAIJU LIFE INSURANCE COMPANY LIMITED (for the fiscal year ended March 31, 2021)

On March 16, 2021, the Company acquired 2.4% of the shares of TAIJU LIFE INSURANCE COMPANY LIMITED (of which, the Company owns 82.6% of the shares; "TAIJU LIFE") from the noncontrolling shareholders.

- 1) Overview of the transaction
 - a. Name and business of the acquiree
Name: TAIJU LIFE INSURANCE COMPANY LIMITED
Business: Life insurance business
 - b. Business combination date
March 31, 2021 (deemed acquisition date)
 - c. Legal form of the business combination
Acquisition of additional shares from the noncontrolling shareholders
 - d. Name of company after business combination
TAIJU LIFE INSURANCE COMPANY LIMITED
 - e. Other matters concerning the overview of the transaction
The Company has acquired an additional 2.4% of TAIJU LIFE shares and raised its voting interest in TAIJU LIFE to promote its group strategy and strengthen its governance framework.

- 2) Overview of accounting treatment that was applied
The Company has accounted for the transaction as a transaction with the noncontrolling shareholders within the category of transactions under common control. This accounting treatment is based on the "Accounting Standard for Business Combinations" (ASBJ Statement No. 21) and the "Implementation Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (ASBJ Guidance No. 10).
- 3) Acquisition cost and breakdown by type of consideration
Consideration for acquisition: Payment in cash ¥8,027 million
Acquisition cost: ¥8,027 million
- 4) Matters concerning changes in the Company's equity with respect to the transaction with the noncontrolling shareholders
- Main reasons for changes in consolidated surplus
Acquisition of additional shares of a subsidiary
 - Increase in consolidated surplus due to the transaction with the noncontrolling shareholders
¥5,530 million

(4) Nippon Life India Asset Management Limited (for the fiscal year ended March 31, 2020)

- 1) Overview of the business combination
- Name and business of the acquiree
Name: Reliance Nippon Life Asset Management Limited (Now, Nippon Life India Asset Management Limited)
Business: Asset management
 - Major reasons for executing the business combination
Nippon Life India Asset Management Limited's trust assets under management have grown steadily, and the Company intends to support Nippon Life India Asset Management Limited's attempt to enhance its presence in the Indian asset management market, which is expected to show future growth driven by solid economic growth.
 - Date of business combination
September 30, 2019 (deemed acquisition date)
 - Legal form of the business combination
Open offer to the public shareholders as per Indian regulations and share acquisition based on an agreement with Reliance Capital Limited (RCAP) to acquire shares of Nippon Life India Asset Management Limited held by RCAP (the "Open Offer").
 - Name of the company after business combination
Nippon Life India Asset Management Limited
 - Percentage of voting rights acquired
Percentage of voting rights held before the Open Offer 42.875%
Percentage of voting rights acquired based on the Open Offer* 32.125%
Percentage of voting rights after the acquisition 75%
 - Main rationale for determining the acquirer

* Reflects the impact of changes in percentage of voting rights due to the exercise of stock options for Nippon Life India Asset Management Limited's shares after the open offer.

It is clear that the Company will control the decision-making body of the acquiree by obtaining the majority of voting rights.

- 2) Period for which the acquiree's business results were included in the consolidated financial statements for the fiscal year ended March 31, 2020
From October 1, 2019, to March 31, 2020
In the consolidated statement of income for the fiscal year ended March 31, 2020, profit or loss related to the acquiree from April 1, 2019, to September 30, 2019, is recorded as shares of profit of entities accounted for under the equity method and presented in other ordinary income.
- 3) Acquisition cost and breakdown

	Millions of Yen
Consideration for acquisition:	
Fair value of Nippon Life India Asset Management Limited's shares held right before the Open Offer	¥ 92,940
Additional cash payment for Nippon Life India Asset Management Limited's shares acquired through the Open Offer	68,759
Acquisition cost	¥161,699

- 4) Difference between the acquisition cost and the total cost of individual transactions resulted in obtaining control
Gain on step acquisitions
¥48,730 million
- 5) Description and the amount of main acquisition-related costs
Advisory fees and others
¥1,395 million
- 6) Amount of and reasons for recognizing goodwill, and amortization method and period
- Amount of goodwill
¥90,213 million
 - Reasons for recognizing goodwill
Goodwill was recognized because the equity interest in the net amount of the assets acquired and the liabilities assumed was lower than the acquisition cost.
 - Amortization method and period
Straight-line amortization over 20 years
- 7) Amounts of the assets acquired and the liabilities assumed on the date of business combination and their main components
Total assets: ¥119,130 million
(including the amount allocated to intangible assets other than goodwill of ¥77,754 million)
Total liabilities: ¥23,300 million
(including deferred tax liabilities of ¥18,595 million)
- 8) Amount of acquisition cost allocated to intangible assets other than goodwill and amortization period
Amount of intangible assets other than goodwill:
¥77,754 million
Amortization period: 19 years
(including contract-related assets of ¥77,754 million and amortization period of 19 years)

9) Estimated amount of impact on the consolidated statement of income for the fiscal year ended March 31, 2020, and calculation method, assuming that the business combination was completed as of the beginning of the fiscal year ended March 31, 2020

Ordinary income was ¥18,502 million, ordinary loss was ¥235 million, and net surplus attributable to the parent company was ¥46,504 million.

The estimated amounts of the impact represent the difference between shares of profit of entities accounted for under the equity method and gain on step acquisitions recorded by the Company for the fiscal year ended March 31, 2020, based on Nippon Life India Asset Management Limited's ordinary income, ordinary profit, and net surplus attributable to the parent company for the fiscal year ended March 31, 2020. In addition, amortization and related amounts are calculated based on the assumption that goodwill and intangible assets were recognized at the beginning of the fiscal year ended March 31, 2020. The estimated amounts do not represent Nippon Life India Asset Management Limited's ordinary income, ordinary profit, and net surplus attributable to the parent company that would have been recorded if the business combination had actually been completed as of the beginning of the fiscal year ended March 31, 2020. This note has not been audited.

5. Additional Information for Consolidated Statements of Cash Flows

(1) Acquisition of Nippon Life India Asset Management Limited (for the fiscal year ended March 31, 2020)

Main components of assets and liabilities of newly consolidated subsidiaries due to acquisition of shares

Major assets and liabilities of Nippon Life India Asset Management Limited and its four affiliated companies at the time of acquisition, as well as the acquisition cost and net payment for the acquisition are as follows:

	Millions of Yen
Total assets	¥119,130
(including the amount allocated to intangible assets other than goodwill of ¥77,754 million)	
Goodwill	90,213
Total liabilities	(23,300)
(including deferred tax liabilities of ¥(18,595) million)	
Share acquisition rights	(515)
Noncontrolling interests	(23,828)
Acquisition cost	161,699
Gain on step acquisitions	(48,730)
Acquisition cost before obtaining control	(44,209)
Cash and cash equivalents of subsidiary	(6,987)
Net payments for the acquisition	¥ 61,771

6. Cash and Cash Equivalents

The reconciliation of "Cash and cash equivalents" in the consolidated statements of cash flows and "Cash and deposits" in the consolidated balance sheets as of March 31, 2022, 2021 and 2020, was as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Cash and deposits	¥1,702,155	¥1,771,810	¥1,751,037	\$13,907
Call loans	500,978	540,086	422,906	4,093
Monetary receivables purchased	9,999	5,999	28,998	81
Investments in securities	360,686	14,243	34,783	2,947
Time deposits with initial term of over 3 months to maturity and others	(29,437)	(9,307)	(11,443)	(240)
Cash and cash equivalents	¥2,544,383	¥2,322,833	¥2,226,280	\$20,789

7. Financial Instruments

Regarding the investment of the general accounts of the Company and certain consolidated subsidiaries (except separate accounts as provided in Article 118, Paragraph 1 of the Insurance Business Act), in light of the characteristics of life insurance policies, the Company and certain consolidated subsidiaries have built a portfolio geared toward mid- to long-term investment and formulated an investment plan considering the outlook of the investment environment.

Based on this, in order to reliably pay benefits and other payments in the future, the Company and certain consolidated subsidiaries have positioned yen-denominated assets that can be expected to provide stable income, such as bonds and loans, as the core assets of the Company and certain consolidated subsidiaries and from the viewpoint of improving profit in the mid- to long-term, the Company and certain consolidated subsidiaries invest in domestic stocks and foreign securities. Also, the Company and certain consolidated subsidiaries mainly use derivative transactions for controlling asset or liability risks. Specifically, the Company and certain consolidated subsidiaries use interest rate swaps and interest rate swaptions for interest rate-related investments; foreign exchange forward contracts, currency options, and currency swaps for currency-related investments; and equity forward contracts, equity index futures, and equity index options for equity-related investments. The Company and certain consolidated subsidiaries apply hedge accounting to certain derivative transactions above.

Securities are mainly exposed to market risk and credit risk, loans are exposed to credit risk, and derivative transactions are exposed to market risk and credit risk. Market risk refers to the risk of incurring losses when the fair value of investment assets declines due to factors such as fluctuations in interest rates, exchange rates, or stock prices. Credit risk refers to the risk of incurring losses when the value of assets, primarily loans and corporate bonds, declines due to deterioration of the financial condition of the party to whom credit has been extended. It includes country risk. These risks are managed according to rules and regulations regarding investment risks.

To manage market risk, the Company and certain consolidated subsidiaries have implemented investment limits based on the nature of the assets in order to avoid excessive losses from financing and investment transactions. In addition, the Company and certain consolidated subsidiaries monitor and regularly report on the status of compliance to the Risk Management Committee, the advisory body of the Management Committee, and have developed a system to manage risk within acceptable levels in the event of a breach of the internal rules. Also, to manage market risk in the portfolio of the Company and

certain consolidated subsidiaries, the Company and certain consolidated subsidiaries use a statistical analysis method to rationally calculate the market value-at-risk of the portfolio as a whole and conduct appropriate asset allocation within acceptable boundaries of risk.

To manage credit risk, the Company and certain consolidated subsidiaries have built a system to perform credit analysis, including strict assessment of individual counterparties by the Assessment Management Department, which is independent of the departments handling investment and finance activities. The Company and certain consolidated subsidiaries also continue to build a sound portfolio through the establishment and monitoring of interest

guidelines to ensure the returns the Company and certain consolidated subsidiaries obtain are commensurate with the risk, a system of internal ratings for classifying the creditworthiness of borrowers, and credit ceilings to ensure that credit risk is not excessively concentrated in a particular company, group, or country. In addition, the Company and certain consolidated subsidiaries calculate credit value-at-risk as a measurement of the magnitude of credit risk across the portfolio of the Company and certain consolidated subsidiaries as a whole, and monitor whether the magnitude of risk stays within an appropriate range.

Matters concerning the fair value and so on of financial instruments in the fiscal year ended March 31, 2022, are as follows:

Notes are omitted for financial instruments whose book value is deemed to approximate fair value due to their short-term settlement.

(1) Balance sheet amounts and fair values for major financial instruments and their differences are as follows:

As of March 31	Millions of Yen			Millions of U.S. Dollars		
	2022			2022		
	Balance sheet amount ^(*)	Fair value ^(*)	Difference	Balance sheet amount ^(*)	Fair value ^(*)	Difference

Industrial and consumer loans	7,930,443	8,077,533	147,090	64,796	65,998	1,201
Derivative financial instruments ^(*) :	(920,898)	(920,898)	—	(7,524)	(7,524)	—
Hedge accounting not applied	(8,562)	(8,562)	—	(69)	(69)	—
Hedge accounting applied	(912,335)	(912,335)	—	(7,454)	(7,454)	—
Corporate bonds ^(*)	1,535,905	1,536,327	422	12,549	12,552	3
Loans payable	843,436	842,760	(675)	6,891	6,885	(5)

(*) For transactions for which an allowance for doubtful accounts was recorded, the amount of the allowance is deducted.

(*) For securities for which impairment losses were recognized in the fiscal year ended March 31, 2022, the fair value is the balance sheet amount after the impairment losses are deducted.

(*) Stocks and other securities without a market price, such as unlisted equity securities are not included. The balance sheet amount of these at the end of the fiscal year ended March 31, 2022 is ¥234,763 million (U.S. \$1,918 million).

(*) The transitional measures of Paragraph 27 of the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31) are applied, and the investment balances to partnerships and so on are not included. The balance sheet amount for said partnerships and so on is ¥608,678 million (U.S. \$4,973 million).

(*) The fair values of derivative financial instruments that are interest rate swaps under exceptional accounting treatment ("Tokurei-shori") or currency swaps under designated hedge accounting ("Furiate-shori") are included in the fair values of loans and corporate bonds because they are accounted for as an integral part of the loans and corporate bonds that are the hedged items.

(*) Assets and liabilities generated by derivative financial instruments are offset and presented net. Net liabilities in total are presented in parentheses.

(2) Matters regarding securities and others by holding purpose are as follows:

1) Trading securities

For the fiscal year ended March 31, 2022, valuation gains/losses included in profit and loss were losses of ¥30,752 million (U.S. \$251 million) for investments in securities related to separate accounts, which are classified as trading securities.

2) Held-to-maturity debt securities

Balance sheet amounts, fair values, and their differences by type are as follows:

As of March 31	Millions of Yen			Millions of U.S. Dollars		
	2022			2022		
Type	Balance sheet amount	Fair value	Difference	Balance sheet amount	Fair value	Difference
Fair value exceeds the balance sheet amount:						
Monetary receivables purchased	¥ 10,318	¥ 10,534	¥ 216	\$ 84	\$ 86	\$ 1

Foreign securities	6,409,337	6,085,205	(324,131)	52,368	49,719	(2,648)
Other securities	2,487,140	2,401,487	(85,653)	20,321	19,621	(699)
Subtotal	10,643,693	10,051,918	(591,774)	86,965	82,130	(4,835)
Total	¥32,084,257	¥40,713,212	¥8,628,954	\$262,147	\$332,651	\$70,503

* Stocks and other securities without a market price totaling ¥63,528 million (U.S. \$519 million) and investment balances to partnerships and so on totaling ¥232,635 million (U.S. \$1,900 million) are not included.

Impairment losses of ¥11,972 million (U.S. \$97 million) were recognized in the fiscal year ended March 31, 2022.

Regarding stocks (including foreign stocks) of the Company and certain consolidated subsidiaries, impairment losses are recognized for stocks whose fair values have declined significantly from the acquisition price based on the fair value on the fiscal year-end date.

The criteria by which the fair value of a stock is deemed to have declined significantly are as follows:

- a. A security for which the ratio of the average fair value in the last month of the fiscal year to the acquisition cost is 50% or less.
- b. A security that meets both of the following criteria:
 1. Average fair value in the last month of the fiscal year is between 50% and 70% of its acquisition cost.
 2. The historical fair value, the business conditions of the issuing company, and other aspects are subject to certain requirements.

(3) Scheduled repayment amounts for the main monetary claims and liabilities and redemption amounts for securities with maturities are as follows:

As of March 31, 2022	Millions of Yen				Millions of U.S. Dollars			
	1 year or under	Over 1 year under 5 years	Over 5 years under 10 years	Over 10 years	1 year or under	Over 1 year under 5 years	Over 5 years under 10 years	Over 10 years
Monetary receivables purchased:	¥ 22,300	¥ 3,482	¥ 48,201	¥ 215,953	\$ 182	\$ 28	\$ 393	\$ 1,764

Loans payable	29,856	82,129	1,450	730,000	243	671	11	5,964

(*1) Loans such as policy loans that do not have a stated maturity date are not included.

Also, ¥8,054 million (U.S. \$65 million) in loans to legally or substantially bankrupt borrowers or borrowers who are not currently legally bankrupt but have a high probability of bankruptcy are not included.

(*2) Subordinated corporate bonds and others that do not have a stated maturity date are not included.

(4) Matters concerning the breakdown at each level of fair value for financial instruments are as follows:

Fair values of financial instruments are classified into the following three levels according to the observability and significance of inputs used in fair value measurement.

Level 1: Fair value measured based on the quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Fair value measured based on directly or indirectly observable inputs other than Level 1 inputs

Level 3: Fair value measured based on significant unobservable inputs

In cases of using multiple inputs with significant influence in fair value measurement, the fair value is classified to the lowest priority level of fair value measurement in which each input belongs.

a. Financial instruments whose balance sheet amount is measured at fair value

* The transitional measures of Paragraph 26 of the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31) are applied, and investment trusts are not included. The balance sheet amount for these investment trusts was ¥10,787,120 million (U.S. \$88,137 million).

(5) Descriptions of the valuation techniques and inputs used in fair value measurement of the major financial instruments of the Company and certain consolidated subsidiaries are as follows:

1) Securities and monetary receivables purchased that are treated as securities based on the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10)

Securities and monetary receivables purchased for which the unadjusted quoted price in an active market can be used are classified as Level 1 fair value. Listed stocks and national government bonds are primarily included here. Cases where the market is not active even though the published quoted price was used are classified as Level 2 fair value. Local government bonds and corporate bonds are primarily included here. In cases where the published quoted price was not obtainable, the fair value is measured based on the valuation amount obtained through external information vendors. Securities and monetary receivables purchased for which unobservable inputs were not used, or they did not have significant impact, are classified as Level 2 fair value, while securities and monetary receivables purchased using significant unobservable inputs are classified as Level 3 fair value. Publicly available standard prices are used for investment trusts, the transitional measures of Paragraph 26 of the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31) have been applied, and levels are not assigned.

2) Loans

a. Policy loans

Fair value is measured at the book value of policy loans as the book value is deemed to approximate fair value due to expected repayment periods, interest rate requirements, and other conditions. These loans have no repayment date based on characteristics, such as the loan amount being limited to the extent of the surrender benefit, and are classified as Level 3.

b. Industrial and consumer loans

In cases where the borrower's credit status is not significantly different after executing the loan, fair value is deemed to approximate book value because market interest rates are reflected in future cash flows in the short term. Thus, book value is used as fair value for variable interest rate loans. Fair value of fixed interest rate loans is measured by discounting cash flows to the present value using a discount rate reflecting credit and other risks to market interest for each classification based on the type of loan, internal rating, and period. This fair value is reflected for loans subject to designated hedge accounting ("*Furiate-shori*") for

currency swaps and exceptional accounting treatment ("*Tokurei-shori*") for interest rate swaps.

Fair value of loans to legally or substantially bankrupt borrowers or borrowers who are not currently legally bankrupt but have a high probability of bankruptcy is measured by deducting the estimated uncollectible amount from the book value prior to direct write-offs based on the present value of future cash flows or the amount expected to be collected based on collateral and guarantees.

All measured fair values are classified as Level 3.

3) Derivative financial instruments

Fair value for which the unadjusted quoted price in an active market can be used is classified as Level 1. Bond futures and equity index futures are primarily included here. When the published quoted price cannot be used, a valuation amount obtained from external information vendors is primarily used, or the valuation amount calculated by the Company. When this valuation amount does not use unobservable inputs, or their impact is not significant, fair value is classified as Level 2, and when significant unobservable inputs are used, fair value is classified as Level 3.

4) Corporate bonds

Fair value of corporate bonds whose fair value is measured at market price is classified as Level 2. Fair value of corporate bonds that have fixed interest and whose fair value is measured by discounting future cash flows to the present value using a discount at a rate corresponding to the expected remaining period is classified as Level 3. This fair value is reflected for corporate bonds subject to designated hedge accounting ("*Furiate-shori*") of currency swaps.

5) Loans payable

Fair value is deemed to approximate book value because market interest rates are reflected in future cash flows in the short term, and because the Company's credit status is not significantly different after executing the loans. Thus, book value is used as fair value for variable interest rate loans, and their fair value is classified as Level 3. Fair value of fixed interest rate loans payable is measured, in principle, by discounting future cash flows to the present value using the expected rate in similar loans payable factoring in the Company's credit risk, and is classified as Level 3. However, loans payable financed by means of public offerings employing securitization schemes are measured at the market price of the corporate bonds issued to back the loans payable, and their fair value is classified as Level 2.

(6) Information on Level 3 fair value of financial instruments whose balance sheet amount is measured at fair value is as follows:

1) Quantitative information concerning significant unobservable inputs used in fair value measurement

Notes are omitted, as unobservable inputs are not estimated.

2) Reconciliation between the beginning and ending balances of the fiscal year ended March 31, 2022, net unrealized gains (losses) recognized as profit (losses) in the fiscal year ended March 31, 2022:

(*1) Included in investment income and investment expenses in consolidated statements of income.

(*2) Included in net unrealized gains (losses) on available-for-sale securities of other comprehensive income (loss) in consolidated statements of comprehensive income.

(*3) Replaced Level 1 or Level 2 fair value with Level 3 fair value, due to changes in the observability of the inputs used in fair value measurement. These replacements were made at the beginning of the fiscal year ended March 31, 2022.

(*4) Replaced Level 3 fair value with Level 1 or Level 2 fair value, due to changes in the observability of the inputs used in fair value measurement. These replacements were made at the beginning of the fiscal year ended March 31, 2022.

3) Description of fair value valuation process

The Company and certain consolidated subsidiaries measure fair value based on internally decided policies concerning fair value measurement and have confirmed the validity of valuation techniques and inputs used in fair value measurement established in said policies as well as the appropriateness of fair value level classifications.

In measuring fair value, the valuation models able to most appropriately reflect the nature, characteristics, and risk of individual

financial instruments are used. When using quoted prices obtained from third parties, the valuation techniques and inputs used are confirmed, and the validity of the prices is verified using appropriate techniques including comparison with fair value presented by other vendors.

4) Explanation concerning impacts on fair value when significant unobservable inputs are changed

Notes are omitted, as unobservable inputs are not estimated.

Matters concerning fair value of financial instruments and others in the fiscal years ended March 31, 2021 and March 31, 2020, are as follows:

(1) Balance sheet amounts and fair values of major financial instruments and their differences are as follows:

As of March 31	Millions of Yen					
	2021			2020		
	Balance sheet amount ^(*1)	Fair value ^(*2)	Difference	Balance sheet amount ^(*1)	Fair value ^(*2)	Difference

Loans payable ^(*3)	736,801	737,525	724	603,787	599,381	(4,405)

(*1) For transactions for which an allowance for doubtful accounts was recorded, the amount of the allowance is deducted.

(*2) For securities for which impairment losses were recognized in the fiscal years ended March 31, 2021 and 2020, the fair value is the balance sheet amount after the impairment losses are deducted.

(*3) The fair values of derivative financial instruments that are interest rate swaps under exceptional accounting treatment ("Tokurei-shori") or currency swaps under designated hedge accounting ("Furiate-shori") are included in the fair values of loans, corporate bonds, and loans payable because they are accounted for as an integral part of the loans, corporate bonds, and loans payable that are the hedged items.

(*4) Assets and liabilities generated by derivative financial instruments are offset and presented net. Net liabilities in total are presented in parentheses.

(2) Fair value measurement methods for the major financial instruments of the Company and certain consolidated subsidiaries are as follows:

1) Securities, deposits, and monetary receivables purchased that are treated as securities based on the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10)

i) Items with a market price

Fair value is measured based on the closing market price on the balance sheet date. However, the fair values of available-for-sale domestic and foreign equity securities are based on the average market price over a one-month period prior to the balance sheet date.

ii) Items without a market price

Fair value is measured mainly by discounting future cash flows to present value or valuations obtained from external information vendors.

2) Loans

i) Policy loans

Fair value is measured at the book value of policy loans as the book value is deemed to approximate fair value due to expected repayment periods, interest rate requirements, and other

conditions. These loans have no repayment date based on characteristics, such as the loan amount being limited to the extent of the surrender benefit.

ii) Industrial and consumer loans

Book value of variable interest rate loans is deemed to approximate fair value because market interest rates are reflected in future cash flows over the short term. Thus, book value is used as fair value for variable interest rate loans. Fair value of fixed interest rate loans is measured mainly by discounting future cash flows to present value.

Fair value of loans to legally or substantially bankrupt borrowers or borrowers who are not currently legally bankrupt but have a high probability of bankruptcy is measured by deducting the estimated uncollectible amount from the book value prior to direct write-offs.

3) Derivative financial instruments

i) Fair value of futures and other market transactions is measured by the liquidation value or closing market price on the balance sheet date.

- ii) Fair value of equity options is measured mainly based on liquidation value or closing market price on the balance sheet date or valuations obtained from external information vendors.
 - iii) Fair value of interest rate swaps, interest rate swaptions, foreign exchange contracts, currency options, currency swaps, and forward contracts is measured mainly based on valuations obtained from external parties.
- 4) Assets held in trust
Fair value is based on a reasonably calculated price by the trustee of the assets held in trust, in accordance with the calculation methods set forth in 1) and 3) above.
- 5) Corporate bonds
Corporate bonds are stated at fair value on the balance sheet date.
- 6) Payables under repurchase agreements
The book value is used as fair value due to their short-term settlement.
- 7) Loans payable

Book value of variable interest rate loans payable is deemed to approximate fair value because market interest rates are reflected in future cash flows over the short term. Thus, book value is used as fair value for variable interest rate loans payable. Fair value of fixed interest rate loans payable is measured, in principle, by discounting future cash flows to present value; however, loans payable financed by means of public offerings employing securitization schemes are measured at the fair value of the corporate bonds issued to back the loans payable.

- (3) Unlisted equity securities, investments in partnerships whereby partnership assets consist of unlisted equity securities, and other items of which the fair value is extremely difficult to determine are not included in investments in securities in table (1).

Balance sheet amounts were ¥1,188,648 million and ¥987,368 million as of March 31, 2021 and 2020, respectively.

(4) Matters regarding securities and others by holding purpose are as follows:

1) Trading securities

Derivative financial instruments within assets held in trust, investments in securities for separate accounts and certain other securities are classified as trading securities as of March 31, 2021 and 2020.

Valuation gains/losses included in profit and loss were gains of ¥84,677 million and losses of ¥20,915 million for derivative financial instruments within assets held in trust and investments in securities related to separate accounts for the fiscal years ended March 31, 2021 and 2020, respectively.

2) Held-to-maturity debt securities

Balance sheet amounts, fair values, and their differences by type are as follows:

As of March 31	Millions of Yen					
	2021			2020

* Securities totaling ¥792,035 million and ¥627,933 million, whose fair values are extremely difficult to determine, as of March 31, 2021 and 2020, respectively, are not included.

Impairment losses of ¥1,502 million and ¥159,045 million were recognized for securities with a fair value during the fiscal years ended March 31, 2021 and 2020, respectively.

Regarding stocks (including foreign stocks) with fair values of the Company and certain consolidated subsidiaries, impairment losses are recognized for stocks whose fair value has declined significantly from the acquisition price based on the average fair value in the last month of the fiscal year, in principle. However, in the case of a security that meets certain criteria, such as a security for which the fair value declines substantially and the decline in the fair value in the last month of the fiscal year is substantial, impairment losses are recog-

nized based on the fair value on the fiscal year-end date.

The criteria by which the fair value of a stock is deemed to have declined significantly are as follows:

- a. A security for which the ratio of the average fair value in the last month of the fiscal year to the acquisition cost is 50% or less.
- b. A security that meets both of the following criteria:
 1. Average fair value in the last month of the fiscal year is between 50% and 70% of its acquisition cost.
 2. The historical fair value, the business conditions of the issuing company and other aspects are subject to certain requirements.

(5) Scheduled repayment amounts for the main monetary claims and liabilities and redemption amounts for securities with maturities are as follows:

As of March 31, 2021	Millions of Yen

e. Others

No ending balance as of March 31, 2022, 2021 and 2020.

8. Disclosures about Fair Value of Investment and Rental Properties

The balance sheet amounts for investment and rental properties were ¥1,293,227 million (U.S. \$10,566 million), ¥1,319,874 million and ¥1,290,981 million, with a fair value of ¥1,766,342 million (U.S. \$14,432 million), ¥1,736,904 million, and ¥1,680,629 million as of March 31, 2022, 2021 and 2020, respectively. The Company and certain consolidated subsidiaries own rental office buildings and commercial facilities, the fair value of which at year-end is the amount measured based mainly on the "Real Estate Appraisal Standards." The amounts corresponding to asset retirement obligations that were included in the balance sheet amounts of investment and rental properties were ¥4,089 million (U.S. \$33 million), ¥3,313 million and ¥3,400 million as of March 31, 2022, 2021 and 2020, respectively.

9. Securities Loaned and Borrowed

The amounts of securities lent under lending agreements were ¥2,435,440 million (U.S. \$19,899 million), ¥3,028,877 million and ¥3,719,783 million as of March 31, 2022, 2021 and 2020, respectively.

Assets that can be sold or resecured are marketable securities borrowed under lending agreements. These assets were held without being sold or resecured and totaled ¥402,310 million (U.S. \$3,287 million), ¥389,126 million and ¥397,399 million at fair value as of March 31, 2022, 2021 and 2020, respectively.

10. Accumulated Depreciation

The amounts of accumulated depreciation of tangible fixed assets were ¥1,259,385 million (U.S. \$10,289 million), ¥1,203,751 million and ¥1,176,828 million as of March 31, 2022, 2021 and 2020, respectively.

11. Separate Accounts

Separate account assets as provided for in Article 118, Paragraph 1 of the Insurance Business Act were ¥1,442,281 million (U.S. \$11,784 million), ¥1,459,633 million and ¥1,407,066 million as of March 31, 2022, 2021 and 2020, respectively, and a corresponding liability is recorded in the same amount. The amounts of separate accounts are included in the respective account balance on the consolidated balance sheets.

12. Reserve for Dividends to Policyholders (mutual company)

A reserve for dividends to policyholders (mutual company) is recognized to reserve dividends to policyholders of the parent company, which is a mutual company.

Changes in the reserve for dividends to policyholders (mutual company) for the fiscal years ended March 31, 2022, 2021 or 2020, were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Balance at the beginning of the fiscal year	¥1,046,832	¥1,043,785	¥1,020,213	\$8,553
Transfer to reserve from surplus in the previous fiscal year	276,006	185,145	211,818	2,255
Dividends paid to policyholders during the fiscal year	(283,608)	(203,557)	(209,969)	(2,317)
Increase in interest	21,346	21,458	21,722	174
Balance at the end of the fiscal year	¥1,060,577	¥1,046,832	¥1,043,785	\$8,665

13. Reserve for Dividends to Policyholders (limited company)

A reserve for dividends to policyholders (limited company) is recognized to reserve dividends to policyholders of subsidiaries, which are limited companies.

Changes in the reserve for dividends to policyholders (limited company) for the fiscal years ended March 31, 2022, 2021 and 2020, were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Balance at the beginning of the fiscal year	¥54,738	¥56,750	¥60,326	\$447
Dividends paid to policyholders during the fiscal year	(14,290)	(13,988)	(15,417)	(116)
Increase in interest	9	10	11	0
Provision for reserve for dividends to policyholders (limited company)	12,839	11,966	11,829	104
Balance at the end of the fiscal year	¥53,297	¥54,738	¥56,750	\$435

14. Corporate Bonds

Corporate bonds within liabilities are subordinated corporate bonds with special provisions that subordinate the fulfillment of obligations on the bonds to all other debt obligations.

The corporate bonds are callable at the discretion of the issuer, subject to the approval of the regulatory authority and other conditions.

The corporate bond issuance dates and callable dates for currency swaps under designated hedge accounting are as follows:

Balance as of March 31, 2022, 2021 and 2020

16. Net Defined Benefit Asset and Liability

(1) Summary of retirement benefit plans

In terms of defined benefit plans, the Company has a defined benefit corporate pension plan and a lump-sum retirement payment plan for non sales personnel and sales management personnel, etc. In terms of defined contribution plans, the Company has a defined contribution pension plan. The Company also has a defined benefit plan for sales representatives, etc., in the form of a lump-sum retirement payment plan and an in-house pension plan. Certain consolidated subsidiaries mainly have a lump-sum retirement payment plan as a defined benefit plan and a defined contribution pension plan as a defined contribution plan.

In March 2020, the Company reached an agreement with the workforce on amending the retirement benefit plans for non sales personnel, sales management personnel, sales representatives, and certain other personnel in connection with the extension of the mandatory retirement age to 65, which will be implemented in April 2021. Accordingly, prior service costs of ¥(6,589) million were accrued based on the amended retirement plans for the fiscal year ended March 31, 2020.

Nissay Asset Management Corporation, the Company's consolidated subsidiary, has changed its calculation method for retirement benefit obligations from the simplified method to the principle method in the fiscal year ended March 31, 2020. This change was made to calculate the amount of retirement benefit obligations more accurately and to ensure an appropriate periodic allocation of benefit costs to earnings in connection with an increase in the number of employees. In accordance with this change, net defined benefit liability decreased by ¥54 million as of March 31, 2020, and the same amount was recorded as benefit costs.

(2) Defined benefit plan

1) Reconciliation of retirement benefit obligations at the beginning and end of the fiscal year

For the years ended March 31, 2022, 2021 and 2020	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022

6) Breakdown of items included in other comprehensive income (before tax)

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Actuarial gains (losses)	¥6,906	¥13,191	¥(8,729)	\$56
Prior service costs	(1,317)	(1,317)	6,589	(10)
Total	¥5,588	¥11,873	¥(2,140)	\$45

7) Breakdown of items included in total accumulated other comprehensive income (before tax)

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Unrecognized actuarial losses	¥7,933	¥14,840	¥28,031	\$64
Unrecognized prior service costs	(3,953)	(5,271)	(6,589)	(32)
Total	¥3,980	¥ 9,568	¥21,442	\$32

8) Pension plan assets consist of the following:

	2022	2021	2020
General account of Nippon Life	47.9%	48.1%	50.6%
Cash and deposits	24.1%	19.8%	13.6%
Foreign securities	15.3%	20.0%	9.9%
Domestic bonds	8.4%	8.0%	21.6%
Domestic stocks	4.4%	4.0%	4.3%
Other	0.0%	0.0%	0.0%
Total	100.00%	100.0%	100.0%

9) Calculation method for long-term expected rate of return on plan assets

To determine the long-term expected rate of return on pension plan assets, the Company and certain consolidated subsidiaries take into consideration present and forecasted allocation of the pension plan assets, and present and long-term rates of return that are expected

from the portfolio of assets that comprise the pension plan assets.

10) Matters relating to the basis for actuarial calculations

The main items in the basis for actuarial calculations of the Company and certain consolidated subsidiaries as of March 31, 2022, 2021 and 2020, are as follows:

	2022	2021	2020
Discount rate	0.4–7.0%	0.3–6.4%	0.3–6.8%
Long-term expected rate of return on plan assets	1.4–7.0%	1.4–6.4%	1.4–6.8%

(3) Defined contribution plans

The Company and its consolidated subsidiaries contributed ¥5,273 million (U.S. \$43 million), ¥5,069 million and ¥4,958 million to defined contribution plans during the fiscal years ended March 31, 2022, 2021 and 2020, respectively.

17. Foundation Funds

Foundation funds serve as the primary source of capital for Japanese mutual life insurance companies. These funds are similar to loans, as interest payments, maturity dates and other items must be established at the time of the offering. In the event of a bankruptcy or similar development, repayment of the principal and interest on foundation funds is subordinated to the repayment of amounts owed to ordinary creditors and insurance claims and benefit payments owed to policyholders. Upon redemption of foundation funds, mutual companies are required to make an addition to the reserve for redemption of foundation funds, which serves as retained earnings, equal to the amount redeemed. As a result, the full amount of foundation funds remains in net assets even after redemption. Foundation funds are therefore positioned as a mutual company's core capital, which is equivalent to the stated capital of a joint-stock company. The Company redeemed ¥50,000 million (U.S. \$408 million) and ¥50,000 million of foundation funds and credited the same amount to reserve for redemption of foundation funds as prescribed in Article 56 of the Insurance Business Act for the fiscal years ended March 31, 2022 and 2020, respectively. ¥50,000 million (U.S. \$408 million) and ¥50,000 million of foundation funds were offered pursuant to Article 60 of the Insurance Business Act during the fiscal years ended March 31, 2022 and 2020.

18. Pledged Assets

Assets pledged as collateral in the form of cash and deposits, investments in securities, land, buildings, and lease receivables as of March 31, 2022, were ¥52,970 million (U.S. \$432 million), ¥4,227,136 million (U.S. \$34,538 million), ¥252 million (U.S. \$2 million), ¥38 million (U.S. \$0 million), and ¥3,660 million (U.S. \$29 million), respectively. The total amount of liabilities covered by the assets pledged was ¥2,970,690 million (U.S. \$24,272 million) as of March 31, 2022.

These amounts included ¥2,662,125 million (U.S. \$21,751 million) of sale of securities under repurchase agreements and ¥2,946,626 million (U.S. \$24,075 million) of payables under repurchase agreements as of March 31, 2022.

Assets pledged as collateral in the form of cash and deposits, investments in securities, land, buildings, and lease receivables as of March 31, 2021, were ¥16,227 million, ¥2,465,498 million, ¥252 million, ¥40 million and ¥3,580 million, respectively. The total amount of liabilities covered by the assets pledged was ¥1,483,501 million as of March 31, 2021.

These amounts included ¥1,342,624 million of sale of securities under repurchase agreements and ¥1,469,600 million of payables under repurchase agreements as of March 31, 2021.

Assets pledged as collateral in the form of cash and deposits, investments in securities, land, buildings, and lease receivables as of March 31, 2020, were ¥152 million, ¥2,257,502 million, ¥252 million, ¥43 million, and

¥2,092 million, respectively. The total amount of liabilities covered by the assets pledged was ¥1,299,050 million as of March 31, 2020.

These amounts included ¥1,251,602 million of sale of securities under repurchase agreements and ¥1,296,522 million of payables under repurchase agreements as of March 31, 2020.

19. Investments in Nonconsolidated Subsidiaries and Affiliates

The total amounts of stocks and investments in nonconsolidated subsidiaries and affiliates were ¥587,926 million (U.S. \$4,803 million), ¥435,824 million and ¥404,720 million as of March 31, 2022, 2021 and 2020, respectively.

- Method used
Black-Scholes option-pricing model
 - Principal parameters used in the option-pricing model and estimation method
For the fiscal years ended March 31, 2022, 2021 and 2020

Nippon Life India Asset Management Limited							
	2019 Fourth Series of Share Acquisition Rights	2019 Third Series of Share Acquisition Rights	2019 Second Series of Share Acquisition Rights	2019 First Series of Share Acquisition Rights	2017 Third Series of Share Acquisition Rights	2017 Second Series of Share Acquisition Rights	2017 First Series of Share Acquisition Rights
Expected volatility ^{(*)1}	12.92%	12.92%	16.17%	16.46%	16.66%	14.21%	13.92% to 20.81%
Expected remaining life ^{(*)2}	4.0 to 5.5 years	4.0 to 5.5 years	4.0 to 5.5 years	4.0 to 5.5 years	4.0 to 5.5 years	4.0 to 5.5 years	4.0 to 5.5 years
Expected dividend rates ^{(*)3}	2.01%	2.54%	1.98%	3.22%	2.97%	3.25%	3.09%
Risk-free interest rate ^{(*)4}	5.48% to 5.98%	5.49% to 5.99%	4.37% to 4.88%	6.22% to 6.45%	6.32% to 6.55%	7.06% to 7.15%	6.20% to 6.34%

(*)1 Calculated based on indices provided by the National Stock Exchange of India.

(*)2 The expected remaining life is calculated as a half of the sum of the shortest and longest exercisable periods after stock options are granted.

(*)3 Expected dividend rates are based on historical dividend performance.

(*)4 The risk-free interest rate is based on the yields on government bonds in India with remaining terms equal to the expected remaining life of the stock options.

- 6) Method of estimating the number of stock options vested

The estimate basically reflects only the actual number of forfeited stock options because it is difficult to reasonably estimate the actual number of stock options that will be forfeited in the future.

21. Receivables and Loans

- (1) Of the loans, the total amount of bankrupt and quasi-bankrupt loans, doubtful loans, loans that are delinquent for over three months, and restructured loans were ¥30,409 million (U.S. \$248 million), ¥29,531 million and ¥29,463 million as of March 31, 2022, 2021 and 2020, respectively. The breakdown is as follows:

- 1) The amounts of bankrupt and quasi-bankrupt loans were ¥10,285 million (U.S. \$84 million), ¥10,301 million and ¥10,511 million as of March 31, 2022, 2021 and 2020, respectively.

Bankrupt and quasi-bankrupt loans are loans to borrowers that have fallen into bankruptcy due to reasons including initiation of bankruptcy proceedings, start of reorganization proceedings, or submission of an application to start rehabilitation proceedings.

- 2) The amounts of doubtful loans were ¥18,352 million (U.S. \$149 million), ¥16,594 million and ¥17,388 million as of March 31, 2022, 2021 and 2020, respectively.

Doubtful loans are loans that are not applicable to bankrupt and quasi-bankrupt loans, with a strong likelihood that loan principal cannot be recovered or interest cannot be received according to the contract because of the difficulties in the financial condition and business performance of the debtor, who has not yet entered into bankruptcy.

- 3) There were no loans delinquent for over three months.

Loans that are delinquent for over three months are loans that are not applicable to bankrupt and quasi-bankrupt loans and doubtful loans, and have principal or interest being unpaid for over three months following the due date based on the loan agreement.

- 4) The amounts of restructured loans were ¥1,771 million (U.S. \$14 million), ¥2,635 million and ¥1,563 million as of March 31, 2022, 2021 and 2020, respectively.

Restructured loans are loans that are not applicable to bankrupt and quasi-bankrupt loans, doubtful loans, and loans delinquent for over three months, and that provide concessions favorable to the borrower with the intent of supporting the borrowers' restructuring, such as by reducing or exempting interest, postponing principal or interest payments, releasing credits, or providing other benefits to the borrowers.

- (2) After directly deducting the estimated uncollectible amount, bankrupt and quasi-bankrupt losses decreased by ¥1,603 million (U.S. \$13 million), ¥3,784 million and ¥3,382 million as of March 31, 2022, 2021 and 2020, respectively.

22. Loan Commitments

The amounts of commitments related to loans and loans outstanding were ¥222,181 million (U.S. \$1,815 million), ¥274,291 million and ¥274,182 million as of March 31, 2022, 2021 and 2020, respectively.

23. Contributions to the Life Insurance Policyholder Protection Fund and Organization

Of the maximum borrowing amount from the Life Insurance Policyholders Protection Corporation of Japan, which is provided for in Article 37-4 of the Order for Enforcement of the Insurance Business Act, the amounts applied to the Company and certain consolidated subsidiaries were estimated to be ¥83,522 million (U.S. \$682 million), ¥85,539 million and ¥89,563 million as of March 31, 2022, 2021 and 2020, respectively. The amounts contributed to the aforementioned corporation were recorded within operating expenses for the fiscal year.

24. Impairment Losses

The main notes concerning impairment losses are as follows:

(1) Method for grouping the assets

a. Real estate and other assets

Real estate for rental use and idle properties of the Company and certain consolidated subsidiaries are classified as one asset group per property. Real estate and other assets utilized for insurance business operations are classified into one asset group for the whole insurance business.

b. Goodwill and goodwill equivalent

Goodwill and goodwill equivalent of the Company are classified as one asset group on a company basis, in principle.

To evaluate the equivalent amount of goodwill related to PT Sequis, PT Sequis and PT Asuransi Jiwa Sequis Life are classified into one asset group because PT Asuransi Jiwa Sequis Life, which is owned by PT Sequis as an intermediate holding company, substantially conducts business operations.

(2) Identification of indicators of impairment

a. Real estate and other assets

The Company identifies indicators of impairment if the operating activities of an asset group result in loss in consecutive fiscal periods or there are events indicating that the asset may be impaired.

The Company identified indicators of impairment in certain asset groups because the conditions above were applicable as of March 31, 2022, 2021 and 2020, respectively.

b. Goodwill and goodwill equivalent

The Company identifies indicators of impairment if any of the following conditions applies to an asset group:

(i) Profit or loss in the current period, or cash flows from operating activities are, or are expected to be, negative for two consecutive fiscal periods.

(ii) Businesses or management strategies have been substantially revised from initial plans, and a continuing future deterioration in business performance that could lead to a large decline in actual value is expected.

(iii) A continuing future deterioration in business performance that could lead to a large decline in actual value is expected based on the outlook for a drastic or anticipated worsening of the business environment.

As of March 31, 2022 and 2021, the Company has identified indicators of impairment on goodwill related to Nippon Life India Asset Management Limited, the equivalent amount of goodwill related to Reliance Nippon Life Insurance Company Limited, and the equivalent amount of goodwill related to PT Sequis. The Company has identified indicators of impairment on the goodwill related to Nippon Life India Asset Management Limited because of the large amount of goodwill in accordance with Paragraph 109 of the "Accounting Standard for Business Combinations" (ASBJ Statement No. 21).

(3) Recognition and measurement of impairment losses

a. Real estate and other assets

Asset groups for which indicators of impairment are recognized are treated as follows. If the total amount of undiscounted cash flows from such an asset group is lower than the book value, an impairment loss is recognized and the book value is reduced to the recoverable amount. The recoverable amount is based on either the value in use or net selling price.

In principle, the value in use is determined as the discounted future cash flows using a discount rate of 2.0–3.0%, 3.0% and 3.0–3.3% for the fiscal years ended March 31, 2022, 2021 and 2020, respectively. Net selling price is determined based on appraisals performed in accordance with the "Real Estate Appraisal Standards" or standard land prices.

The book values of certain asset groups for which indicators of impairment were recognized were reduced to the recoverable amounts, and impairment losses were recognized under extraordinary losses as of March 31, 2022, 2021 and 2020, respectively.

b. Goodwill and goodwill equivalent

Asset groups for which indicators of impairment are recognized are treated as follows. If the total amount of undiscounted future cash flows from such an asset group is lower than the book value, the book value is reduced to the recoverable amount, with the reduction not to exceed the amount of goodwill and goodwill equivalent. The recoverable amount is based on either the value in use or net selling price. The value in use is determined as the amount by discounting the future cash flows calculated based on future projections, medium-term management plans and other information for each asset group. Net selling price is determined based on the amount obtained by multiplying the market value of shares by the number of shares held.

In the impairment assessment of life insurance companies, the corporate valuation amount (the sum of Embedded Value ("EV") and the value of new business) is used as an alternative to the undiscounted future cash flows above and recoverable amount, after ensuring that the requirements of the "Accounting Standard for Impairment of Fixed Assets" (Business Accounting Deliberation Council) are satisfied. EV is the sum of "adjusted net assets, reflecting necessary adjustments to the total amount of the net assets in the balance sheet" and "the value of existing policies that is the present value of future after-tax profits from policies in force." EV represents corporate value attributable to shareholders. It is used to grasp matters such as the shareholder value of limited insurance companies and the acquisition price of an acquiree company in M&A deals. Moreover, the value of new business represents "the present value of future after-tax profit from policies to be acquired in the future."

As of March 31, 2022 and 2021, the Company conducted an impairment test of the equivalent amount of goodwill related to Reliance Nippon Life Insurance Company Limited, PT Sequis and PT Asuransi Jiwa Sequis Life, which are life insurance companies for which

indications of impairment had been identified. In this test, the corporate valuation amount was used as an alternative to undiscounted future cash flows and the recoverable amount. The Company used TEV as EV to determine the corporate valuation amounts of those life insurance companies. TEV is a method for calculating EV that evaluates cash flow with a risk-adjusted discount rate. The calculation of the corporate valuation amounts of those life insurance companies involves uncertainties in factors, such as future cash flows based on the projected acquisition of new insurance policies in each sales channel as the basis of the value of new business, discount rates, and insurance-related actuarial assumptions, such as the lapse rates and the insurance accident rates which are the basis for the calculation of EV. No impairment was recognized on the equivalent amount of goodwill related to Reliance Nippon Life Insurance Company Limited because its corporate valuation amount was higher than the book value.

In addition to the foregoing, the equivalent amount of goodwill related to PT Sequis contains assumptions about the growth rate of the economy in Indonesia and the impact of the COVID-19 pandemic lasting until 2021 in the fiscal year ending March 31, 2021 and assumptions about the impact of the COVID-19 pandemic on future sales plans lasting until 2022 in the fiscal year ending March 31, 2022. If there are marked changes in those assumptions, the value of the equivalent amount of goodwill could be significantly impacted. No impairment, however, was recognized on the equivalent amount of goodwill related to PT Sequis because its corporate valuation amount was higher than the book value.

As of March 31, 2022 and 2021, the Company conducted an impairment test of goodwill related to Nippon Life India Asset Management Limited, for which indications of impairment had been identified. In this test, the total amount of undiscounted future cash flows and the book value of Nippon Life India Asset Management Limited were compared. The former was higher than the latter. In addition, a comparison of its market capitalization, as Nippon Life India Asset Management Limited is a listed company, and book value showed that its market capitalization was higher than its book value. Considering these and other factors, no impairment loss on goodwill related to Nippon Life India Asset Management Limited was recognized.

(4) Breakdown of asset groups that recognized impairment losses:

The Company and certain consolidated subsidiaries observed a marked decrease in profitability or fair value in some of the fixed asset groups. The book value of fixed assets was reduced to the recoverable amount and impairment losses were recognized as extraordinary losses for the fiscal years ended March 31, 2022, 2021 and 2020.

Impairment loss on goodwill has been recorded in connection with deteriorating profitability at MLC Limited, the Company's consolidated subsidiary, mainly due to an increase in payments for income-protection insurance. The value in use is determined as the discounted future cash flows using a discount rate of 6.5% for the fiscal year ended March 31, 2020.

For the year ended March 31, 2022

Purpose of use	Millions of Yen			
	Land	Leasehold interests in land	Buildings and others	Total
Leased property	¥10,303	¥1	¥4,172	¥14,476
Idle property	3,135	—	4,331	7,466
Total	¥13,438	¥1	¥8,503	¥21,943

For the year ended March 31, 2021

25. Revenues from Reinsurance and Reinsurance Premiums

For the fiscal year ended March 31, 2022, revenues from reinsurance of TAIJU LIFE INSURANCE COMPANY LIMITED, the Company's consolidated subsidiary, include revenues from reinsurance of ¥30,184 million (U.S. \$246 million) related to modified coinsurance agreements for foreign currency-denominated single premium endowment insurance (U.S. dollar and Australian dollar) and foreign currency-denominated single premium whole life insurance (U.S. dollar and Australian dollar). These revenues from reinsurance include adjustment to policy reserves for ceded reinsurance (excluding the equivalent amount of policy reserve increases associated with market value adjustments) of ¥16,043 million (U.S. \$131 million) and the equivalent amount of policy reserve reversals associated with market value adjustments of ¥31,740 million (U.S. \$259 million).

Through this reinsurance, ordinary profit and surplus before income taxes decreased by ¥31,070 million (U.S. \$253 million) each.

For the fiscal year ended March 31, 2021, reinsurance premiums of TAIJU LIFE INSURANCE COMPANY LIMITED, the Company's consolidated subsidiary, include ¥49,972 million related to modified coinsurance agreements for foreign currency-denominated single premium endowment insurance (U.S. dollar and Australian dollar) and foreign currency-denominated single premium whole life insurance (U.S. dollar and Australian dollar). These premiums

include adjustment to policy reserves for ceded reinsurance (excluding the equivalent amount of policy reserve reversals associated with market value adjustments) of ¥11,398 million and the equivalent amount of policy reserve reversals associated with market value adjustments of ¥49,658 million.

Through this reinsurance, ordinary profit and surplus before income taxes decreased by ¥42,047 million each.

For the fiscal year ended March 31, 2020, revenues from reinsurance of TAIJU LIFE INSURANCE COMPANY LIMITED, the Company's consolidated subsidiary, include revenues from reinsurance of ¥119,832 million, related to the modified coinsurance agreement for foreign currency-denominated single premium endowment insurance (U.S. dollar), foreign currency-denominated single premium endowment insurance (Australian dollar),- foreign currency-denominated single premium whole life insurance (U.S. dollar), and foreign currency-denominated single premium whole life insurance (Australian dollar). The breakdown of these premiums is as follows:

For the year ended March 31, 2020	Millions of Yen
	2020
a. Adjustment to policy reserves for ceded reinsurance (excluding b.):	¥40,340
b. Additional policy reserves associated with market value adjustments:	¥59,315
c. Others:	¥20,176

With the implementation of this reinsurance, ordinary profit and surplus before income taxes increased by ¥56,876 million each.

26. Deferred Tax Assets and Liabilities

(1) Deferred tax assets/liabilities consisted of the following:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Deferred tax assets	¥2,203,044	¥1,955,435	¥1,861,242	\$18,000
Valuation allowance for deferred tax assets	(117,816)	(107,416)	(126,991)	(962)
Subtotal	2,085,228	1,848,019	1,734,251	17,037
Deferred tax liabilities	(2,597,642)	(2,796,840)	(1,867,359)	(21,224)
Net deferred tax liabilities	¥ (512,413)	¥ (948,821)	¥ (133,108)	\$ (4,186)

The main reason for the change in the valuation allowance that reduced the deferred tax assets was a decrease in the valuation allowance in line with a rise in the market value of stocks and an increase in the valuation allowance in line with a decline in the market value of stocks for the fiscal years ended March 31, 2021 and 2020, respectively.

The major components resulting in deferred tax assets/liabilities were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Deferred tax assets:				
Policy reserves and other reserves	¥1,276,573	¥1,134,764	¥1,002,030	\$10,430
Reserve for price fluctuations in investments in securities	470,045	449,440	427,363	3,840
Deferred losses on derivatives under hedge accounting	154,723	90,369	71,573	1,264
Net defined benefit liability	121,348	120,652	125,607	991
Deferred tax liabilities:				
Net unrealized gains on available-for-sale securities	2,388,245	2,615,062	1,660,549	19,513

(2) The statutory tax rate was 27.9%, 27.9%, and 27.9% for the fiscal years ended March 31, 2022, 2021 and 2020, respectively. The main factors for the difference between the statutory tax rates and the effective income tax rates were as follows:

	2022	2021	2020
Reserve for dividends to policyholders (mutual company)	(12.8)%	(20.7)%	(26.2)%
Impairment loss	—	—	5.8%

27. Other Comprehensive Income (Loss)

The components of other comprehensive income (loss) for the fiscal years ended March 31, 2022, 2021 and 2020, were as follows:

(1) Reclassification adjustments to profit or loss relating to other comprehensive income (loss)

For the year ended March 31, 2022

	Millions of Yen		Millions of U.S. Dollars	
Net unrealized gains on available-for-sale securities:				
Losses arising during the year	¥(437,561)			\$(3,575)
Reclassification adjustments to profit or loss	(462,503)	¥ (900,064)	(3,778)	\$(7,354)
Deferred losses on derivatives under hedge accounting:				
Losses arising during the year	(326,255)			(2,665)
Reclassification adjustments to profit or loss	30,237	(296,018)	247	(2,418)
Foreign currency translation adjustments:				
Gains arising during the year	35,120			286
Reclassification adjustments to profit or loss	—	35,120	—	286
Remeasurement of defined benefit plans:				
Gains arising during the year	2,224			18
Reclassification adjustments to profit or loss	3,364	5,588	27	45
Share of other comprehensive income of associates accounted for under the equity method:				
Gains arising during the year	12,500			102
Reclassification adjustments to profit or loss	590	13,090	4	106
Amount before income tax effect		(1,142,282)		(9,333)
Income tax effect		326,917		2,671
Total other comprehensive loss		¥ (815,365)		\$(6,662)

For the year ended March 31, 2021

	Millions of Yen		Millions of U.S. Dollars	
Net unrealized gains on available-for-sale securities:				
Gains arising during the year	¥4,000,861			
Reclassification adjustments to profit or loss	(455,814)	¥3,545,047		
Deferred losses on derivatives under hedge accounting:				
Losses arising during the year	(148,780)			
Reclassification adjustments to profit or loss	19,070	(129,709)		
Foreign currency translation adjustments:				
Gains arising during the year	8,163			
Reclassification adjustments to profit or loss	—	8,163		
Remeasurement of defined benefit plans:				
Gains arising during the year	6,698			
Reclassification adjustments to profit or loss	5,175	11,873		
Share of other comprehensive income of associates accounted for under the equity method:				
Gains arising during the year	317			
Reclassification adjustments to profit or loss	36	354		
Amount before income tax effect				3,435,729
Income tax effect				(933,898)
Total other comprehensive income				¥2,501,831

For the year ended March 31, 2020

	Millions of Yen		Millions of U.S. Dollars	
Net unrealized losses on available-for-sale securities:				
Losses arising during the year	¥(958,188)			
Reclassification adjustments to profit or loss	(57,273)	¥(1,015,461)		
Deferred losses on derivatives under hedge accounting:				
Losses arising during the year	(60,716)			
Reclassification adjustments to profit or loss	9,009	(51,707)		
Foreign currency translation adjustments:				
Losses arising during the year	(21,689)			
Reclassification adjustments to profit or loss	368	(21,320)		
Remeasurement of defined benefit plans:				
Losses arising during the year	(16,282)			
Reclassification adjustments to profit or loss	14,141	(2,140)		
Share of other comprehensive loss of associates accounted for under the equity method:				
Losses arising during the year	(3,561)			
Reclassification adjustments to profit or loss	(976)	(4,538)		
Amount before income tax effect				(1,095,168)
Income tax effect				281,900
Total other comprehensive loss				¥ (813,268)

(2) Income tax effect relating to other comprehensive income (loss)

For the year ended March 31, 2022

	Millions of Yen			Millions of U.S. Dollars		
	Before income tax effect	Income tax effect	After income tax effect	Before income tax effect	Income tax effect	After income tax effect
Net unrealized losses on available-for-sale securities	¥(900,064)	¥244,928	¥(655,136)	\$(7,354)	\$2,001	\$(5,352)
Deferred losses on derivatives under hedge accounting	(296,018)	83,547	(212,470)	(2,418)	682	(1,736)
Foreign currency translation adjustments	35,120	—	35,120	286	—	286

28. Modified Coinsurance Agreement

TAIJU LIFE INSURANCE COMPANY LIMITED, the Company's consolidated subsidiary, has concluded a modified coinsurance agreement covering foreign currency-denominated single premium endowment insurance (U.S. dollar/Australian dollar) and foreign currency-denominated single premium endowment insurance (U.S. dollar/Australian dollar).

Through this modified co-reinsurance agreement, insurance risk has been transferred, and items including additional policy reserves or reversals associated with market value adjustments upon interest rate fluctuations are recorded as revenues from reinsurance. However, in cases where revenues from reinsurance related to this modified co-reinsurance agreement is negative, the items are recorded as reinsurance premiums.

The outstanding balance of reinsurance accounts payables related to this modified coinsurance agreement stood at ¥15,572 million (U.S. \$127 million) as of March 31, 2022. The outstanding balance of reinsurance receivables related to this modified coinsurance agreement stood at ¥15,242 million and ¥56,991 million as of March 31, 2021 and 2020, respectively. The outstanding balance of the policy reserve component associated with the modified coinsurance agreement stood at ¥843,174 million (U.S. \$6,889 million), ¥779,013 million, and ¥727,932 million as of March 31, 2022, 2021 and 2020, respectively.

29. Share Acquisition Rights

As of March 31, 2022

Classification	Breakdown of share acquisition rights	Millions of Yen	Millions of U.S. Dollars
Nippon Life India Asset Management Limited	Share acquisition rights provided as stock options	¥1,671	\$13

As of March 31, 2021

Classification	Breakdown of share acquisition rights	Millions of Yen
Nippon Life India Asset Management Limited	Share acquisition rights provided as stock options	¥1,349

As of March 31, 2020

Classification	Breakdown of share acquisition rights	Millions of Yen
Nippon Life India Asset Management Limited	Share acquisition rights provided as stock options	¥926

30. Others

The following items are disclosed in the nonconsolidated financial statements and not required to be disclosed in the consolidated financial statements by the Japanese Insurance Business Act.

- Net Assets Provided for in the Ordinance for Enforcement of the Insurance Business Act
- Policy Reserves for Reinsurance Contracts Provided in Accordance with Article 71, Paragraph 1 of the Ordinance for Enforcement of the Insurance Business Act
- Investment Income and Expenses
- Provision for Policy Reserves for Ceded Reinsurance

31. Subsequent Events

(1) The Company assumed the following yen-denominated subordinated debt on May 10, 2022:

Principal amount	¥130 billion (U.S. \$1,062 million)
Interest rate	Fixed rate of 1.03% per annum until May 10, 2032 Fixed rate with step-up from May 11, 2032 (reset every five years)
Repayment date	The third bank business day preceding May 10, 2052 (The loan is callable on the third bank business day preceding May 10, 2032, and the third bank business day preceding each fifth anniversary date thereafter, until the loan is fully redeemed at the discretion of the Company, subject to prior approval by the regulatory authorities.)
Use of funds	General working capital

10. Nonconsolidated Proposed Appropriations of Surplus

Nippon Life Insurance Company

For the years ended March 31	Thousands of Yen			Thousands of U.S. Dollars (Note 1)
	2022	2021	2020	2022
Unappropriated surplus	¥357,789,830	¥329,199,756	¥184,426,821	\$2,923,358
Reversal from voluntary surplus reserves:	73,226,448	2,452,475	14,983,278	598,304
Reversal of contingency funds	71,917,000	—	—	587,605
Reversal of reserve for reduction entry of real estate	1,309,448	1,390,319	1,254,517	10,698
Reversal of reserve for reduction entry of real estate to be purchased	—	1,062,156	13,728,761	—
Total	¥431,016,279	¥331,652,232	¥199,410,100	\$3,521,662
Appropriations:	¥431,016,279	¥331,652,232	¥199,410,100	\$3,521,662
Reserve for dividends to policyholders	199,868,044	276,006,182	185,145,971	1,633,042
Net surplus	231,148,234	55,646,050	14,264,128	1,888,620
Legal reserve for deficiencies	1,294,000	995,000	599,000	10,572
Reserve for redemption of foundation funds	—	50,000,000	—	—
Interest on foundation funds	265,000	277,000	277,000	2,165
Voluntary surplus reserves:	229,589,234	4,374,050	13,388,128	1,875,882
Reserve for social public welfare assistance	3,000,000	3,000,000	3,000,000	24,511
Reserve for financial stability	221,917,000	—	—	1,813,195
Reserve for reduction entry of real estate	2,718,299	1,374,050	9,380,761	22,210
Reserve for reduction entry of real estate to be purchased	1,953,934	—	1,007,367	15,964
Surplus carried forward	—	—	—	—

Of the surplus available for disposition, a minimum ratio for the reserve for dividends to policyholders needs to be established in the Articles of Incorporation.

Nippon Life applies mutatis mutandis Article 30-6 of the Ordinance for Enforcement of the Insurance Business Act in the Articles of Incorporation and has established the ratio (20/100) stipulated in said Article 30-6 as the minimum ratio in the Articles of Incorporation. The ratio of provision of the appropriation of surplus in the fiscal year ended March 31, 2022 was 56.58%.

Amounts of less than one thousand yen and one thousand U.S. dollars have been eliminated in the table above.

11. Notes to the Nonconsolidated Financial Statements

Nippon Life Insurance Company

1. Basis of Presenting the Nonconsolidated Financial Statements

(1) Accounting principles and presentation

The accompanying nonconsolidated financial statements have been prepared from the accounts and records maintained by NIPPON LIFE INSURANCE COMPANY ("Nippon Life" or the "Company") in accordance with the provisions set forth in the Insurance Business Act and the related rules and regulations applicable to the mutual life insurance industry, and in accordance with accounting principles generally accepted in Japan, which are different in certain respects from the application and disclosure requirements of International Financial Reporting Standards. Certain accounting and reporting practices required to be followed by the industry are regulated by the Financial Services Agency and the related ministry by means of ministerial ordinances and guidance. The accompanying nonconsolidated financial statements of Nippon Life are in compliance with such requirements. However, while the business report and supporting schedules have been prepared by the management of Nippon Life as a part of the disclosures required by the Company's Act and the Insurance Business Act, they are not provided herein. The information provided in the nonconsolidated financial statements including the Notes to the Nonconsolidated Financial Statements is limited to information required by the Insurance Business Act and the related rules and regulations applicable to the mutual life insurance industry and disclosed as additional information. Amounts of less than one million yen and one million U.S. dollars have been eliminated for nonconsolidated financial statement presentation. As a result, totals may not add up exactly. As consolidated statements of cash flows and certain disclosures are presented in the consolidated financial statements of the Company, nonconsolidated statements of cash flows and certain disclosures are not presented herein in accordance with accounting principles generally accepted in Japan.

(2) U.S. dollar amounts

Nippon Life prepares its nonconsolidated financial statements in Japanese yen. The U.S. dollar amounts included in the nonconsolidated financial statements and notes thereto represent the arithmetical results of translating Japanese yen to U.S. dollars on the basis of ¥122.39=U.S. \$1, the effective rate of exchange at the balance sheet date of March 31, 2022. The inclusion of such U.S. dollar amounts is solely for convenience and is not intended to imply that Japanese yen amounts have been or could be readily converted, realized or settled in U.S. dollars at ¥122.39=U.S. \$1 or at any other rate.

2. Summary of Significant Accounting Policies

(1) Securities and hedging activities

The "Accounting Standard for Fair Value Measurement" (ASBJ* Statement No. 30, July 4, 2019; "Fair Value Measurement Accounting Standard") has been applied from the fiscal year ended March 31, 2022, and a partial revision of the fair value calculation method of financial instruments has been implemented. The application of the Fair Value Measurement Accounting Standard is in accordance with the transitional provisions set forth under Paragraph 19 of the Fair Value Measurement Accounting Standard and

Paragraph 44-2 of the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, July 4, 2019). The new accounting policy establishing the Fair Value Measurement Accounting Standard has been applied prospectively from the fiscal year ended March 31, 2022. Consequently, while stocks (including foreign stocks) among other securities had been conventionally valued using the fair value based on the one-month average of the market price before the end of the previous fiscal year, from the fiscal year ended March 31, 2022, they are valued using the fair value based on the market price, etc., at the end of the fiscal year. Furthermore, matters regarding the breakdown at each level of the fair value of financial instruments are documented in Note 4 Financial Instruments in the Notes to the Nonconsolidated Financial Statements.

* ASBJ: Accounting Standards Board of Japan

- 1) Securities (including items such as deposits and monetary receivables purchased which are treated as securities based on the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10) and securities within assets held in trust) are valued as follows:
 - i) Trading securities are stated at fair value on the balance sheet date. The moving average method is used for calculating the cost basis.
 - ii) Held-to-maturity debt securities are valued using the moving average method, net of accumulated amortization (straight-line).
 - iii) Policy-reserve-matching bonds are valued using the moving average method, net of accumulated amortization (straight-line), in accordance with the Industry Audit Committee Report No. 21, "Temporary Treatment of Accounting and Auditing Concerning Policy-Reserve-Matching Bonds in the Insurance Industry," issued by the Japanese Institute of Certified Public Accountants (JICPA).
 - iv) Investments in subsidiaries and affiliates (stocks issued by subsidiaries prescribed in Article 2, Paragraph 12 of the Insurance Business Act or subsidiaries prescribed in Article 13-5-2, Paragraph 3 of the Order for Enforcement of the Insurance Business Act and stocks issued by affiliates prescribed in Article 13-5-2, Paragraph 4 of the Order for Enforcement of the Insurance Business Act) are stated at cost using the moving average method.
 - v) Available-for-sale securities
Evaluation methods for the fiscal year ended March 31, 2022, are as follows:
 - a. Fair value based on the market value, etc., at the end of the fiscal year (the cost basis is calculated using the moving average method, and public corporate bonds (including foreign bonds) for which the difference between the purchase price and face value is due to an interest rate adjustment are valued using the moving average method, net of accumulated amortization (straight-line method)).
 - b. Stocks and other securities without readily determinable market values are stated at cost using the moving average method.
Evaluation methods for the fiscal years ended March 31, 2021 and 2020, are as follows:

- a. Regarding securities with a fair value, stocks (including foreign stocks) are valued using the average fair value during the period of one month before the balance sheet date (the cost basis is calculated using the moving average method). Other securities with a fair value are valued using the fair value on the balance sheet date (the cost basis is calculated using the moving average method).
- b. Regarding securities of which the fair value is extremely difficult to determine, bonds (including foreign bonds) for which the difference between the purchase price and face value is due to an interest rate adjustment are stated at cost using the moving average method, net of accumulated amortization (straight-line). Other securities without readily determinable fair values are stated at cost using the moving average method.

2) Unrealized gains/losses, net of applicable taxes for available-for-sale securities, are recorded as a separate component of net assets.

Hedge accounting is applied based on the following methods:

- 1) The Company mainly applies the following hedge accounting methods: The exceptional accounting treatment (“*Tokurei-shori*”) for interest rate swaps is applied to hedge the cash flow volatility of certain loans denominated in Japanese yen and certain loans denominated in foreign currencies; deferred hedge accounting for interest rate swaps is applied to hedge the interest rate fluctuation exposures on certain insurance policies, based on the Industry Audit Committee Report No. 26, “Accounting and Auditing Treatments related to Application of Accounting for Financial Instruments in the Insurance Industry,” issued by the JICPA; deferred hedge accounting and designated hedge accounting (“*Furiate-shori*”) for currency swaps are applied to hedge the cash flow volatility caused by foreign exchange rate fluctuations on certain foreign currency-denominated bonds, certain foreign currency-denominated loans, and foreign currency-denominated subordinated corporate bonds issued by the Company; fair value hedge accounting for foreign exchange forward contracts is applied to hedge the price fluctuation exposures related to foreign exchange rate fluctuations on certain foreign currency-denominated bonds and certain other foreign currency-denominated instruments; and fair value hedge accounting for equity forward contracts is applied to hedge the price fluctuation exposures on certain domestic stocks.

2) Hedging instruments and hedged items

(Hedging instruments)	(Hedged items)
Interest rate swaps	Loans, foreign currency-denominated loans, and insurance policies
Currency swaps	Foreign currency-denominated bonds, foreign currency-denominated loans, and foreign currency-denominated subordinated corporate bonds
Foreign exchange forward contracts	Foreign currency-denominated bonds and other foreign currency-denominated instruments
Equity forward contracts	Domestic stocks

Accompanying the replacement of interest rate benchmarks, exceptional accounting treatment for certain interest rate swaps has been applied for the fiscal year ended March 31, 2022, based on the “Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR” (ASBJ PITF* No. 40, March 17, 2022).

* PITF: Practical Issues Task Force

- 3) Effectiveness of hedging activities is mainly evaluated by performing a ratio analysis of fair value movement comparisons based on the hedging instruments and hedged items taken, which is in accordance with the Company’s internal risk management policies.
- 4) Derivative financial instruments and derivative financial instruments within assets held in trust are stated at fair value.

(2) Policy-reserve-matching bonds

Securities that are held for the purpose of matching the duration of outstanding liabilities within the subgroups classified by insurance type, payment method, maturity period, currency, and investment policy are classified as policy-reserve-matching bonds in accordance with the Industry Audit Committee Report No. 21, “Temporary Treatment of Accounting and Auditing Concerning Policy-Reserve-Matching Bonds in the Insurance Industry,” issued by the JICPA.

The Company has specified and subcategorized the following insurance policies:

- 1) All insurance policies for products other than single premium products and group annuities
- 2) All insurance policies for single premium products (denominated in yen) other than variable assumed rate-type insurance
- 3) All insurance policies for group annuities other than guaranteed fixed-term rate products
- 4) All single premium products (denominated in U.S. dollars) other than the foregoing
- 5) All single premium products (denominated in Australian dollars) other than the foregoing
- 6) All single premium products (denominated in euros) other than the foregoing

(3) Foreign currency translation

Assets and liabilities denominated in foreign currencies are translated into Japanese yen using the “Accounting Standards for Foreign Currency Transactions” (Business Accounting Council).

Foreign currency-denominated available-for-sale securities of the Company, with exchange rates that have significantly fluctuated and where recovery is not expected, are converted to Japanese yen using either the rate on the balance sheet date or the average one-month rate prior to the balance sheet date, whichever indicates a weaker yen. This translation difference is recorded as a loss on valuation of securities.

(4) Tangible fixed assets

- 1) Tangible fixed assets are depreciated based on the following methods:
 - a. Tangible fixed assets (except for lease assets)
 - (i) Buildings
Straight-line method.
 - (ii) Assets other than the above
Declining-balance method.

Certain other tangible fixed assets with an acquisition price of less than ¥200,000 are depreciated over a 3 year period on a straight-line basis.
 - b. Lease assets
 - (i) Lease assets related to financial leases that transfer ownership of the leased property to the lessee
The same depreciation method applied to fixed assets owned by the Company.
 - (ii) Lease assets related to financial leases that do not transfer ownership of the leased property to the lessee
Straight-line method based on lease period.

The estimated useful lives of major items are as follows:

Buildings	2 to 60 years
Other tangible fixed assets	2 to 20 years

Tangible fixed assets are stated at cost, net of accumulated depreciation and impairment losses.

- 2) Revaluation of land used in the operations is performed based on the Act on Revaluation of Land. The tax effect of the amount related to the valuation difference between book value and the revalued amount for land revaluation is recognized as a deferred tax liability within the liability section. The valuation differences, excluding tax, are recognized as land revaluation losses within the net assets section.

Revaluation date	March 31, 2002
Revaluation methodology	The amount is calculated using the listed value of the land and road rate as prescribed by Article 2, Items 1 and 4, respectively, of the Order for Enforcement of the Act on Revaluation of Land.

(5) Software

Capitalized software for internal use, which is included within intangible fixed assets, is amortized using the straight-line method over its estimated useful lives as internally determined (5 years).

(6) Allowance for doubtful accounts

- 1) An allowance for doubtful accounts is recognized in accordance with the

Company's internal Asset Valuation Regulation and Write-Off/Provision Rule.

- i) An allowance for loans to borrowers who are legally or substantially bankrupt, such as being bankrupt or being in the process of civil rehabilitation proceedings, is recognized based on the amount of credit remaining after directly deducting amounts expected to be collected through the disposal of collateral or the execution of guarantees from the balance of loans (as mentioned at 3) below).
 - ii) An allowance for loans to borrowers who are not currently legally bankrupt, but have a significant possibility of bankruptcy is recognized at the amounts deemed necessary considering an assessment of the borrowers' overall solvency and the amounts remaining after deduction of amounts expected to be collected through the disposal of collateral or the execution of guarantees.
 - iii) An allowance for loans to borrowers other than the above is provided based on the borrowers' balance multiplied by the historical average (of a certain period) percentage of bad debt.
An allowance for loans to borrowers whose future business results are expected to worsen in case of a sudden event that has a large impact on economic conditions is recognized based on the estimated amount of impact on credit risk that has not yet been reflected in the borrowers' financial information and other disclosures for the fiscal years ended March 31, 2022 and 2021.
- 2) All credits are assessed by responsible sections in accordance with the Company's internal Asset Valuation Regulation. The assessments are verified by the independent Asset Auditing Department. The results of the assessments are reflected in the calculation of the allowance for doubtful accounts.
 - 3) The estimated uncollectible amount calculated by subtracting the amount of collateral value or the amount collectible by the execution of guarantees from the balance of loans is directly deducted from the balance of loans (including loans with credits secured and/or guaranteed) made to legally or substantially bankrupt borrowers. The estimated uncollectible amounts were ¥586 million (U.S. \$4 million) (including ¥57 million (U.S. \$0 million) of credits secured and/or guaranteed), ¥2,514 million (including ¥64 million of credits secured and/or guaranteed), ¥2,106 million (including ¥70 million of credits secured and/or guaranteed) as of March 31, 2022, 2021 and 2020, respectively.

(7) Allowance for investment loss

For the fiscal year ended March 31, 2022

To provide for losses on investments, an allowance for investment loss is recognized for the stocks and other securities without readily determinable market values, and measured at the amount of the estimated losses that could arise in the future in accordance with the Company's internal Asset Valuation Regulation and Write-off/Provision Rule.

For the fiscal years ended March 31, 2021 and 2020

To provide for losses on investments, an allowance for investment loss is recognized for the securities of which the fair value is extremely difficult to

determine and which are expected to have loss in future, and measured at the amount of the estimated losses that could arise in the future in accordance with the Company's internal Asset Valuation Regulation and Write-off/Provision Rule.

(8) Accrued bonuses for directors and audit & supervisory board members

Accrued bonuses for directors and audit & supervisory board members are recognized based on amounts estimated to be paid.

(9) Accrued retirement benefits

- 1) Accrued retirement benefits are recognized based on the estimated amount of projected benefit obligations in excess of the fair value of pension plan assets for future severance payments to employee on the balance sheet date as of March 31, 2022, 2021 and 2020.
- 2) The accounting methods used for retirement benefits as of March 31, 2022, 2021 and 2020, are as follows:
 - i) Attribution method for estimated retirement benefits: Benefit formula basis
 - ii) Period of amortizing actuarial gains/losses: 5 years
 - iii) Period of amortizing prior service costs: 5 years

(10) Accrued retirement benefits for directors and audit & supervisory board members

Accrued retirement benefits for directors and audit & supervisory board members are recognized based on estimated payment amounts under internal rules.

A resolution was passed at the meeting of representatives held on July 2, 2020, to abolish the retirement benefit plan for directors and audit & supervisory board members. As a result of this resolution, the payment prescribed under this plan was finalized. Accordingly, the unpaid amount of ¥4,432 million in accrued retirement benefits for directors and audit & supervisory board members was reversed, and transferred to accounts payable in the fiscal year ended March 31, 2021.

(11) Reserve for program points

A reserve for program points is recognized based on the amount projected to be incurred for expenses from the use of points granted to policyholders.

(12) Reserve for price fluctuations in investments in securities

Reserve for price fluctuations in investments in securities is recognized based on Article 115 of the Insurance Business Act.

(13) Accounting for consumption taxes

Consumption taxes and local consumption taxes are accounted for by the tax exclusion method. However, consumption taxes paid on certain asset transactions, which are not deductible from consumption taxes withheld and are stipulated to be deferred under the Consumption Tax Act, are deferred as prepaid expenses and amortized over a 5 year period on a straight-line basis.

Consumption taxes other than deferred consumption taxes are expensed as incurred.

(14) Consolidated taxation system

Effective from the fiscal year ended March 31, 2020, the Company has applied the consolidated taxation system as the parent company for consolidated taxation purposes.

In accordance with the "Practical Solution on the Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System" (ASBJ PITF No. 39, March 31, 2020), the Company calculates the amounts of deferred tax assets and liabilities based on tax laws and regulations before the revision.

(15) Policy reserves

Policy reserves are reserves set forth in accordance with Article 116 of the Insurance Business Act. These reserves are accumulated in order to prepare for payments of future obligations based on insurance policies. Insurance premiums reserves are recognized based on the following methodology. In accordance with Article 69, Paragraph 5 of the Ordinance for Enforcement of the Insurance Business Act, policy reserves include those that are reserved for certain individual annuity policies and for certain whole life insurance policies.

- 1) Reserves for policies subject to the standard policy reserve are computed in accordance with the method prescribed by the Commissioner of the Financial Services Agency (Ordinance No. 48 issued by the Ministry of Finance in 1996).
- 2) Reserves for other policies are computed based on the net level premium method.

Matters concerning additional policy reserve amounts accumulated during the fiscal year ended March 31, 2022, are as follows:

Effective from the fiscal year ended March 31, 2020, the Company has provided for additional policy reserves to cover a possible deficiency in the reserve for paid-up insurance policies and similar policies among certain whole life insurance policies (including single premium policies). For such policies with premiums that have been paid and similar policies (including single premium policies), the Company had previously decided to successively provide additional policy reserves over a three-year period, but in the fiscal year ended March 31, 2022, the Company provided for these additional policy reserves in a lump sum. Effective from the fiscal year ended March 31, 2022, the Company has expanded eligibility for whole life insurance policies (including single premium policies) for which additional policy reserves are provided, and has decided to successively provide additional policy reserves over a five-year period for such policies with premiums that have been paid (including single premium policies). As a result, the policy reserves increased by ¥586,606 million (U.S. \$4,792 million), while ordinary profit and surplus before income taxes decreased by ¥586,606 million (U.S. \$4,792 million), compared with amounts that would have been recorded if the additional policy reserves had not been provided in the fiscal year ended March 31, 2022.

Matters concerning additional policy reserve amounts accumulated during the fiscal year ended March 31, 2021, are as follows:

Effective from the fiscal year ended March 31, 2019, the Company has provided for additional policy reserves over a five-year period to cover a possible deficiency in the reserve for certain individual annuity policyholders. In the fiscal year ended March 31, 2021, the Company provided for these additional policy reserves in a lump sum. Moreover, effective from the fiscal year ended March 31, 2020, the Company has provided for additional policy reserves to cover a possible deficiency in the reserve for paid-up insurance policies and similar policies among certain whole life insurance policies (including single premium policies). For such policies with premiums that have been paid as of March 31, 2021, and similar policies (including single premium policies), the Company had previously decided to successively provide additional policy reserves over a six-year period. Effective from the fiscal year ended March 31, 2021, the Company has decided to successively provide these additional policy reserves over the next three years. As a result, the policy reserves increased by ¥369,175 million, while ordinary profit and surplus before income taxes decreased by ¥369,175 million, compared with amounts that would have been recorded had the additional policy reserves not been provided in the fiscal year ended March 31, 2021.

Matters concerning additional policy reserve amounts accumulated during the fiscal year ended March 31, 2020, are as follows:

Effective from the fiscal year ended March 31, 2020, the Company has provided additional policy reserves to cover a possible deficiency in the reserve for paid-up insurance policies and similar policies among certain whole life insurance policies (including single premium policies). For such policies with premiums that have been paid as of March 31, 2020, and similar policies (including single premium policies), the Company will successively provide additional policy reserves over a six-year period. As a result, the policy reserves increased by ¥186,113 million, while ordinary profit and surplus before income taxes decreased by ¥186,113 million, compared with amounts that would have been recorded if the additional policy reserves not been provided in the fiscal year ended March 31, 2020.

(16) Revenues from insurance and reinsurance and benefits and other payments

The Company has adopted the following significant accounting principles and procedures in cases where the provisions of the relevant accounting standards identified in accordance with the "Revised Accounting Standard for Accounting Policy Disclosures, Accounting Changes and Error Corrections" (revised ASBJ Statement No. 24) were not clear.

1) Revenues from insurance and reinsurance (excluding revenues from reinsurance) are recorded as the amount of payments that have been received, in principle.

Unearned insurance premiums are recognized as policy reserves.

2) Benefits and other payments (excluding reinsurance premiums) are recorded as the amount of payments made with respect to policies for

which an event that is a reason for payment of claims or benefits has occurred based on the policy clauses and the amount determined based on those policy clauses was paid.

(17) Policy acquisition costs

Policy acquisition costs are recorded to expense as incurred.

(18) Income taxes

The provision for income taxes is computed based on the pretax income included in the nonconsolidated statements of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying the enacted statutory tax rates to the temporary differences.

3. Significant Accounting Estimates

The Company has applied the "Accounting Standard for Disclosure of Accounting Estimates" (ASBJ Statement No. 31) from the fiscal year ended March 31, 2021.

Significant accounting estimates identified based on this Accounting Standard comprise valuations of investments in subsidiaries and affiliates.

The value of investments in subsidiaries and affiliates recorded in the balance sheet as of March 31, 2022, is ¥1,466,399 million (U.S. \$11,981 million), and ¥1,308,172 million as of March 31, 2021. If the actual value of the investments in subsidiaries and affiliates without market prices decreases sharply due to a deterioration in their financial condition, the Company would need to record a considerable impairment loss. For the valuation of investments in subsidiaries and affiliates that are life insurance companies, the Company uses the corporate valuation amounts for such subsidiaries and other entities as the actual value. The calculations of the corporate valuation amounts include assumptions about factors pertaining to the subsidiaries and other entities, such as their future business performance and how long they will be impacted by the COVID-19 pandemic. Accordingly, if those assumptions change, the value of the investments in subsidiaries and affiliates could be significantly impacted. For details, please see Note 24 Impairment Losses in the Notes to the Consolidated Financial Statements for the fiscal years ended March 31, 2022 and 2021.

4. Financial Instruments

Regarding the investment of general accounts (except separate accounts as provided in Article 118, Paragraph 1 of the Insurance Business Act), in light of the characteristics of life insurance policies, the Company has built a portfolio geared towards mid- to long-term investment and formulated an investment plan considering the outlook of the investment environment.

Based on this, in order to reliably pay benefits and other payments in the future, the Company has positioned yen-denominated assets that can be expected to provide stable income, such as bonds and loans, as the Company's core assets, and from the viewpoint of improving profit in the mid- to

long-term, the Company invests in domestic stocks and foreign securities. Also, the Company mainly uses derivative transactions for controlling asset or liability risks. Specifically, the Company uses interest rate swaps and interest rate swaptions for interest rate-related investments; foreign exchange forward contracts, currency options, and currency swaps for currency-related investments; and equity forward contracts, equity index futures, and equity options for equity-related investments. The Company applies hedge accounting to certain derivative transactions above.

Securities are mainly exposed to market risk and credit risk, loans are exposed to credit risk, and derivative transactions are exposed to market risk and credit risk. Market risk refers to the risk of incurring losses when the fair value of investment assets declines due to factors such as fluctuations in interest rates, exchange rates, or stock prices. Credit risk refers to the risk of incurring losses when the value of assets, primarily loans and corporate bonds, declines due to deterioration of the financial condition of the party to whom credit has been extended. It includes country risk. These risks are managed according to rules and regulations regarding investment risks.

To manage market risk, the Company has implemented investment limits based on the nature of the assets in order to avoid excessive losses from financing and investment transactions. In addition, the Company

monitors and regularly reports on the status of compliance to the Risk Management Committee, the advisory body of the Management Committee, and has developed a system to manage risk within acceptable levels in the event of a breach of the internal rules. Also, to manage market risk in the Company's portfolio, the Company uses a statistical analysis method to rationally calculate the market value-at-risk of the portfolio as a whole and conducts appropriate asset allocation within acceptable boundaries of risk.

To manage credit risk, the Company has built a system to perform credit analysis, including strict assessment of individual counterparties by the Assessment Management Department, which is independent of the departments handling investment and finance activities. The Company also continues to build a sound portfolio through the establishment and monitoring of interest guidelines to ensure the returns the Company obtains are commensurate with the risk, a system of internal ratings for classifying the creditworthiness of borrowers, and credit ceilings to ensure that credit risk is not excessively concentrated in a particular company, group, or country.

In addition, the Company calculates credit value-at-risk as a measurement of the magnitude of credit risk across the Company's portfolio as a whole, and monitors whether the magnitude of risk stays within an appropriate range.

Matters concerning the fair value and so on of financial instruments in the fiscal year ended March 31, 2022, are as follows:

Notes are omitted for financial instruments whose book value is deemed to approximate fair value due to their short-term settlement.

(1) Balance sheet amounts and fair values for major financial instruments and their differences are as follows:

As of March 31	Millions of Yen			Millions of U.S. Dollars		
	2022			2022

(*)1 For transactions for which an allowance for doubtful accounts was recorded, the amount of the allowance is deducted.

(*)2 For securities for which impairment losses were recognized in the fiscal year ended March 31, 2022, the fair value is the balance sheet amount after the impairment losses are deducted.

(*)3 Stocks and other securities without a market price, such as unlisted equity securities are not included. Balance sheet amounts by holding purpose were ¥965,103 million (U.S. \$7,885 million) for stocks of subsidiaries and affiliates, and ¥55,970 million (U.S. \$457 million) for available-for-sale securities as of March 31, 2022.

(*)4 The transitional measures of Paragraph 27 of the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31) are applied, and the investment balances to partnerships and so on are not included. The balance sheet amount for said partnerships and so on is ¥525,600 million (U.S. \$4,294 million).

(*)5 The fair values of derivative financial instruments that are interest rate swaps under exceptional accounting treatment ("Tokurei-shori") or currency swaps under designated hedge accounting ("Furiate-shori") are included in the fair values of loans and corporate bonds because they are accounted for as an integral part of the loans and corporate bonds that are the hedged items.

(*)6 Assets and liabilities generated by derivative financial instruments are offset and presented net. Net liabilities in total are presented in parentheses.

(2) Matters regarding securities and others by holding purpose are as follows:

1) Trading securities

For the fiscal year ended March 31, 2022, valuation gains/losses included in profit and loss were losses of ¥22,874 million (U.S. \$186 million) for investments in securities related to separate accounts, which are classified as trading securities.

2) Held-to-maturity debt securities

No ending balance as of March 31, 2022.

3) Policy-reserve-matching bonds

Balance sheet amounts, fair values, and their differences by type are as follows:

As of March 31	Millions of Yen			Millions of U.S. Dollars		
	2022			2022		
Type	Balance sheet amount	Fair value	Difference	Balance sheet amount	Fair value	Difference
Fair value exceeds the balance sheet amount:

Domestic stocks	508,172	408,365	(99,807)	4,152	3,336	(815)
Foreign securities	5,746,763	5,459,997	(286,766)	46,954	44,611	(2,343)
Other securities	2,366,298	2,287,883	(78,415)	19,334	18,693	(640)
Subtotal	9,403,209	8,916,524	(486,685)	76,829	72,853	(3,976)
Total	¥28,140,965	¥36,590,405	¥8,449,439	\$229,928	\$298,965	\$69,037

* Stocks and other securities without a market price totaling ¥55,970 million (U.S. \$457 million) and investment balances to partnerships and so on totaling ¥152,919 million (U.S. \$1,249 million) are not included.

Impairment loss of ¥9,573 million (U.S. \$78 million) was recognized in the fiscal year ended March 31, 2022.

Regarding stocks (including foreign stocks), impairment losses are recognized for stocks whose fair values have declined significantly from the acquisition price based on the fair value on the fiscal year-end date.

The criteria by which the fair value of a stock is deemed to have declined significantly are as follows:

a. A security for which the ratio of the average fair value in the last month of the fiscal year to the acquisition cost is 50% or less.

b. A security that meets both of the following criteria:

1. Average fair value in the last month of the fiscal year is between 50% and 70% of its acquisition cost.

2. The historical fair value, the business conditions of the issuing company, and other aspects are subject to certain requirements.

(3) Scheduled repayment amounts for the main monetary claims and liabilities and redemption amounts for securities with maturities are as follows:

As of March 31, 2022	Millions of Yen				Millions of U.S. Dollars			
	1 year or under	Over 1 year under 5 years	Over 5 years under 10 years	Over 10 years	1 year or under	Over 1 year under 5 years	Over 5 years under 10 years	Over 10 years
Monetary receivables purchased:	¥ 10,000	¥ 2,232	¥ 39,422	¥ 98,843	\$ 81	\$ 18	\$ 322	\$ 807
Policy-reserve-matching bonds	—	2,232	36,097	89,916	—	18	294	734
Available-for-sale securities	10,000	—	3,325	8,926	81	—	27	72
Investments in securities:	994,683	7,225,839	11,334,003	31,090,445	8,127	59,039	92,605	254,027

Corporate bonds	—	—	—	1,420,305	—	—	—	11,604
Loans payable	2,603	14,947	—	720,000	21	122	—	5,882

* Loans such as policy loans that do not have a stated maturity date are not included.

Also, ¥5,695 million (U.S. \$46 million) in loans to legally or substantially bankrupt borrowers or borrowers who are not currently legally bankrupt but have a high probability of bankruptcy are not included.

(4) Matters concerning the breakdown at each level of fair value for financial instruments are as follows:

Fair values of financial instruments are classified into the following three levels according to the observability and significance of inputs used in fair value measurement.

Level 1: Fair value measured based on the quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Fair value measured based on directly or indirectly observable inputs other than Level 1 inputs

Level 3: Fair value measured based on significant unobservable inputs

In cases of using multiple inputs with significant influence in fair value measurement, the fair value is classified to the lowest priority level of fair value measurement in which each input belongs.

a. Financial instruments whose balance sheet amount is measured at fair value

	Millions of Yen				Millions of U.S. Dollars			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

* The transitional measures of Paragraph 26 of the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31) are applied, and investment trusts are not included. The balance sheet amount for these investment trusts was ¥10,404,594 million (U.S. \$85,011 million).

(5) Descriptions of the valuation techniques and inputs used in fair value measurement of the major financial instruments are as follows:

1) Securities and monetary receivables purchased that are treated as securities based on the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10)

Securities and monetary receivables purchased for which the unadjusted quoted price in an active market can be used are classified as Level 1 fair value. Listed stocks and national government bonds are primarily included here. Cases where the market is not active even though the published quoted price was used are classified as Level 2 fair value. Local government bonds and corporate bonds are primarily included here. In cases where the published quoted price was not obtainable, the fair value is measured based on the valuation amount obtained through external information vendors. Securities and monetary receivables purchased for which unobservable inputs were not used, or they did not have significant impact, are classified as Level 2 fair value, while securities and monetary receivables purchased using significant unobservable inputs are classified as Level 3 fair value. Publicly available standard prices are used for investment trusts, the transitional measures of Paragraph 26 of the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31) have been applied, and levels are not assigned.

2) Loans

a. Policy loans

Fair value is measured at the book value of policy loans as the book value is deemed to approximate fair value due to expected repayment periods, interest rate requirements, and other conditions. These loans have no repayment date based on characteristics, such as the loan amount being limited to the extent of the surrender benefit, and are classified as Level 3.

b. Industrial and consumer loans

In cases where the borrower's credit status is not significantly different after executing the loan, fair value is deemed to

approximate book value because market interest rates are reflected in future cash flows in the short term. Thus, book value is used as fair value for variable interest rate loans. Fair value of fixed interest rate loans is measured by discounting cash flows to the present value using a discount rate reflecting credit and other risks to market interest for each classification based on the type of loan, internal rating, and period. This fair value is reflected for loans subject to designated hedge accounting ("*Furiate-shori*") for currency swaps and exceptional accounting treatment ("*Tokurei-shori*") for interest rate swaps.

Fair value of loans to legally or substantially bankrupt borrowers or borrowers who are not currently legally bankrupt but have a high probability of bankruptcy is measured by deducting the estimated uncollectible amount from the book value prior to direct write-offs based on the present value of future cash flows or the amount expected to be collected based on collateral and guarantees.

All measured fair values are classified as Level 3.

3) Derivative financial instruments

Fair value for which the unadjusted quoted price in an active market can be used is classified as Level 1. Bond futures and equity index futures are primarily included here. When the published quoted price cannot be used, a valuation amount obtained from external information vendors is primarily used. When this valuation amount does not use unobservable inputs, or their impact is not significant, fair value is classified as Level 2, and when significant unobservable inputs are used, fair value is classified as Level 3.

4) Corporate bonds

Fair value of corporate bonds issued by the Company is the market price, and is classified as Level 2. This fair value is reflected for corporate bonds subject to designated hedge accounting ("*Furiate-shori*") of currency swaps.

5) Loans payable

Fair value is deemed to approximate book value because market interest rates are reflected in future cash flows in the short term, and because the Company's credit status is not significantly different after executing the loans. Thus, book value is used as fair value for variable interest rate loans, and their fair value is classified as Level 3. Fair value of fixed interest rate loans payable is measured, in principle, by

discounting future cash flows to the present value using the expected rate in similar loans payable factoring in the Company's credit risk, and is classified as Level 3. However, loans payable financed by means of public offerings employing securitization schemes are measured at the market price of the corporate bonds issued to back the loans payable, and their fair value is classified as Level 2.

(6) Information on Level 3 fair value of financial instruments whose balance sheet amount is measured at fair value is as follows:

1) Quantitative information concerning significant unobservable inputs used in fair value measurement

Notes are omitted, as unobservable inputs are not estimated by the Company.

2) Reconciliation between the beginning and ending balances of the fiscal year ended March 31, 2022, net unrealized gains (losses) recognized as gains (losses) in the fiscal year ended March 31, 2022:

	Millions of Yen			Millions of U.S. Dollars

(*1) Included in investment income and investment expenses in nonconsolidated statements of income.

(*2) Included in net unrealized gains (losses) on available-for-sale securities of valuations, conversions, and others in the nonconsolidated balance sheet.

(*3) No Level 1 or Level 2 fair value was replaced with Level 3 fair value.

(*4) No Level 3 fair value was replaced with Level 1 or Level 2 fair value.

3) Description of fair value valuation process

The Company measures fair value based on internally decided policies concerning fair value measurement, and has confirmed the validity of valuation techniques and inputs used in fair value measurement established in said policies as well as the appropriateness of fair value level classifications.

In measuring fair value, the valuation models able to most appropriately reflect the nature, characteristics, and risk of individual financial instruments are used. When using quoted prices obtained from third parties, the valuation techniques and inputs used are confirmed, and the validity of the prices is verified using appropriate techniques including comparison with fair value presented by other vendors.

4) Explanation concerning impacts on fair value when significant unobservable inputs are changed

Notes are omitted, as unobservable inputs are not estimated by the Company.

Matters concerning fair value of financial instruments in the fiscal years ended March 31, 2021 and 2020, are as follows:

(1) Balance sheet amounts and fair values of major financial instruments and their differences are as follows:

As of March 31	Millions of Yen					
	2021			2020

Loans payable	538,317	539,218	901	408,248	404,001	(4,247)

(*1) For transactions for which an allowance for doubtful accounts was recorded, the amount of the allowance is deducted.

(*2) For securities for which impairment losses were recognized in the fiscal years ended March 31, 2021 and 2020, the fair value is the balance sheet amount after the impairment losses are deducted.

(*3) The fair values of derivative financial instruments that are interest rate swaps under exceptional accounting treatment ("Tokurei-shori") or currency swaps under designated hedge accounting ("Furiate-shori") are included in the fair values of loans and corporate bonds because they are accounted for as an integral part of the loans and corporate bonds that are the hedged items.

(*4) Assets and liabilities generated by derivative financial instruments are offset and presented net. Net liabilities in total are presented in parentheses.

(2) Fair value measurement methods for major financial instruments are as follows:

1) Securities, deposits, and monetary receivables purchased that are treated as securities based on the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10)

i) Items with a market price

Fair value is measured based on the closing market price on the balance sheet date. However, the fair values of available-for-sale domestic and foreign equity securities are based on the average market price over a one-month period prior to the balance sheet date.

ii) Items without a market price

Fair value is measured mainly by discounting future cash flows to present value or valuations obtained from external information vendors.

2) Loans

i) Policy loans

Fair value is measured at the book value of policy loans as the book value is deemed to approximate fair value due to expected repayment periods, interest rate requirements, and other conditions. These loans have no repayment date based on characteristics, such as the loan amount being limited to the extent of the surrender benefit.

ii) Industrial and consumer loans

Book value of variable interest rate loans is deemed to approximate fair value because market interest rates are reflected in future cash flows over the short term. Thus, book value is used as fair value for variable interest rate loans. Fair value of fixed interest rate loans is measured mainly by discounting future cash flows to present value.

Fair value of loans to legally or substantially bankrupt borrowers or borrowers who are not currently legally bankrupt but have a high probability of bankruptcy is measured by deducting the estimated uncollectible amount from the book value prior to direct write-offs.

3) Derivative financial instruments

i) Fair value of futures and other market transactions is measured by the liquidation value or closing market price on the balance sheet date.

ii) Fair value of equity options is measured mainly based on liquidation value or closing market price on the balance sheet date or valuations obtained from external information vendors.

iii) Fair value of interest rate swaps, interest rate swaptions, foreign exchange contracts, currency options, currency swaps, and forward contracts is measured mainly based on valuations obtained from external parties.

4) Assets held in trust

Fair value is based on a reasonably calculated price by the trustee of the assets held in trust, in accordance with the calculation methods set forth in 1) and 3) above.

5) Corporate bonds

Corporate bonds are stated at fair value on the balance sheet date.

6) Payables under repurchase agreements

The book value is used as fair value due to their short-term settlement.

7) Loans payable

Book value of variable interest rate loans payable is deemed to approximate fair value because market interest rates are reflected in future cash flows over the short term. Thus, book value is used as fair value for variable interest rate loans payable. Fair value of fixed interest rate loans payable is measured, in principle, by discounting future cash flows to present value; however, loans payable financed by means of public offerings employing securitization schemes are measured at the fair value of the corporate bonds issued to back the loans payable.

(3) Unlisted equity securities, investments in partnerships whereby partnership assets consist of unlisted equity securities, and other items of which the fair value is extremely difficult to determine are not included in investments in securities in table (1).

Balance sheet amounts by holding purpose were ¥1,179,556 million and ¥1,018,274 million for stocks of subsidiaries and affiliates, and ¥711,324 million and ¥555,775 million for available-for-sale securities as of March 31, 2021 and 2020, respectively.

(4) Matters regarding securities and others by holding purpose are as follows:

1) Trading securities

Derivative financial instruments within assets held in trust and investments in securities for separate accounts are classified as trading securities as of March 31, 2021 and 2020.

Valuation gains/losses included in profit and loss were gains of ¥50,015 million and losses of ¥24,044 million for derivative financial instruments within assets held in trust and investments in securities related to separate accounts for the fiscal years ended March 31, 2021 and 2020, respectively.

2) Held-to-maturity debt securities

No ending balance as of March 31, 2021 or 2020.

3) Policy-reserve-matching bonds

Balance sheet amounts, fair values, and their differences by type are as follows:

Millions of Yen						
As of March 31	2021			2020		
Type	Balance sheet amount	Fair value	Difference	Balance sheet amount	Fair value	Difference
Fair value exceeds the balance sheet amount:						
Monetary receivables purchased	¥ 146,825	¥ 153,603	¥ 6,777	¥ 167,756	¥ 176,621	¥ 8,864
Domestic bonds	19,474,557	22,579,362	3,104,804	19,923,010	23,669,097	3,746,087

Balance sheet amount does not exceed acquisition cost or amortized cost:						
Cash and deposits (negotiable certificates of deposit)	59,000	58,998	(1)	54,000	53,998	(1)
Monetary receivables purchased	7,596	7,571	(24)	35,237	34,651	(586)
Domestic bonds	319,236	312,208	(7,028)	458,344	449,840	(8,503)
Domestic stocks	538,025	437,210	(100,814)	1,146,157	849,276	(296,881)
Foreign securities	1,787,530	1,723,573	(63,956)	5,348,906	5,041,600	(307,306)
Other securities	971,416	956,386	(15,029)	506,694	493,259	(13,435)
Subtotal	3,682,805	3,495,949	(186,855)	7,549,340	6,922,626	(626,714)
Total	¥26,925,786	¥36,096,633	¥9,170,847	¥27,557,260	¥33,341,622	¥5,784,361

* Securities totaling ¥711,324 million and ¥555,775 million, whose fair values are extremely difficult to determine, as of March 31, 2021 and 2020, respectively, are not included.

Impairment losses of ¥308 million and ¥141,564 million were recognized for securities with a fair value during the fiscal years ended March 31, 2021 and 2020, respectively.

Regarding stocks (including foreign stocks) with fair values, impairment losses are recognized for stocks whose fair value has declined significantly from the acquisition price based on the average fair value in the last month of the fiscal year, in principle. However, in the case of a security that meets certain criteria, such as a security for which the fair value declines substantially and the decline in the fair value in the last month of the fiscal year is substantial, impairment losses are recognized based on the fair value on the fiscal year-end date.

The criteria by which the fair value of a stock is deemed to have declined significantly are as follows:

- a. A security for which the ratio of the average fair value in the last month of the fiscal year to the acquisition cost is 50% or less.
- b. A security that meets both of the following criteria:
 1. Average fair value in the last month of the fiscal year is between 50% and 70% of its acquisition cost.
 2. The historical fair value, the business conditions of the issuing company and other aspects are subject to certain requirements.

(5) Scheduled repayment amounts for the main monetary claims and liabilities and redemption amounts for securities with maturities are as follows:

As of March 31, 2021	Millions of Yen			
	1 year or under	Over 1 year under 5 years	Over 5 years under 10 years	Over 10 years
Cash and deposits (negotiable certificates of deposit):	¥ 114,000	¥ —	¥ —	¥ —

(*) Loans such as policy loans which do not have a stated maturity date are not included. Also, ¥4,758 million in loans to legally or substantially bankrupt borrowers or borrowers who are not currently legally bankrupt but have a high probability of bankruptcy are not included.

5. Disclosures about Fair Value of Investment and Rental Properties

The balance sheet amounts for investment and rental properties were ¥1,213,905 million (U.S. \$9,918 million), ¥1,197,817 million and ¥1,169,555 million, with a fair value of ¥1,677,566 million (U.S. \$13,706 million), ¥1,607,373 million and ¥1,549,658 million as of March 31, 2022, 2021 and 2020, respectively. The Company owns rental office buildings and commercial facilities, the fair value of which at year-end is the amount measured based mainly on the "Real Estate Appraisal Standards." The amounts corresponding to asset retirement obligations that were included in the balance sheet amounts of investment and rental properties were ¥4,077 million (U.S. \$33 million), ¥3,299 million and ¥3,384 million as of March 31, 2022, 2021 and 2020, respectively.

6. Securities Loaned and Borrowed

The amounts of securities lent under lending agreements were ¥2,098,496 million (U.S. \$17,145 million), ¥2,843,542 million and ¥3,462,922 million as of March 31, 2022, 2021 and 2020, respectively.

Assets that can be sold or resecured are marketable securities borrowed under lending agreements. These assets were held without being sold or resecured and totaled ¥402,310 million (U.S. \$3,287 million), ¥389,126 million and ¥397,399 million at fair value as of March 31, 2022, 2021 and 2020, respectively.

7. Accumulated Depreciation

The amounts of accumulated depreciation of tangible fixed assets were ¥1,206,670 million (U.S. \$9,859 million), ¥1,152,548 million and ¥1,134,894 million as of March 31, 2022, 2021 and 2020, respectively.

8. Separate Accounts

Separate account assets as provided for in Article 118, Paragraph 1 of the Insurance Business Act were ¥1,207,557 million (U.S. \$9,866 million), ¥1,227,305 million and ¥1,202,426 million as of March 31, 2022, 2021 and 2020, respectively, and a corresponding liability is recorded in the same

amount. The amounts of separate accounts are included in the respective account balance on the nonconsolidated balance sheets.

9. Monetary Receivables from and Monetary Liabilities to Subsidiaries and Affiliates

The total amounts of credits and debits to subsidiaries and affiliates as of March 31, 2022, 2021 and 2020, were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Monetary receivables	¥74,798	¥62,548	¥49,059	\$611
Monetary liabilities	10,339	6,990	7,462	84

10. Reserve for Dividends to Policyholders

Changes in the reserve for dividends to policyholders for the fiscal years ended March 31, 2022, 2021 and 2020, were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Balance at the beginning of the fiscal year	¥1,046,832	¥1,043,785	¥1,020,213	\$8,553
Transfer to reserve from surplus in the previous fiscal year	276,006	185,145	211,818	2,255
Dividends paid to policyholders during the fiscal year	(283,608)	(203,557)	(209,969)	(2,317)
Increase in interest	21,346	21,458	21,722	174
Balance at the end of the fiscal year	¥1,060,577	¥1,046,832	¥1,043,785	\$8,665

11. Corporate Bonds

Corporate bonds within liabilities are subordinated corporate bonds with special provisions that subordinate the fulfillment of obligations on the bonds to all other debt obligations.

The corporate bonds are callable at the discretion of the Company, subject to the approval of the regulatory authority and other conditions.

The corporate bond issuance dates and callable dates for currency swaps under designated hedge accounting are as follows:

Issue date	Callable date
October 2012	Each interest payment date on or after October 2022
October 2014	Tenth anniversary date after the issue date and on each fifth anniversary date thereafter
January 2016	Tenth anniversary date after the issue date and on each fifth anniversary date thereafter
September 2017	Tenth anniversary date after the issue date and on each fifth anniversary date thereafter
January 2020	Tenth anniversary date after the issue date and on each fifth anniversary date thereafter
January 2021	Tenth anniversary date after the issue date and on each fifth anniversary date thereafter
September 2021	Tenth anniversary date after the issue date and on each fifth anniversary date thereafter

12. Net Assets Provided for in the Ordinance for Enforcement of the Insurance Business Act

The amounts per Article 30, Paragraph 2 of the Ordinance for Enforcement of the Insurance Business Act were ¥5,739,186 million (U.S. \$46,892 million), ¥6,481,161 million and ¥4,098,540 million as of March 31, 2022, 2021 and 2020, respectively.

13. Accrued Retirement Benefits

(1) Summary of retirement benefit plans

In terms of defined benefit plans, the Company has a defined benefit corporate pension plan and a lump-sum retirement payment plan for non sales personnel, sales management personnel, etc. In terms of defined contribution plans, the Company has a defined contribution pension plan. The Company also has a defined benefit plan for sales representatives, etc., in the form of a lump-sum retirement payment plan and an in-house pension plan. In March 2020, the Company reached an agreement with the workforce on amending the retirement benefit plans for non sales personnel, sales management personnel, sales representatives, and certain other personnel in connection with the extension of the mandatory retirement age to 65, which will be implemented in April 2021. Accordingly, prior service costs of ¥(6,589) million were accrued based on the amended retirement plans for the fiscal year ended March 31, 2020.

(2) Defined benefit plan

1) Reconciliation of retirement benefit obligations at the beginning and end of the fiscal year

	For the years ended March 31, 2022, 2021 and 2020			Millions of U.S. Dollars
	2022	2021	2020	2022
Retirement benefit obligations at the beginning of the year	¥625,689	¥631,072	¥631,844	\$5,112
Service costs	27,220	27,316	26,338	222
Interest cost	3,754	3,786	3,791	30
Actuarial losses accrued during the year	850	4,388	17,230	6
Retirement benefit payments	(38,614)	(40,874)	(41,542)	(315)
Prior service costs accrued during the year	—	—	(6,589)	—
Retirement benefit obligations at the end of the year	¥618,899	¥625,689	¥631,072	\$5,056

2) Reconciliation of pension plan assets at the beginning and end of the fiscal year

	For the years ended March 31, 2022, 2021 and 2020			Millions of U.S. Dollars
	2022	2021	2020	2022
Pension plan assets at the beginning of the year	¥243,500	¥238,608	¥250,029	\$1,989
Expected return on plan assets	3,287	3,221	3,375	26
Actuarial gains (losses) accrued during the year	3,803	11,991	(4,487)	31
Contributions by business proprietor	5,991	6,681	6,569	48
Retirement benefit payments	(17,119)	(17,002)	(16,878)	(139)
Pension plan assets at the end of the year	¥239,463	¥243,500	¥238,608	\$1,956

3) Reconciliation of retirement benefit obligations, pension plan assets, and accrued retirement benefits on the nonconsolidated balance sheets

	For the years ended March 31, 2022, 2021 and 2020			Millions of U.S. Dollars
	2022	2021	2020	2022
Retirement benefit obligations for funded plans	¥242,167	¥250,573	¥253,120	\$1,978
Pension plan assets	(239,463)	(243,500)	(238,608)	(1,956)
	2,704	7,072	14,511	22
Retirement benefit obligations for nonfunded plans	376,731	375,115	377,952	3,078
Unrecognized actuarial gains	(5,186)	(11,765)	(24,593)	(42)
Unrecognized prior service costs	3,953	5,271	6,589	32
Accrued retirement benefits	¥378,203	¥375,693	¥374,460	\$3,090

4) Losses (gains) relating to retirement benefits

For the years ended March 31, 2022, 2021 and 2020	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Service costs	¥27,220	¥27,316	¥26,338	\$222
Interest cost	3,754	3,786	3,791	30
Expected return on plan assets	(3,287)	(3,221)	(3,375)	(26)
Amortization of actuarial losses for the period	3,626	5,223	13,043	29
Prior service costs accrued during the year	(1,317)	(1,317)	—	(10)
Benefit cost for defined benefit plans	¥29,995	¥31,787	¥39,797	\$245

5) Pension plan assets consist of the following:

	2022	2021	2020
General account of Nippon Life	49.5%	49.8%	52.3%
Cash and deposits	25.1%	20.6%	14.2%
Foreign securities	14.9%	19.9%	9.4%
Domestic bonds	6.4%	6.0%	20.1%
Domestic stocks	4.1%	3.7%	4.0%
Total	100.0%	100.0%	100.0%

6) Calculation method for long-term expected rate of return on plan assets

To determine the long-term expected rate of return on pension plan assets, the Company takes into consideration present and forecasted allocation of the pension plan assets, and present and long-term rates of return that are expected from the portfolio of assets that comprise the pension plan assets.

7) Matters relating to the basis for actuarial calculations

The main items in the basis for actuarial calculations as of March 31, 2022, 2021 and 2020, are as follows:

	2022	2021	2020
Discount rate	0.6%	0.6%	0.6%
Long-term expected rate of return on plan assets	1.4%	1.4%	1.4%

(3) Defined contribution plans

The Company contributed ¥2,280 million (U.S. \$18 million), ¥2,249 million and ¥2,246 million to defined contribution plans during the fiscal years ended March 31, 2022, 2021 and 2020, respectively.

14. Foundation Funds

Foundation funds serve as the primary source of capital for Japanese mutual life insurance companies. These funds are similar to loans, as interest payments, maturity dates and other items must be established at the time of the offering. In the event of a bankruptcy or similar development, repayment of the principal and interest on foundation funds is subordinated to the repayment of amounts owed to ordinary creditors and insurance claims and

benefit payments owed to policyholders. Upon redemption of foundation funds, mutual companies are required to make an addition to the reserve for redemption of foundation funds, which serves as retained earnings, equal to the amount redeemed. As a result, the full amount of foundation funds remains in net assets even after redemption. Foundation funds are therefore positioned as a mutual company's core capital, which is equivalent to the stated capital of a joint-stock company.

The Company redeemed ¥50,000 million (U.S. \$408 million) and ¥50,000 million of foundation funds and credited the same amount to reserve for redemption of foundation funds as prescribed in Article 56 of the Insurance Business Act for the fiscal years ended March 31, 2022 and 2020, respectively. ¥50,000 million (U.S. \$408 million) and ¥50,000 million of foundation funds were offered pursuant to Article 60 of the Insurance Business Act during the fiscal years ended March 31, 2022 and 2020.

15. Pledged Assets

Assets pledged as collateral in the form of investments in securities, land, and buildings as of March 31, 2022, were ¥3,689,448 million (U.S. \$30,145 million), ¥252 million (U.S. \$2 million) and ¥38 million (U.S. \$0 million), respectively. The total amount of liabilities covered by the aforementioned assets was ¥2,452,561 million (U.S. \$20,038 million) as of March 31, 2022.

These amounts included ¥2,214,261 million (U.S. \$18,091 million) of the sale of securities under repurchase agreements and ¥2,452,560 million (U.S. \$20,038 million) in payables under repurchase agreements, as of March 31, 2022.

Assets pledged as collateral in the form of investments in securities, land, and buildings as of March 31, 2021, were ¥2,002,158 million, ¥252 million and ¥40 million, respectively. The total amount of liabilities covered by the aforementioned assets was ¥1,014,997 million as of March 31, 2021.

These amounts included ¥946,842 million of the sale of securities under repurchase agreements and ¥1,014,978 million in payables under repurchase agreements, as of March 31, 2021.

Assets pledged as collateral in the form of investments in securities, land, and buildings as of March 31, 2020, were ¥1,979,845 million, ¥252 million and ¥43 million, respectively. The total amount of liabilities covered by the aforementioned assets was ¥1,052,132 million as of March 31, 2020.

These amounts included ¥1,037,938 million of the sale of securities under repurchase agreements and ¥1,051,931 million in payables under repurchase agreements, as of March 31, 2020.

16. Investments in Subsidiaries and Affiliates

The total amounts of stocks and investments in subsidiaries and affiliates were ¥1,466,399 million (U.S. \$11,981 million), ¥1,308,172 million and ¥1,152,476 million as of March 31, 2022, 2021 and 2020, respectively.

Nissay Small-Amount and Short-Term Insurance Preparatory Company (the "Preparatory Company"), which was established by the Company on April 30, 2021, changed its trade name to Nissay Plus SSI Company Inc. ("Nissay Plus") on March 24, 2022, following completion of the acquisition of approvals of the Commissioner of the Financial Services Agency pursuant

to Article 272-31, Paragraph 1 and Article 106, Paragraph 7 of the Insurance Business Act by the Company and the acquisition of a small-amount short-term life insurance business license pursuant to Article 272 of the Insurance Business Act by the Preparatory Company on the same day.

1) Purpose of company establishment

The purpose of establishing the company is to flexibly and dynamically provide various insurance products for the areas of both life and non-life insurance in order to address diversifying customer needs against the backdrop of changing lifestyles, diversifying individual values, and the widespread use of digital environments.

2) Overview of Nissay Plus

- a. Company name: Nissay Plus SSI Company Inc.
- b. Head office location: Chiyoda-ku, Tokyo
- c. Capital stock: ¥2.6 billion (U.S. \$21 million) (including ¥1.3 billion (U.S. \$10 million) of capital reserve)

3) Date of establishment

April 30, 2021

4) Percentage of voting rights held by the Company

100%

17. Receivables and Loans

(1) Of the loans, the total amount of bankrupt and quasi-bankrupt loans, doubtful loans, loans that are delinquent for over three months, and restructured loans were ¥30,345 million (U.S. \$247 million), ¥29,456 million and ¥29,154 million as of March 31, 2022, 2021 and 2020, respectively. The breakdown is as follows:

1) The amounts of bankrupt and quasi-bankrupt loans were ¥10,274 million (U.S. \$83 million), ¥10,308 million and ¥10,523 million as of March 31, 2022, 2021 and 2020, respectively.

Bankrupt and quasi-bankrupt loans are loans to borrowers that have fallen into bankruptcy due to reasons including initiation of bankruptcy proceedings, start of reorganization proceedings, or submission of an application to start rehabilitation proceedings.

2) The amounts of doubtful loans were ¥18,303 million (U.S. \$149 million), ¥16,511 million and ¥17,067 million as of March 31, 2022, 2021 and 2020, respectively.

Doubtful loans are loans that are not applicable to bankrupt and quasi-bankrupt loans, with a strong likelihood that loan principal cannot be recovered or interest cannot be received according to the contract because of the difficulties in the financial condition and business performance of the debtor, who has not yet entered into bankruptcy.

3) There were no loans delinquent for over three months.

Loans that are delinquent for over three months are loans that are not applicable to bankrupt and quasi-bankrupt loans and doubtful loans, and have principal or interest being unpaid for over three months following the due date based on the loan agreement.

4) The amounts of restructured loans were ¥1,767 million (U.S. \$14 million), ¥2,635 million and ¥1,563 million as of March 31, 2022, 2021 and 2020, respectively.

Restructured loans are loans that are not applicable to bankrupt and quasi-bankrupt loans, doubtful loans, and loans delinquent for over three months, and that provide concessions favorable to the borrower with the intent of supporting the borrowers' restructuring, such as by reducing or exempting interest, postponing principal or interest payments, releasing credits, or providing other benefits to the borrowers.

(2) After directly deducting the estimated uncollectible amount, bankrupt and quasi-bankrupt losses decreased by ¥586 million (U.S. \$4 million), ¥2,514 million and ¥2,106 million as of March 31, 2022, 2021 and 2020, respectively.

18. Loan Commitments

The amounts of commitments related to loans and loans outstanding were ¥292,165 million (U.S. \$2,387 million), ¥343,726 million and ¥340,430 million as of March 31, 2022, 2021 and 2020, respectively.

19. Policy Reserves for Reinsurance Contracts Provided in Accordance with Article 71, Paragraph 1 of the Ordinance for Enforcement of the Insurance Business Act

The amounts of policy reserves provided for the portion of reinsurance (hereafter referred to as "policy reserves for ceded reinsurance") as defined in Article 71, Paragraph 1 of the Ordinance for Enforcement of the Insurance Business Act were ¥182 million (U.S. \$1 million), ¥213 million and ¥254 million as of March 31, 2022, 2021 and 2020, respectively.

20. Contributions to the Life Insurance Policyholder Protection Fund and Organization

Of the maximum borrowing amount from the Life Insurance Policyholders Protection Corporation of Japan, which is provided for in Article 37-4 of the Order for Enforcement of the Insurance Business Act, the amounts applied to the Company were estimated to be ¥71,238 million (U.S. \$582 million), ¥72,187 million and ¥75,368 million as of March 31, 2022, 2021 and 2020, respectively. The amounts contributed to the aforementioned corporation were recorded within operating expenses for the fiscal year.

21. Investment Income and Expenses

The major components of gain on sales of securities were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Domestic bonds including national government bonds	¥ 23,938	¥ 50,774	¥ 41,199	\$ 195
Domestic stocks and other securities	366,791	89,320	69,048	2,996
Foreign securities	74,524	367,189	217,963	608

The major components of loss on sales of securities were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Domestic bonds including national government bonds	¥75,728	¥2,319	¥204	\$618
Domestic stocks and other securities	15,014	33,854	26,298	122
Foreign securities	22,873	4,019	22,201	186

The major components of loss on valuation of securities were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Domestic stocks and other securities	¥11,658	¥1,888	¥142,505	\$95
Foreign securities	1,463	3,074	59,887	11

Gain/loss from assets held in trust, net included net valuation gains of ¥4,292 million (U.S. \$35 million) for the fiscal year ended March 31, 2022 and losses of ¥25,339 million and gains of ¥27,919 million for the fiscal years ended March 31, 2021 and 2020, respectively.

Loss on derivative financial instruments, net included net valuation losses of ¥14,865 million (U.S. \$121 million), losses of ¥11,658 million and losses of ¥12,466 million for the fiscal years ended March 31, 2022, 2021 and 2020, respectively.

22. Reversal of Policy Reserves for Ceded Reinsurance

Reversal of policy reserves for ceded reinsurance that were added from the calculation of provision for policy reserves were ¥30 million (U.S. \$0 million), ¥41 million and ¥24 million for the fiscal years ended March 31, 2022, 2021 and 2020, respectively.

23. Impairment Losses

(1) Method for grouping the assets

Leased property and idle property are classified as one asset group per property. Assets utilized for insurance business operations are classified into one asset group.

(2) Circumstances causing impairment losses

The Company observed a marked decrease in profitability or fair value in some of the fixed asset groups. The book value of fixed assets was reduced to the recoverable amount and impairment losses were recognized as extraordinary losses for the fiscal years ended March 31, 2022, 2021 and 2020.

(3) Breakdown of asset groups that recognized impairment losses:

For the year ended March 31, 2022

Purpose of use	Millions of Yen			
	Land	Leasehold interests in land	Buildings	Total
Leased property	¥ 375	¥ 1	¥ 286	¥ 662
Idle property	3,135	—	4,331	7,466
Total	¥3,510	¥ 1	¥4,617	¥8,129

For the year ended March 31, 2021

Purpose of use	Millions of Yen		
	Land	Buildings	Total
Leased property	¥ 147	¥ —	¥ 147
Idle property	3,299	1,438	4,738
Total	¥3,447	¥1,438	¥4,885

For the year ended March 31, 2020

Purpose of use	Millions of Yen			
	Land	Leasehold interests in land	Buildings	Total
Leased property	¥ 83	¥ —	¥ —	¥ 83
Idle property	1,900	168	740	2,809
Total	¥1,984	¥168	¥740	¥2,893

For the year ended March 31, 2022

Purpose of use	Millions of U.S. Dollars			
	Land	Leasehold interests in land	Buildings	Total
Leased property	\$ 3	\$ 0	\$ 2	\$ 5
Idle property	25	—	35	61
Total	\$28	\$0	\$37	\$66

(4) Calculation method of recoverable amount

The recoverable amount used for the measurement of impairment losses is based on the net realizable value upon sales of the assets or the discounted future cash flows.

The discount rate used in the calculation of future cash flows was 3.0% for the fiscal years ended March 31, 2022, 2021 and 2020. Net realizable values are determined based on appraisals performed in accordance with the "Real Estate Appraisal Standards" or standard prices.

24. Deferred Tax Assets and Liabilities

(1) Deferred tax assets/liabilities consisted of the following:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Deferred tax assets	¥2,035,718	¥1,812,734	¥1,702,014	\$16,633
Valuation allowance for deferred tax assets	(74,263)	(65,469)	(84,956)	(606)
Subtotal	1,961,455	1,747,264	1,617,058	16,026
Deferred tax liabilities	(2,446,030)	(2,624,769)	(1,715,607)	(19,985)
Net deferred tax liabilities	¥ (484,574)	¥ (877,504)	¥ (98,548)	\$ (3,959)

The major components resulting in deferred tax assets/liabilities were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Deferred tax assets:				
Policy reserves and other reserves	¥1,226,068	¥1,084,110	¥ 955,429	\$10,017
Reserve for price fluctuations in investments in securities	443,675	424,614	403,995	3,625
Accrued retirement benefits	105,518	104,818	104,474	862
Deferred losses on derivatives under hedge accounting	154,077	89,726	70,540	1,258
Deferred tax liabilities:				
Net unrealized gains on available-for-sale securities	¥2,349,062	¥2,542,367	¥1,613,944	\$19,193

The main reasons for the change in the valuation allowance that reduced the deferred tax assets were the recognition of a valuation allowance related to loss on valuation of shares of subsidiaries and affiliates, a decrease in the valuation allowance in line with a rise in the fair value of shares and an increase in the valuation allowance in line with a decline in the fair value of shares for the fiscal years ended March 31, 2021 and 2020, respectively.

(2) The statutory tax rate was 27.9%, 27.9% and 27.9% for the fiscal years ended March 31, 2022, 2021 and 2020, respectively. The main factors for the difference between the statutory tax rates and the effective income tax rates were as follows:

	2022	2021	2020
Reserve for dividends to policyholders	(13.5)%	(22.4)%	(25.2)%
Loss on valuation of shares of subsidiaries and affiliates	—	—	9.3%

25. Transactions with Subsidiaries and Affiliates

The total income and expenses from transactions with subsidiaries and affiliates for the fiscal years ended March 31, 2022, 2021 and 2020, were as follows:

	Millions of Yen			Millions of U.S. Dollars
	2022	2021	2020	2022
Total income	¥45,286	¥28,938	¥41,607	\$370
Total expenses	37,184	30,342	33,148	303

26. Loss on Valuation of Shares of Subsidiaries and Affiliates

The Company recorded an impairment loss on its shares of MLC Limited, a consolidated subsidiary of the Company, due to a significant decline in the actual value of the shares compared with the carrying amount of the investment. The decline reflected deteriorating profitability at MLC Limited mainly due to an increase in payments for income-protection insurance. As a result, the Company recorded a loss on valuation of shares of subsidiaries and affiliates of ¥68,391 million as an extraordinary loss in the fiscal year ended March 31, 2020.

27. Subsequent Events

(1) The Company assumed the following yen-denominated subordinated debt on May 10, 2022:

Principal amount	¥130 billion (U.S. \$1,062 million)
Interest rate	Fixed rate of 1.03% per annum until May 10, 2032 Fixed rate with step-up from May 11, 2032 (reset every five years)
Repayment date	The third bank business day preceding May 10, 2052 (The loan is callable on the third bank business day preceding May 10, 2032, and the third bank business day preceding each fifth anniversary date thereafter, until the loan is fully redeemed at the discretion of the Company, subject to prior approval by the regulatory authorities.)
Use of funds	General working capital

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Nippon Life Insurance Company:

Opinion

We have audited the consolidated financial statements of Nippon Life Insurance Company (the "Company") and its consolidated subsidiaries, which comprise the consolidated balance sheets as of March 31, 2022, 2021 and 2020, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in net assets and consolidated statements of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, all expressed in Japanese yen.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company and its consolidated subsidiaries as of March 31, 2022, 2021 and 2020, and their consolidated financial performance and their consolidated cash flows for the years then ended in accordance with the Insurance Business Act and the related rules and regulations applicable to the life insurance industry and accounting principles generally accepted in Japan.

Convenience Translation

Our audits also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1(2) to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its consolidated subsidiaries in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

As explained in Note 1(1) to the consolidated financial statements, the information provided in the consolidated financial statements including notes to the consolidated financial statements is limited to information required by the Insurance Business Act and the related rules and regulations applicable to the life insurance industry and disclosed as additional information. Our opinion is not modified in respect of this matter.

Key Audit Matters

We determined the matters that required significant auditor's attention in performing our audit from the matters communicated to those charged with governance by identifying and evaluating the risks of material misstatements through obtaining an understanding of the Company's business environments and life insurance industry in which it operates, and the areas that involved significant management judgment including accounting estimates.

Among those matters, we determined the key audit matters to be those that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the current year by considering the quantitative and qualitative factors and the interests of the presumed users of the consolidated financial statements.

Such key audit matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our audit opinion thereon, and we do not provide a separate opinion on these matters.

The details of the key audit matters, the basis of our determination and the related audit responses are as follows:

1. Appropriateness of the Company's determination of impairment indicators and the recognition of an impairment loss for goodwill equivalent

(Key Audit Matter Description)

The Company has been investing in domestic and overseas life insurance companies and asset management companies as part of its efforts to expand the group businesses.

When investing in these companies, the Company may recognize goodwill equivalent, which is accounted for included in the carrying amount of the equity method investment on the consolidated financial statements. The Company recorded goodwill equivalent of ¥78,425 million on its consolidated balance sheet as of March 31, 2022.

The Company amortizes these goodwill equivalent in accordance with the method mentioned in Note 2. "Summary of Significant Accounting Policies, (1) Principles of consolidation, v) Amortization of goodwill" in the notes to the consolidated financial statements and determines whether any impairment indicators exist in accordance with the Company's policy mentioned in Note 24. "Impairment Losses."

When an impairment indicator for investment in an insurance company is identified, the Company determines whether an impairment loss should be recognized by comparing the corporate value of the investee, which is the sum of the embedded value and value of new business, corresponding to the Company's interest in the investee with the carrying amount of the investment.

If the Company determines that an impairment loss should be recognized, the carrying amount of the investment is reduced to the recoverable amount.

The Company has invested in PT Sequis, an equity-method affiliate operating life insurance business in Indonesia, expecting that the investee will achieve higher growth in the future based on the assumption that the local life insurance market will continue to grow. The Company recorded goodwill equivalent allocated to the investee of ¥19,500 million.

As mentioned in Note 24. "Impairment losses, (3) Recognition and measurement of impairment losses, b. Goodwill and goodwill equivalent," the projected acquisition of new insurance policies as the basis of the value of new business, the lapse rates, the insurance accident rates and the discount rates included in actuarial assumptions as the basis of the embedded value are subject to estimation uncertainty, regarding the corporate value used to determine the recognition of impairment loss for PT Sequis.

In addition, the status of the COVID-19 pandemic may have an impact on the projected acquisition of new insurance policies.

Also, the Company recorded goodwill equivalent allocated to Reliance Nippon Life Insurance Company Limited ("RNLI"), an equity method affiliate operating life insurance business in India, of ¥36,494 million. Although RNLI's corporate value is recovering, the possible change of the joint venture partner that is now Reliance Capital Limited may have a certain impact on its future business activities.

Determining whether there are any impairment indicators that may result in a deterioration of RNLI's business performance in the future involves significant management judgment, such as a significant change in the nature of RNLI's business and management's strategy from the initial plan and any signs of significant deterioration in RNLI's business environment that would lead to a significant decline in its corporate value.

Based on the above, we identified the Company's determination of impairment indicators for the goodwill equivalent of PT Sequis and RNLI, and the recognition of an impairment loss for the goodwill equivalent of PT Sequis as a key audit matter.

(How the Key Audit Matter Was Addressed in the Audit)

Our audit procedures over the Company's determination of impairment indicators for the goodwill equivalent allocated to PT Sequis and RNLI and the recognition of an impairment loss for goodwill equivalent allocated to PT Sequis included the following, among others:

- We evaluated the Company's policy for the determination of impairment indicators and the recognition of an impairment loss regarding goodwill equivalent considering the "Accounting Standard for Impairment of Fixed Assets" per generally accepted accounting principles in Japan.
- We inquired of the Company officials and inspected the relevant documents to test the design and operating effectiveness of internal controls over the determination of impairment indicators and the recognition of an impairment loss, including:
 - Procedures for management's review and approval over the determination of impairment indicators and the fair valuation of the investment performed by the International department, and
 - Procedures for management's review and approval performed by the Credit department.

Regarding PT Sequis, we additionally performed the following procedures in evaluating the Company's determination of impairment indicators:

- Inspected the minutes of the Board of Directors of PT Asuransi Jiwa Sequis Life (hereinafter called "Sequis Life") that is a subsidiary of PT Sequis,
- Inquired of management of the International department in the Company, and
- Performed a trend analysis of the business performance results in prior years and compared the actual performance results for the current year to the amounts on the business plans at the time of the investment.

In evaluating the appropriateness of the Company's determination of the recognition of an impairment loss for goodwill equivalent allocated to PT Sequis, with the assistance of our valuation specialists and actuarial specialists, our audit procedures related to the value of new business and the embedded value, which are components of the corporate values of Sequis Life used by the Company, included the following among others:

- Evaluated the reasonableness of the assumptions related to management's estimated timing of the end of the COVID-19 pandemic for the projected acquisition of new insurance policies considering the environments of the country where the entity operates,
- Inquired of management of Sequis Life on current business environments and the projected acquisition of new insurance policies including the impact of COVID-19,

- Performed a trend analysis on the projected acquisition of new insurance policies considering the actual acquisition of new insurance policies in prior years and related market conditions,
- Inquired of management in the International department of the Company on the methods and data used for the discount rates calculation and evaluated their consistency with market conditions and practices,
- Inquired of the actuary of Sequis Life on the lapse rates and the insurance accident rates included in the actuarial assumptions used for the embedded value calculation, and
- Inspected the relevant documents to determine whether the embedded value was calculated based on the actuarial assumptions as mentioned above.

Regarding RNLI, we performed the following procedures in evaluating the Company's determination of impairment indicators:

- Inspected the minutes of the Board of Directors of RNLI,
- Inquired of management of the International department in the Company,
- Performed a trend analysis of the business performance results in prior years and compared the actual performance results for the current year to the amounts on the business plans at the time of the additional investment, and
- Inquired of management of RNLI on the current business environments, forecast of business performance and the current status of the change in the joint venture partner.

2. Reliability of the systems as a basis of the calculation of policy reserves and valuation of policy reserves for new insurance products and the revision of existing insurance products

(Key Audit Matter Description)

The Company recorded policy reserves of ¥68,547,902 million, which represented 85% of total liabilities on the consolidated balance sheet as of March 31, 2022. Of the amount, the policy reserves of the Company and Taiju Life Insurance Company Limited ("Taiju Life"), a consolidated subsidiary, were ¥58,677,803 million and ¥6,504,259 million, respectively, and the sum of these reserves represented 95% of total policy reserves on the consolidated balance sheet.

As mentioned in Note 2. "Summary of Significant Accounting Policies, (18) Policy reserves, 1)," the policy reserves of the Company and Taiju Life are provided for the future fulfillment obligations in accordance with Article 116 of the Insurance Business Act.

Policy reserves are calculated based on basic assumptions of the expected mortality rates and the expected interest rates, attribute data of age and gender and the amounts insured by insurance policies, according to the statement of calculation procedures that is required to be submitted to the prime minister in accordance with Article 4, Paragraph (2), Item (iv) of the Insurance Business Act.

In addition, the Company records additional policy reserves in accordance with Article 69, Paragraph 5 of the Ordinance for Enforcement of the Insurance Business Act in order to strengthen its financial foundation over the medium to long term. Furthermore, the chief actuary reviews whether sufficient policy reserves for insurance policies are provided in accordance with Article 121, Paragraph 1, Item 1 of the Insurance Business Act.

The calculation of policy reserves, which represents a significant part of liabilities on the consolidated balance sheets, requires processing of considerable volumes of data and is highly automated by IT systems and is therefore highly dependent on those IT systems. In order to accurately calculate policy reserves, it is critical to have appropriate design and operating effectiveness of the automated application controls over the calculation of policy reserves and the general IT controls, which support the operating effectiveness of automated application controls over the continuous appropriate operation of IT systems. Also, the evaluation of the effectiveness of controls over the calculation of policy reserves requires specialized knowledge and experience in IT systems and actuarial science. Therefore, we identified the reliability of the systems supporting the calculation of policy reserves as a key audit matter.

Regarding the development of new insurance products and the revision of existing insurance products ("new insurance products and other products"), the programs for the calculation of policy reserves are developed and implemented into the systems. As policy reserves are calculated by the system on an ongoing basis after the implementation, the initial errors at the implementation would have an impact on financial reporting in the long-term, which may have a material impact on the consolidated financial statements. Therefore, we identified the valuation and accuracy of policy reserves related to new insurance products and other products as a key audit matter.

(How the Key Audit Matter Was Addressed in the Audit)

Our audit procedures to evaluate the reliability of the systems as a basis of the calculation of policy reserves of the Company and Taiju Life included the following, among others:

- With the assistance of our IT specialists, we inquired of management of the IT department and inspected the relevant documents to evaluate the design and operating effectiveness of the following IT controls over the calculation of policy reserves:
 - General IT controls such as controls over access security, system change management and operation related to the systems for the calculation of policy reserves, the insurance system, the accounting system and other systems.
 - Automated application controls over the determination of policies subjected to the calculation of policy reserves as of the consolidated balance sheet date and the extraction of the attribute data related to these policies, and
 - Automated application controls over the aggregation of the policies subjected to the calculation of policy reserves and the underlying date generation of journal entries.
- With the assistance of our actuarial specialists, we inquired of management in the Actuarial department, and performed re-calculation of policy reserves in accordance with the statement of calculation procedures to evaluate the design and operating effectiveness of automated application controls over the calculation of policy reserves.

With the assistance of our actuarial specialists, we performed re-calculation of policy reserves for new insurance products and other products in accordance with the statement of calculation procedures to evaluate the accuracy of the calculation of policy reserves for new insurance products and other products that were offered during the current year.

Other Information

Management is responsible for the other information. The Audit & Supervisory Committee is responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of the Audit & Supervisory Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Insurance Business Act and the related rules and regulations applicable to the life insurance industry and accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company and its consolidated subsidiaries' ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Company and its consolidated subsidiaries or to cease operations, or has no realistic alternative but to do so.

The Audit & Supervisory Committee is responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Company and its consolidated subsidiaries' financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company and its consolidated subsidiaries' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company and its consolidated subsidiaries' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its consolidated subsidiaries to cease to continue as a going concern.

-
- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are in accordance with the Insurance Business Act and the related rules and regulations applicable to the life insurance industry and accounting principles generally accepted in Japan, as well as the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its consolidated subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit & Supervisory Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit & Supervisory Committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with it all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit & Supervisory Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Company and its consolidated subsidiaries which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Nippon Life Insurance Company:

Opinion

We have audited the nonconsolidated financial statements of Nippon Life Insurance Company (the "Company"), which comprise the nonconsolidated balance sheets as of March 31, 2022, 2021 and 2020, and the nonconsolidated statements of income and nonconsolidated statements of changes in net assets and the nonconsolidated proposed appropriations of surplus for the years then ended, and notes to the nonconsolidated financial statements, including a summary of significant accounting policies, all expressed in Japanese yen.

In our opinion, the accompanying nonconsolidated financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2022, 2021 and 2020, and its financial performance for the years then ended in accordance with the Insurance Business Act and the related rules and regulations applicable to the mutual life insurance industry and accounting principles generally accepted in Japan.

Convenience Translation

Our audits also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1(2) to the nonconsolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Nonconsolidated Financial Statements section of our report. We are independent of the Company in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

As explained in Note 1(1) to the nonconsolidated financial statements, the information provided in the nonconsolidated financial statements including notes to the nonconsolidated financial statements is limited to information required by the Insurance Business Act and the related rules and regulations applicable to the mutual life insurance industry and disclosed as additional information. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The Audit & Supervisory Committee is responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the other information. The other information comprises the information included in the Annual Report, but does not include the nonconsolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the nonconsolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the nonconsolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the nonconsolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of the Audit & Supervisory Committee for the Nonconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the nonconsolidated financial statements in accordance with the Insurance Business Act and the related rules and regulations applicable to the mutual life insurance industry and accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of the nonconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the nonconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Audit & Supervisory Committee is responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Nonconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the nonconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these nonconsolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the nonconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

-
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the nonconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate whether the overall presentation and disclosures of the nonconsolidated financial statements are in accordance with the Insurance Business Act and the related rules and regulations applicable to the mutual life insurance industry and accounting principles generally accepted in Japan, as well as the overall presentation, structure and content of the nonconsolidated financial statements, including the disclosures, and whether the nonconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Audit & Supervisory Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit & Supervisory Committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with it all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Company which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

1. Nippon Life Group Performance

Summary of Operations for the Fiscal Year

To continue providing products and services to customers over the long term in any environment, the Nippon Life Group (the "Group") is working to expand its group business.

The Group has 15 consolidated subsidiaries and 15 equity method affiliates.

• Domestic Life Insurance Business Field

The Group strove to upgrade and expand the product lineups of NIPPON LIFE INSURANCE COMPANY ("Nippon Life" or the "Company") and TAIJU LIFE INSURANCE COMPANY LIMITED ("TAIJU LIFE") by promoting the mutual supply of products between the two companies. For example, TAIJU LIFE sold Nippon Life's annuity insurance, educational endowment insurance, and juvenile insurance products, among other products. TAIJU LIFE also supplied Nissay Foreign Currency-denominated Single-Premium Endowment Insurance—Dream Road to the Company.

TAIJU LIFE's revenue from insurance and reinsurance in the fiscal year ended March 31, 2022, was ¥498.6 billion (vs. ¥441.2 billion in the fiscal year ended March 31, 2021). Ordinary profit was ¥39.4 billion (vs. ¥17.2 billion in the fiscal year ended March 31, 2021), and core operating profit was ¥44.9 billion (vs. ¥32.0 billion in the fiscal year ended March 31, 2021).

The Group is leveraging the strengths of Nippon Life and Nippon Wealth Life Insurance Company Limited ("Nippon Wealth Life") to, for example, flexibly develop products that meet customer needs and expand the number of financial institutions handling Nippon Wealth Life products through its wholesalers. In this way, Nippon Wealth Life is working to build a product supply system that can meet the needs of a broader range of customers.

Nippon Wealth Life's revenue from insurance and reinsurance in the fiscal year ended March 31, 2022, was ¥350.1 billion (vs. ¥282.7 billion in the fiscal year ended March 31, 2021). Ordinary profit was ¥29.0 billion (vs. ¥81.3 billion in the fiscal year ended March 31, 2021), and core operating profit was ¥37.5 billion (vs. ¥29.0 billion in the fiscal year ended March 31, 2021).

HANASAKU LIFE INSURANCE Co., Ltd. worked to strengthen relationships with agencies, along with flexibly supplying products that precisely meet customer needs, and upgrading and expanding its lineup of such products. In addition, the company commenced mail-order sales in July 2020, and online sales in September 2021.

HANASAKU LIFE's revenue from insurance and reinsurance in the fiscal year ended March 31, 2022, was ¥13.7 billion (vs. ¥6.8 billion in the fiscal year ended March 31, 2021). Ordinary loss was ¥19.6 billion (vs. ¥16.2 billion in the fiscal year ended March 31, 2021), and core operating loss amounted to ¥18.9 billion (vs. ¥15.9 billion in the fiscal year ended March 31, 2021).

• Overseas Insurance Business Field

The Group operates insurance operations in seven countries: the United States, Australia, India, Myanmar, China, Thailand, and Indonesia.

In particular, MLC Limited, an Australian consolidated subsidiary, has been working to improve income protection products profitability, which has been an industry-wide challenge, and to enhance the efficiency of business expenditures.

MLC Limited's revenue from insurance and reinsurance in the fiscal year ended December 31, 2021, was ¥181.2 billion (vs. ¥160.1 billion in the fiscal year ended December 31, 2020), and core operating profit*¹ was ¥2.9 billion (vs. a loss of ¥30.4 billion in the fiscal year ended December 31, 2020).

• Asset Management Field

The Group worked to offer a wide range of products to meet the diversified asset management needs of its customers, such as multi-asset and alternatives, including domestic and foreign stocks and bonds, through discretionary investment, investment advisory, and investment trusts provided by Nissay Asset Management Corporation.

Nissay Asset Management Corporation's assets under management as of March 31, 2022, were ¥33,826.9 billion (vs. ¥31,051.9 billion in the fiscal year ended March 31, 2021). Of this, assets of ¥24,420.6 billion were in the investment advisory business (vs. ¥21,392.8 billion in the fiscal year ended March 31, 2021), and assets of ¥9,406.3 billion were in the investment trusts business (vs. ¥9,659.1 billion in the fiscal year ended March 31, 2021). In addition, core operating profit*² was ¥16.2 billion (vs. ¥16.9 billion in the fiscal year ended March 31, 2021).

In the Indian investment trusts sector, which continues to experience high growth, Nippon Life India Asset Management Limited endeavored to supply a wide range of investment products, including Indian stocks, bonds, and alternative investments.

Nippon Life India Asset Management Limited's investment trust assets under management as of March 31, 2022, were ¥4,521.0 billion (vs. ¥3,371.7 billion in the fiscal year ended March 31, 2021). In addition, core operating profit*² was ¥15.0 billion (vs. ¥12.6 billion in the fiscal year ended March 31, 2021).

• Information Technology Field

Nissay Information Technology Co., Ltd. engaged in system development for new products to cater for the diversification of market needs. In addition, high-quality information system services were provided to insurance, mutual aid, pension, and healthcare markets.

In the fiscal year ended March 31, 2022, Nissay Information Technology Co., Ltd. sales were ¥79.0 billion (vs. ¥79.53 billion in the fiscal year ended March 31, 2021). Ordinary profit was ¥2.4 billion (vs. ¥1.76 billion in the fiscal year ended March 31, 2021), and core operating profit*² was ¥2.3 billion (vs. ¥1.7 billion in the fiscal year ended March 31, 2021).

Ordinary income in the fiscal year ended March 31, 2022, totaled ¥8,356.8 billion (vs. ¥8,160.9 billion in the fiscal year ended March 31, 2021). Ordinary expenses totaled ¥7,821.4 billion (vs. ¥7,685.3 billion in the fiscal year ended March 31, 2021), while ordinary profit was ¥535.4 billion (vs. ¥475.6 billion in the fiscal year ended March 31, 2021). After adding/subtracting extraordinary gains of ¥18.4 billion, extraordinary losses of ¥103.9 billion, provision for reserve for policyholder dividends, total income taxes, and net surplus attributable to noncontrolling interests to/from ordinary profit, net surplus attributable to the parent company in the current year amounted to ¥346.7 billion (vs. ¥331.5 billion in the fiscal year ended March 31, 2021). On the consolidated balance sheet, surplus as of March 31, 2022 amounted to ¥740.5 billion, and total assets rose to ¥88,381.9 billion (vs. ¥85,589.9 billion as of March 31, 2021).

Net cash provided by operating activities amounted to ¥1,232.7 billion, a ¥267.5 billion increase year-on-year, due mainly to an increase in revenue from insurance and reinsurance. Net cash used in financing activities rose by ¥50.3 billion from the previous fiscal year to ¥1,207.6 billion, due mainly to an increase in purchases of investment securities. Net cash provided by financing activities was ¥158.7 billion, down ¥115.8 billion from the previous fiscal year, due mainly to increased loan repayments. As a result, cash and cash equivalents as of March 31, 2022, amounted to ¥2,544.3 billion,

an increase of ¥221.5 billion from the beginning of the fiscal year.

Total core operating profit*³ was ¥872.1 billion (vs. ¥690.6 billion in the fiscal year ended March 31, 2021).

*1 Net income before tax excluding interest rate fluctuation factors, etc.

*2 Net income before tax.

*3 The sum of core operating profit of Nippon Life, TAIJU LIFE, Nippon Wealth Life, and HANA-SAKU LIFE, plus the net income before tax of overseas life insurance subsidiaries and affiliates and domestic and overseas asset management subsidiaries and affiliates, after taking into account stock ownership ratios, excluding interest rate fluctuation factors, and adjusting for certain internal transactions.

Effective fiscal year ended March 31, 2022, the method for excluding interest rate fluctuation factors from Group core operating profit has been revised. As such, previous fiscal-year figures have been restated in accordance with the revised method.

The consolidated financial statements of the Group have been prepared in accordance with accounting principles generally accepted in Japan.

The preparation of the consolidated financial statements requires management to select and apply accounting policies, and to make estimates that will impact the disclosure of assets and liabilities, and revenues and expenses.

Management determines these estimates reasonably considering past performance. However, the actual results may vary from those estimates due to uncertainties specific to the estimates.

Significant accounting policies adopted in the consolidated financial statements of the Group are presented in "Basis of Presenting the Consolidated Financial Statements" on p. 43. In particular, management believes that the following significant accounting policies and estimates will have a major impact on the consolidated financial statements.

(1) Fair value measurement methods for financial instruments

Fair value of certain securities and derivative financial instruments is measured mainly based on the market price, in principle. For items without a market price, fair value is measured mainly by discounting future cash flows to present value or valuations obtained from external information vendors.

In the future, the estimated amounts could change in light of new facts that affect the estimates.

(2) Impairment of securities

For securities other than trading securities, impairment losses are recognized for stocks whose fair value or actual value has declined significantly based on reasonable criteria.

A substantial loss on valuation of securities could be recorded depending on future financial market conditions and the progression of business plans by investees.

Criteria related to impairment losses on stocks are presented in "Notes to the Consolidated Financial Statements" on p. 43.

(3) Impairment of fixed assets

For fixed assets, if the recoverable amount of the asset group is estimated to be less than the book value, the difference is recognized as an impairment loss.

1) Real estate and other assets

The recoverable amount is determined as the larger of the net realizable value determined based on appraisals performed in accordance with the "Real Estate Appraisal Standards" or standard real estate prices, or the value in use determined as the discounted future cash flows. Therefore, if there are changes in the use of real estate and other assets, or changes in property market prices or rents in the future, additional impairment losses could be recognized.

2) Goodwill and the equivalent amount of goodwill from affiliates accounted for by the equity method

The recoverable amount is determined as the larger of net selling price determined based on the amount obtained by multiplying the market value of shares by the number of shares held, or value in use determined as the amount obtained by discounting the future cash flows calculated based on future projections, medium-term management plans, and other information for each asset group.

If new facts that affect these estimates arise in the future or in other such circumstances, additional impairment losses could be recognized.

Standards related to impairment of fixed assets are presented in the "Notes to the Consolidated Financial Statements" on p. 43.

(4) Assessment of recoverability of deferred tax assets

For the assessment of recoverability of deferred tax assets, future taxable income is determined based on reasonable estimates. The recoverability of deferred tax assets depends on estimates of future taxable income. Therefore, if the estimated amounts of future taxable income change, the recoverability of deferred tax assets could also change. In addition, the Company and its certain subsidiaries (the consolidated taxation group) have applied the consolidated taxation system. The recoverability of deferred tax assets is assessed based on estimates of the taxable income of the entire consolidated taxation group.

(5) Criteria for recognizing allowance for doubtful accounts

To prepare for credit losses from doubtful accounts, an allowance for doubtful accounts is recognized at the estimated unrecoverable amount based on the condition of borrowers in accordance with the Company's internal asset valuation regulation and write-off/provision rule.

If the financial condition of borrowers worsens and their solvency declines in the future, the Company could recognize an additional allowance or incur credit losses.

Criteria for recognizing allowance for doubtful accounts are presented in "Basis of Presenting the Consolidated Financial Statements" on p. 43.

(6) Reserve for outstanding claims

A reserve for outstanding claims is accumulated based on estimates of the amounts of insurance claims for which the Company is obligated to pay but not yet paid.

The recognized amount of the reserve for outstanding claims could change from the initially estimated amount in light of new facts that affect the estimates in the future.

(7) Policy reserves

Policy reserves are accumulated in order to prepare for payments of future obligations based on insurance policies.

The Company believes that reasonable assumptions are used in actuarial calculations for insurance. If the actuarial calculations are substantially different from the actual outcomes, or if the assumption needs to be revised, such change could affect the amount of policy reserves.

Policy reserves are described in "Basis of Presenting the Consolidated Financial Statements" on p. 43.

(8) Retirement benefit obligations and retirement benefit costs

Retirement benefit obligations and benefit costs are calculated based on the

expected rate of return on plan assets and the actuarial assumptions for calculating future retirement benefit obligations.

For this reason, if the actual outcomes differ from the assumptions, or if the assumptions are revised, the retirement benefit obligations and benefit

costs could change in the future.

Matters concerning the basis for calculating retirement benefit obligations and related items are presented in "Notes to the Consolidated Financial Statements" on p. 43.

2. Key Indicators for Operating Performance (Consolidated)

Billions of Yen					
Fiscal years ended March 31	2022	2021	2020	2019	2018
Total ordinary income	8,356.8	8,160.9	8,050.6	8,227.1	7,609.8

Net cash used in investing activities	(1,207.6)	(1,157.2)	(1,615.3)	(1,993.8)	(1,310.9)
Net cash provided by financing activities	158.7	274.6	250.8	148.3	170.9

Billions of Yen					
As of March 31	2022	2021	2020	2019	2018
Total assets	88,381.9	85,589.9	80,081.1	78,809.5	74,392.5
Total net assets	8,053.0	8,816.5	6,157.2	6,978.2	6,922.3
Solvency margin ratio (%)	1,120.3	1,075.0	1,047.5	997.3	968.0
Cash and cash equivalents at the end of the year	2,544.3	2,322.8	2,226.2	2,011.9	1,897.0
Number of consolidated subsidiaries and affiliates	15	15	15	12	11
Number of affiliates accounted for under the equity method	15	15	15	14	14
Number of employees (people)	92,737	95,352	92,122	89,198	86,394

Note: Number of employees represents the total number of employees of the Company and its consolidated subsidiaries, excluding employees seconded to other companies, at the fiscal year-end.

3. Status of Nonperforming Assets According to the Insurance Business Act (Consolidated)

Millions of Yen			
As of March 31	2022	2021	2020
Bankrupt and quasi-bankrupt loans	10,285	10,301	10,511
Doubtful loans	18,352	16,594	17,388
Loans that are delinquent for over three months	—	—	—
Restructured loans	1,771	2,635	1,563
Subtotal	30,409	29,531	29,463
[Ratio to total (%)]	[0.27]	[0.25]	[0.24]
Normal loans	11,386,093	11,916,685	12,444,652
Total	11,416,503	11,946,216	12,474,115

Notes: 1. For bankrupt and quasi-bankrupt loans, the estimated uncollectible amount calculated by subtracting the amount of collateral value, or the amount collectible by the execution of guarantees from the balance of loans, is directly deducted from the total loan amount. The estimated uncollectible amounts were ¥1,603 million, ¥3,784 million and ¥3,382 million as of March 31, 2022, 2021 and 2020, respectively.

2. Bankrupt and quasi-bankrupt loans are nonperforming assets and similar loans that have fallen into bankruptcy due to reasons, including initiation of bankruptcy proceedings, start of reorganization proceedings, or submission of an application to start rehabilitation proceedings.

3. Doubtful loans are nonperforming assets with a strong likelihood that loan principal cannot be recovered or interest cannot be received according to the contract because of difficulties in the financial condition and business performance of the debtor who has not yet entered into bankruptcy (excluding 2. in the note above).

4. Loans that are delinquent for over three months are loans with principal or interest unpaid for over three months beginning one day after the due date based on the loan agreement (excluding 2. and 3. in the notes above).

5. Restructured loans are loans that provide certain concessions favorable to the borrower with the intent of supporting the borrower's restructuring, such as by reducing or exempting interest, postponing principal or interest payments, releasing credits, or providing other benefits to the borrowers (excluding 2. to 4. in the notes above).

6. Normal loans are loans that do not fall under the classifications for 2. to 5. in the above notes and where the debtor has no financial or business performance problems.

7. Classifications and calculation methods used in this table are based on the Ordinance for Enforcement of the Insurance Business Act in Japan. The table includes loans, securities lending, accrued interest, suspense payments, customers' liability for acceptances and guarantees, and guaranteed private offering loans of financial institutions.

4. Fair Value of Derivative Transactions (Consolidated)

(1) Breakdown of net gains (losses) (with and without hedge accounting applied)

	Millions of Yen					
	Interest rate	Currencies	Equities	Bonds	Others	Total
As of March 31	2022					
Hedge accounting applied	(66,935)	(852,112)	6,712	—	—	(912,335)
Hedge accounting not applied	(759)	(70,383)	(6,678)	(1,420)	2,740	(76,500)
Total	(67,694)	(922,495)	34	(1,420)	2,740	(988,836)
As of March 31	2021					
Hedge accounting applied	25,567	(474,238)	(14,871)	—	—	(463,541)
Hedge accounting not applied	30,438	(34,494)	(4,644)	(195)	4,499	(4,397)
Total	56,006	(508,733)	(19,515)	(195)	4,499	(467,939)
As of March 31	2020					
Hedge accounting applied	108,331	(167,729)	11,972	—	—	(47,425)
Hedge accounting not applied	90,717	(39,973)	10,871	213	1,224	63,054
Total	199,049	(207,702)	22,844	213	1,224	15,628

Note: Net gains (losses) from fair value hedges included in net gains (losses) on derivative transactions to which hedge accounting is applied (for the year ended March 31, 2022, gain in currencies of ¥399,749 million and gain in equities of ¥6,712 million; for the year ended March 31, 2021, loss in currencies of ¥224,485 million and loss in equities of ¥14,871 million; and for the year ended March 31, 2020, gain in currencies of ¥30,532 million and gain in equities of ¥11,972 million), and net gains (losses) on those to which hedge accounting is not applied are recorded in the consolidated statements of income.

7. Segment Information

In the fiscal years ended March 31, 2021 and 2022, the Company and its consolidated subsidiaries* engaged in the insurance and insurance-related businesses (including the asset management-related business and general administration-related business) in Japan and overseas. Segment information and its related information are not presented because there are no other significant segments to report.

* Subsidiary is defined in Article 2 (12) of the Insurance Business Act and in Article 13-5-2 (3) of the Order for Enforcement of the Insurance Business Act in Japan.

The following information is provided for reference.

Domestic life insurance business (TAIJU LIFE INSURANCE COMPANY LIMITED)

(1) Business performance

In the fiscal year ended March 31, 2022, ordinary income amounted to ¥814.0 billion (¥844.9 billion in the fiscal year ended March 31, 2021), resulting mainly from the total of revenues from insurance and reinsurance of ¥498.6 billion, and investment income of ¥302.4 billion.

Meanwhile, ordinary expenses amounted to ¥774.5 billion (¥827.7 billion in the fiscal year ended March 31, 2021), resulting mainly from the total of benefits and other payments of ¥516.9 billion, provision for policy reserves of ¥78.3 billion, investment expenses of ¥66.0 billion, and operating expenses of ¥87.5 billion.

As a result, ordinary profit amounted to ¥39.4 billion, while net income was ¥0.7 billion (¥17.2 billion and ¥0.2 billion, respectively, in the fiscal year ended March 31, 2021).

In addition, core operating profit was ¥44.9 billion (¥32.0 billion in the fiscal year ended March 31, 2021). The reasons for this increase included an improved interest surplus reflecting increased dividends on domestic stocks, and an increase in mortality gains reflecting reversal of policy reserves with guaranteed minimum foreign currency-denominated insurance.

(2) Financial position

Total assets as of March 31, 2022, stood at ¥7,911.7 billion (¥7,964.3

billion as of March 31, 2021). The assets were mainly composed of investments in securities of ¥6,090.0 billion, loans of ¥943.4 billion, and real estate of ¥148.1 billion.

Total liabilities were ¥7,426.2 billion (¥7,381.0 billion as of March 31, 2021). Of this amount, policy reserves and other reserves were ¥6,586.7 billion.

In addition, total net assets were ¥485.5 billion (¥583.3 billion as of March 31, 2021). Of the components of total net assets, net unrealized gains on available-for-sale securities were ¥160.3 billion.

The solvency margin ratio, which indicates the surplus capacity available to make payments of claims and benefits, decreased 194.4 percentage points from the previous fiscal year-end to 980.8%.

(3) Policy sales

The amount of new policies for both individual insurance and individual annuities increased ¥95.0 billion, from ¥558.5 billion in the fiscal year ended March 31, 2021, to ¥653.6 billion. The amount of policies in force for both individual insurance and individual annuities decreased ¥762.2 billion, from ¥18,075.0 billion as of March 31, 2021, to ¥17,312.8 billion.

Annualized premiums for new policies for both individual insurance and individual annuities increased ¥5.1 billion, from ¥18.9 billion in the fiscal year ended March 31, 2021, to ¥24.1 billion. Annualized premiums for policies in force decreased ¥2.9 billion, from ¥514.7 billion as of March 31, 2021, to ¥511.8 billion.

Annualized premiums for new policies in third-sector insurance, such as medical coverage and living benefits, increased ¥2.3 billion, from ¥10.0 billion in the fiscal year ended March 31, 2021, to ¥12.4 billion. Annualized premiums for policies in force in third-sector insurance rose ¥1.7 billion, from ¥141.0 billion as of March 31, 2021, to ¥142.8 billion.

Amount of policies in force for group insurance decreased ¥145.7 billion, from ¥11,725.0 billion as of March 31, 2021, to ¥11,579.3 billion. Amount of policies in force for group annuities increased ¥0.7 billion, from ¥780.1 billion as of March 31, 2021, to ¥780.9 billion.

1. Amount of policies in force

As of March 31	Billions of Yen		
	2022	2021	2020
Individual insurance	15,306.1	15,970.8	16,514.3
Individual annuities	2,006.7	2,104.2	2,160.9
Individual insurance + Individual annuities	17,312.8	18,075.0	18,675.2
Group insurance	11,579.3	11,725.0	12,113.3
Group annuities	780.9	780.1	782.7

Notes: 1. The amount of individual annuities is the total of (a) annuity resources at the start of annuity payments for policies prior to the start of annuity payments and (b) policy reserves for policies after the start of annuity payments.

2. The amount of group annuities represents the amount of the policy reserves.

7. Segment Information, continued

2. Amount of new policies

	Billions of Yen		
Fiscal years ended March 31	2022	2021	2020
Individual insurance	654.4	541.1	703.4
Individual annuities	(0.8)	17.4	102.7
Individual insurance + Individual annuities	653.6	558.5	806.2
Group insurance	235.5	119.8	231.2
Group annuities	0.0	—	0.0

Notes: 1. For individual annuities for new policies and net increase by conversion, figures represent annuity resources at the start of annuity payments.
2. Figures for group annuities for new policies represent the first-time premium.

3. Annualized premiums for policies in force

	Billions of Yen		
As of March 31	2022	2021	2020
Individual insurance	399.8	397.9	396.0

Domestic life insurance business

(Nippon Wealth Life Insurance Company Limited)

(1) Business performance

In the fiscal year ended March 31, 2022, ordinary income amounted to ¥664.5 billion (¥521.1 billion in the fiscal year ended March 31, 2021). This resulted mainly from the total of revenues from insurance and reinsurance of ¥350.1 billion, and investment income of ¥306.8 billion.

Meanwhile, ordinary expenses amounted to ¥635.4 billion (¥439.7 billion in the fiscal year ended March 31, 2021). This resulted mainly from the total of benefits and other payments of ¥236.7 billion, provision for policy reserves of ¥284.4 billion, investment expenses of ¥68.2 billion, and operating expenses of ¥26.4 billion.

As a result, the ordinary profit amounted to ¥29.0 billion and net income was ¥19.3 billion (¥81.3 billion and ¥58.6 billion, respectively, in the fiscal year ended March 31, 2021).

The core operating profit amounted to ¥37.5 billion (¥29.0 billion in the fiscal year ended March 31, 2021), due to increased interest surplus.

(2) Financial position

Total assets as of March 31, 2022, stood at ¥3,447.0 billion (¥3,195.6 billion as of March 31, 2021). The assets were mainly composed of invest-

ments in securities of ¥3,053.8 billion.

Total liabilities were ¥3,309.1 billion (¥3,015.7 billion as of March 31, 2021). Of these liabilities, policy reserves and other reserves amounted to ¥3,048.1 billion.

Total net assets were ¥167.8 billion (¥179.9 billion as of March 31, 2021).

The solvency margin ratio, which indicates the surplus capacity available to make payments of claims and benefits, decreased 81.8 percentage points from the previous fiscal year-end to 738.8%.

(3) Policy sales

The amount of new policies for both individual insurance and individual annuities increased ¥114.9 billion, from ¥247.8 billion in the fiscal year ended March 31, 2021, to ¥362.8 billion. The amount of policies in force for both individual insurance and individual annuities increased ¥241.6 billion, from ¥3,167.7 billion as of March 31, 2021, to ¥3,409.4 billion.

Annualized premiums for new policies for both individual insurance and individual annuities increased ¥15.4 billion, from ¥72.9 billion in the fiscal year ended March 31, 2021, to ¥88.3 billion. Annualized premiums for policies in force increased ¥24.6 billion, from ¥247.3 billion as of March 31, 2021, to ¥272.0 billion.

7. Segment Information, continued

1. Amount of policies in force

	Billions of Yen		
As of March 31	2022	2021	2020
Individual insurance	1,335.1	1,323.5	1,415.6

Domestic life insurance business

(HANASAKU LIFE INSURANCE Co., Ltd.)

(1) Business performance

In the fiscal year ended March 31, 2022, ordinary income amounted to ¥13.7 billion (¥6.8 billion in the fiscal year ended March 31, 2021), due to revenues from insurance and reinsurance.

Meanwhile, ordinary expenses amounted to ¥33.4 billion (¥23.0 billion in the fiscal year ended March 31, 2021). This resulted mainly from the total of benefits and other payments of ¥3.1 billion, provision for policy reserves of ¥7.0 billion, and operating expenses of ¥19.1 billion.

As a result, the ordinary loss amounted to ¥19.6 billion and net loss was ¥14.6 billion (¥16.2 billion and ¥12.1 billion, respectively, in the fiscal year ended March 31, 2021).

In addition, core operating loss was ¥18.9 billion (¥15.9 billion loss in the fiscal year ended March 31, 2021).

(2) Financial position

Total assets as of March 31, 2022, stood at ¥59.5 billion (¥65.9 billion as of March 31, 2021). The assets were mainly composed of deposits of ¥21.7 billion, investments in securities of ¥11.2 billion, and monetary receivables purchased of ¥10.0 billion.

Total liabilities were ¥16.0 billion (¥7.7 billion as of March 31, 2021). Of these liabilities, policy reserves and other reserves amounted to ¥12.2

billion.

Total net assets were ¥43.5 billion (¥58.2 billion as of March 31, 2021).

The solvency margin ratio, which indicates the surplus capacity available to make payments of claims and benefits, decreased 10,347.6 percentage points from the previous fiscal year-end to 6,993.0%.

(3) Policy sales

The amount of new policies for both individual insurance and individual annuities increased ¥658.5 billion, from ¥99.4 billion in the fiscal year ended March 31, 2021, to ¥757.9 billion. The amount of policies in force for both individual insurance and individual annuities increased ¥730.2 billion, from ¥107.1 billion as of March 31, 2021, to ¥837.4 billion.

Annualized premiums for new policies for both individual insurance and individual annuities increased ¥2.7 billion, from ¥5.1 billion in the fiscal year ended March 31, 2021, to ¥7.8 billion. Annualized premiums for policies in force increased ¥6.9 billion, from ¥8.5 billion as of March 31, 2021, to ¥15.5 billion.

Annualized premiums for new policies in third-sector insurance such as medical and survival benefits coverage increased ¥1.3 billion, from ¥4.3 billion in the fiscal year ended March 31, 2021, to ¥5.6 billion. Annualized premiums for policies in force in third-sector insurance increased ¥4.9 billion, from ¥7.7 billion as of March 31, 2021, to ¥12.6 billion.

Overseas insurance business (MLC Limited)

The business results of MLC Limited are presented below in Australian dollars, its local currency.

(1) Business performance

In the fiscal year ended December 31, 2021, ordinary income amounted to AU\$2,448 million (AU\$2,322 million in the fiscal year ended December 31, 2020). This resulted from the total of revenues from insurance and reinsurance of AU\$2,196 million (AU\$2,173 million in the fiscal year ended December 31, 2020), investment income of AU\$38 million (AU\$141 million in the fiscal year ended December 31, 2020), reversal of policy reserves of AU\$208 million (provision for policy reserves of AU\$298 million in the fiscal year ended December 31, 2020), and other ordinary income of AU\$4 million (AU\$6 million in the fiscal year ended December 31, 2020).

Meanwhile, ordinary expenses amounted to AU\$2,442 million (AU\$2,744 million in the fiscal year ended December 31, 2020). This resulted from the total of benefits and other payments of AU\$1,667 million (AU\$1,699 million in the fiscal year ended December 31, 2020), investment expenses of AU\$12 million (AU\$5 million in the fiscal year ended December 31, 2020), operating expenses of AU\$672 million (AU\$685 million in the fiscal year ended

December 31, 2020), and other ordinary expenses of AU\$89 million (AU\$54 million in the fiscal year ended December 31, 2020).

As a result, ordinary profit amounted to AU\$6 million (ordinary loss of AU\$422 million in the fiscal year ended December 31, 2020). The net income was AU\$2 million (net loss of AU\$304 million in the fiscal year ended December 31, 2020).

(2) Financial position

Total assets as of December 31, 2021, stood at AU\$7,339 million (AU\$7,508 million as of December 31, 2020). The assets were mainly composed of financial assets of AU\$5,701 million (AU\$5,807 million as of December 31, 2020), loans and other receivables of AU\$290 million (AU\$307 million as of December 31, 2020), and intangible fixed assets of AU\$199 million (AU\$267 million as of December 31, 2020).

Total liabilities were AU\$4,518 million (AU\$4,689 million as of December 31, 2020). Of these, policy reserves and other reserves amounted to AU\$4,074 million (AU\$4,282 million as of December 31, 2020).

In addition, total net assets were AU\$2,821 million (AU\$2,818 million as of December 31, 2020).

8. Research and Development Activities

There were no applicable activities during the fiscal years ended March 31, 2022, 2021, and 2020.

9. Selected Financial Data for Major Operations over the Past Five Fiscal Years

	Billions of Yen

Number of employees (people)	74,633	76,792	74,557	73,260	71,871
Negative spread* ⁷	—	—	—	—	—

*¹ Dividend reserves as a percentage of surplus available for disposition refer to the percentage of the amount calculated according to Article 30-4 of the Ordinance for Enforcement of the Insurance Business Act and include the total of provisions for reserve for dividends to policyholders and the equalized reserve for dividends to policyholders. The percentage, according to Article 30-6 of the same regulation is 20% or more. For the calculation of this percentage, the denominator is defined as the unappropriated surplus less surplus carried forward from the previous fiscal year and certain other items.

*² Equity is defined as the sum of foundation funds (*kikin*), reserves, and subordinated debts.

*³ Total foundation funds (*kikin*) include the reserve for redemption of foundation funds.

*⁴ The amount of policies in force comprises the total of individual insurance, individual annuities, and group insurance policies in force. Individual annuities comprise the total amount of annuity resource at the start of annuity payments for policies prior to the start of annuity payments and policy reserves for policies after the start of annuity payments.

*⁵ The amount of policies in force for group annuities is the amount of policy reserves.

*⁶ Company members of a mutual company refer to participating insurance policyholders.

*⁷ There was no negative spread for the fiscal years ended March 31, 2018 through 2022.

10. Status of Nonperforming Assets According to the Insurance Business Act

	Millions of Yen		
As of March 31	2022	2021	2020
Bankrupt and quasi-bankrupt loans	10,274	10,308	10,523
Doubtful loans	18,303	16,511	17,067
Loans that are delinquent for over three months	—	—	—
Restructured loans	1,767	2,635	1,563
Subtotal	30,345	29,456	29,155
[Ratio to total (%)]	[0.31]	[0.28]	[0.27]
Normal loans	9,659,055	10,338,632	10,945,411
Total	9,689,401	10,368,089	10,974,566

Notes: 1. For bankrupt and quasi-bankrupt loans, the estimated uncollectible amount calculated by subtracting the amount of collateral value, or the amount collectible by the execution of guarantees from the balance of loans, is directly deducted from the total loan amount. The estimated uncollectible amounts were ¥586 million, ¥2,514 million, and ¥2,106 million as of March 31, 2022, 2021, and 2020, respectively.

2. Bankrupt and quasi-bankrupt loans are nonperforming assets and similar loans that have fallen into bankruptcy due to reasons, including initiation of bankruptcy proceedings, start of reorganization proceedings, or submission of an application to start rehabilitation proceedings.

3. Doubtful loans are nonperforming assets with a strong likelihood that loan principal cannot be recovered or interest cannot be received according to the contract because of difficulties in the financial condition and business performance of the debtor who has not yet entered into bankruptcy (excluding 2. in the notes above).

4. Loans that are delinquent for over three months are loans with principal or interest unpaid for over three months counting from the day after the due date based on the loan agreement (excluding 2. and 3. in the notes above).

5. Restructured loans are loans that provide certain concessions favorable to the borrower with the intent of supporting the borrower's restructuring, such as by reducing or exempting interest, postponing principal or interest payments, releasing credits, or providing other benefits to the borrowers (excluding 2. to 4. in the notes above).

6. Normal loans are loans that do not fall under the classifications for 2. to 5. in the above notes and where the debtor has no financial or business performance problems.

7. Classifications and calculation methods used in this table are based on the Ordinance for Enforcement of the Insurance Business Act in Japan. The table includes loans, securities lending, accrued interest, suspense payments, customer's liability for acceptances and guarantees, and guaranteed private offering loans of financial institutions.

11. Status of Loans in Trust from Contract for Replacement of Loss

There were no ending balances as of March 31, 2022, 2021, and 2020.

12. Ability to Pay Benefits (Solvency Margin Ratio)

		Millions of Yen		
As of March 31		2022	2021	2020
Solvency margin gross amount	(A)	18,001,132	17,717,439	13,865,444

Foundation funds and others	1	1,773,581	1,618,924	1,569,008
Reserve for price fluctuations in investments in securities	2	1,590,233	1,521,916	1,448,014
Contingency reserve	3	2,060,657	2,044,663	1,878,267
General allowance for doubtful accounts	4	1,912	5,424	1,035
Others	10	237,476	241,878	247,318
Net unrealized gains on available-for-sale securities (before tax) and deferred losses on derivatives under hedge accounting (before tax) × 90%	5	7,207,844	8,042,164	5,025,159
Net unrealized gains on real estate × 85%	6	549,898	503,035	479,243
Excess of continued Zillmerized reserve	7	2,460,845	1,973,928	1,697,908
Qualifying subordinated debt	8	2,140,305	1,841,512	1,545,320
Excess of continued Zillmerized reserve and qualifying subordinated debt not included in margin calculations		—	—	—
Deductions	9	(108,858)	(105,201)	(55,023)
Others	10	87,236	29,191	29,191
Total amount of risk $\sqrt{(R_1+R_8)^2 + (R_2+R_3+R_7)^2} + R_4$	(B)	3,397,260	3,516,976	2,831,718
Underwriting risk	R ₁	110,956	114,185	115,290
Underwriting risk of third-sector insurance	R ₈	91,188	88,290	85,115
Anticipated yield risk	R ₂	267,095	321,151	348,663
Minimum guarantee risk	R ₇	5,315	5,378	5,620
Investment risk	R ₃	3,048,246	3,111,675	2,410,869
Business management risk	R ₄	70,456	72,813	59,311
Solvency margin ratio (%) $\frac{(A)}{(1/2) \times (B)} \times 100$		1,059.7	1,007.5	979.2

Notes: 1. The amounts and figures in the table above are calculated based on the provisions of Article 86 and Article 87 of the Ordinance for Enforcement of the Insurance Business Act and the Ministry of Finance Public Notice No. 50 of 1996 in Japan.

2. The standard method is used for the calculation of the amount equivalent to minimum guarantee risk.

- Foundation Funds and Other Reserve Funds
The amount after excluding estimated distributed income from surplus (i.e., interest on foundation funds and provision for reserve for dividends to policyholders), valuations, and conversions from total net assets in the balance sheets.
- Reserve for Price Fluctuations in Investments in Securities
The amount of the reserve for price fluctuations in investments in securities in the balance sheets.
- Contingency Reserve
The amount of the contingency reserve, which is a part of policy reserves in the balance sheets.
- General Allowance for Doubtful Accounts
The amount of the general allowance for doubtful accounts, listed as allowance for doubtful accounts in the balance sheets.
- Net Unrealized Gains on Available-for-Sale Securities (Before Tax) and Deferred Losses on Derivatives Under Hedge Accounting (Before Tax)
The amount calculated by multiplying the total of net unrealized gains on available-for-sale securities and deferred losses on derivatives under hedge accounting (portion related to available-for-sale securities) in the balance sheets before application of tax effect accounting by 90% when the total amount is positive, or by 100% when it is negative.
- Net Unrealized Gains on Real Estate
The amount multiplied by 85% if the difference between the total fair value of real estate and the total book value is positive, and multiplied by 100% if the difference is negative. The difference between the fair value and the book value of real estate includes land revaluation losses in the balance sheets and the total deferred tax liabilities for land revaluation in the balance sheets.
- Excess of Continued Zillmerized Reserve
The amount that exceeds either the continued Zillmerized reserve or the amount of surrender benefits out of policy reserves (excluding the contingency reserve) in the balance sheets, whichever is greater.
- Qualifying Subordinated Debt
The amount needed to satisfy the necessary conditions into the amount of financing by issuance of subordinated debt or by borrowing or subordinated debt.
- Deductions
Deductions to improve the ability to pay, for example, the insurance claims of other insurance companies and to raise the capital adequacy ratio of subsidiaries (when banks are made into subsidiaries) when the shares and other means of capital procurement of the other insurance companies or subsidiaries are held intentionally by enabling the deduction of the amount of those means of capital procurement from the solvency margin ratio.
- Others
The total amount of a part of dividend reserves in the balance sheets and tax amounts corresponding to contingency funds under net assets.
- Underwriting Risk
The amount for dealing with underwriting risk (risk of actual insurable incidents occurring at a higher frequency than generally expected that applies to third-sector insurance).
- Underwriting Risk of Third-Sector Insurance
The amount for dealing with underwriting risk of third-sector insurance (risk of actual insurable incidents occurring at a higher frequency than generally expected that applies to third-sector insurance).
- Anticipated Yield Risk
The amount for dealing with anticipated yield risk (risk of not being able to secure anticipated yield that serves as the basis for calculating policy reserves).
- Minimum Guarantee Risk
The amount for dealing with minimum guarantee risk (in insurance policies in the separate accounts, those policies that guarantee a minimum amount of insurance benefits, the risk that said insurance policies and the value of assets belonging to the separate accounts when paying said insurance benefits will fall below the amount of minimum guaranteed insurance benefits, and the risk arising from greater-than-expected price fluctuations for assets belonging to said special accounts).
- Investment Risk
The amount for dealing with investment risk (in risks related to investments, those risks arising from reasons other than more than generally expected price fluctuations of held securities and other assets).
- Business Management Risk
The amount for dealing with business management risk (regarding risks arising at a greater-than-expected frequency, those risks that do not fall under the category of underwriting risk, underwriting risk of third-sector insurance, anticipated yield risk, minimum guarantee risk, and investment risk are included in this category).

Status of Foundation Funds (Kikin) and Subordinated Debts

Foundation Funds (Kikin) Status

The Company solicits foundation funds in order to enhance its ability to respond to risks. As a result of reoffering funds 15 times since revisions were made to the Insurance Business Act in 1996 in Japan, its total foundation funds, including funds and the reserve for redemption of foundation funds, reached ¥1,450 billion as of March 31, 2022.

● Fund Contributors (as of March 31, 2022)

Amount of Fund Contributions	¥100 billion	Number of Fund Contributors	2
Names of Fund Contributors	Fund Contributions to the Company		
	Amount (Billions of Yen)	Fund contribution (%)	
Nissay 2019 Fund Securitization Company Limited	50	50.00	
Nissay 2021 Fund Securitization Company Limited	50	50.00	

Notes: 1. Nissay 2019 Fund Securitization Company Limited and Nissay 2021 Fund Securitization Company Limited issue corporate bonds, backed by claims on the funds. Issuance proceeds are used to purchase claims on the funds. The Company does not obtain shares of common stock of Nissay 2019 Fund Securitization Company Limited and Nissay 2021 Fund Securitization Company Limited.
2. Fund contributors are the two entities above.

● Fund Redemption

*1 As stipulated by the Insurance Business Act in Japan, the minimum fund amount is ¥1 billion.

*2 In accordance with Article 56 of the Insurance Business Act in Japan, when redeeming the fund, an amount equivalent to the redemption amount must be accumulated as a reserve for redemption of foundation funds. Reserve for fund redemption is a voluntary reserve and it is transferred to reserve for redemption of foundation funds (kikin) when the foundation funds (kikin) are redeemed.

*3 The redemption of ¥150 billion of reserve for fund redemption expected to occur between the fiscal year ended March 31, 2000, and the fiscal year ended March 31, 2002, was completed earlier than expected.

Subordinated Debts Status

● Financing through Subordinated Debts (as of July 1, 2022)

13. Data on Fair Value of Securities (Company Total), continued

Policy-reserve-matching bonds

The Company has established the following target portfolios that correspond to specific types of insurance products:

- Regarding single premium products (single premium endowment, single premium annuities, and single premium whole life insurance) and guaranteed fixed-term rate group annuities, the Company has established an Asset/Liability Management (ALM) portfolio that aims to avoid interest fluctuation risk by predicting future cash flows from debts.
- In terms of other types of insurance, the Company has established an ALM portfolio that has a goal of expanding long-term future revenue by evaluating debt characteristics and by operating within a specific range of risk allowance.

Given the characteristics of these insurance products and the type of investment, the Company has specified and subcategorized the following insurance policies based on "Temporary Treatment of Accounting and Auditing Concerning Policy-reserve-matching Bonds in the Insurance Industry" (Japan Institute of Certified Public Accountants Industry Audit Committee Release No. 21):

- All insurance policies for other than single premium products and group annuities
- All insurance policies for single premium products (denominated in yen) other than variable assumed rate-type insurance
- All insurance policies for group annuities other than guaranteed fixed-term rate products
- All single premium products (denominated in U.S. dollars) other than the foregoing
- All single premium products (denominated in Australian dollars) other than the foregoing
- All single premium products (denominated in euros) other than the foregoing

Concerning bonds held for the purpose of controlling the respective duration (level of market price fluctuations against fluctuations in interest rates) of bonds that fit into these subcategories, the Risk Management Committee regularly assesses that the policy reserves and the duration are generally consistent. Based on such assessment, the Company classifies most Japanese yen-based debt securities as policy-reserve-matching bonds.

16. Equity Securities Held

1. Basis and policy on classification of investments in equity securities

Nippon Life invests in equity securities from medium- and long-term perspectives with the expectation of generating steady dividend income and capital gains in association with investee companies' growth. These investments are held as investments in equity securities held for net investment. In addition, the Company may use its equity to hold equity securities with the intent of expanding the Group's growth opportunities through business alliances and strengthening its profitability. These equity securities are held as investments in equity securities held for other than net investment.

2. Investments in equity securities held for other than net investment

(1) Methods to verify reasonableness of holding

The Board of Directors verifies whether holdings are appropriate by examining in detail the appropriateness of the holding purpose of each individual stock and comprehensive profit, including the effects of factors, such as business alliances, based on the amount of risk, among other considerations. If the Board of Directors does not find that a holding is appropriate

or reasonable as a result of this verification process, it will consider response measures such as the sale of the holding.

(2) Details of verification by the Board of Directors, etc. regarding the appropriateness of holding individual stocks

The Company confirmed the appropriateness of all stocks held for the purpose of expanding the Group's growth opportunities and enhancing profitability through business alliances and other means. With regard to the benefits associated with holding these stocks, the Company compared short-term and long-term profitability with internally established criteria and confirmed that more than 90% of the stocks meet these criteria (verification carried out in May 2022).

In view of anticipated alliance benefits, the Company will also continue to hold certain stocks that fail to meet its holding benefits criteria. However, where the appropriateness of holding the stock and the reasonableness of the benefits associated with it can no longer be confirmed, the Company will consider selling the stock.

Millions of Yen

Notes: 1. New policies include enrollment using the coverage enhancement system, and conversion indicates enrollment using the coverage revision system and partial coverage revision system.

2. The amount for new policies for individual annuities represents annuity resources at the start of annuity payments.

3. Figures in brackets for group insurance are amounts that include premium increases and the net increase in premiums from midterm enrollments and withdrawals.

4. Figures for group annuities for new policies represent the first-time premium.

19. Annualized Premiums

1. Policies in force

Millions of Yen						
As of March 31	2022		2021		2020	
	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)
Individual insurance	2,644,471	(0.2)	2,649,240	(1.9)	2,700,179	(1.4)
Individual annuities	1,125,625	3.4	1,088,993	2.6	1,061,681	5.2
Total	3,770,097	0.9	3,738,233	(0.6)	3,761,860	0.4
Medical coverage, living benefits, and others	674,088	1.5	663,800	1.0	657,140	3.0

Notes: 1. The amount of annualized premium is the annual premium amount calculated by multiplying a single premium payment by a factor according to the premium payment method (for single premium, the annualized amount is the total premium divided by the insured period).

2. The amount of medical coverage, living benefits, and others represents annualized premiums related to medical benefits (hospitalization benefits and surgical benefits), living benefits (specified illness benefits and nursing care benefits), and waiver of premium benefits (excluding disability benefits alone, but including specified illness and nursing care benefits).

2. New policies

Millions of Yen						
Fiscal years ended March 31	2022		2021		2020	
	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)
Individual insurance	185,734	27.5	145,623	(10.3)	162,414	(34.0)
Individual annuities	88,211	37.1	64,357	(26.9)	88,027	35.1
Total	273,945	30.5	209,981	(16.2)	250,442	(19.5)
Medical coverage, living benefits, and others	49,518	14.7	43,178	(24.3)	57,003	21.1

Notes: 1. The amount of annualized premium is the annual premium amount calculated by multiplying a single premium payment by a factor according to the premium payment method (for single premium, the annualized amount is the total premium divided by the insured period).

2. The amount of medical coverage, living benefits, and others represents annualized premiums related to medical benefits (hospitalization benefits and surgical benefits), living benefits (specified illness benefits and nursing care benefits), and waiver of premium benefits (excluding disability benefits alone, but including specified illness and nursing care benefits).

3. Annualized new policy premium includes net increases due to conversions.

- Notes: 1. Term life insurance includes group-type term life insurance.
2. Whole life insurance includes comprehensive whole life insurance.
3. Term rider includes juvenile term life insurance riders and spouse term life insurance riders.
4. Term life with survival benefits insurance includes BIG YOU and Melody.
5. Policies for term rider, multi-increase endowment rider, term rider with survival benefit, and life insurance for dependents of disabled are not included in the subtotals.
6. The number of policies for group insurance, group annuities, workers' asset-formation insurance, workers' asset-formation annuities, medical life insurance, disability income insurance, and reinsurance assumed represents the number of insured persons.
7. Amounts for individual annuities, group insurance (annuities rider), and workers' asset-formation annuities (excluding workers' asset-formation funding annuities) represent the total of annuity resources at the start of annuities for policies prior to the start of annuity payments and policy reserves for policies after the start of annuity payments.
8. Amounts for group annuities, workers' asset-formation insurance, and workers' asset-formation funding annuities are amounts for policy reserves.
9. Amounts for medical life insurance represent daily hospitalization benefits.
10. Amounts for disability income insurance represent monthly disability income insurance benefits.

Notes: 1. Amounts in brackets represent additional coverage and rider coverage attached to primary policies. However, death protection due to illness/accident of term riders is recorded under primary coverage.

2. Amounts for maturity and survival benefits of pure endowment represent annuity resources at the start of annuity payments for policies prior to the start of annuity payments for individual annuities and group insurance [annuities rider].

3. Amounts for annuity of pure endowment represent annual annuity amounts.

4. Amounts for other of pure endowment represent policy reserves for individual annuities (after start of annuity payments), group insurance (after start of annuities rider payments), and group annuities.

5. Amounts for hospitalization coverage represent daily hospitalization benefits. General hospitalization insurance and income support insurance for extended hospital stays represent the coverage per day.

6. Amounts for "total, including other types" included in coverage for hospitalization due to illness under hospitalization coverage represent the total of primary coverage portions and rider coverage.

22. Amount of Policies in Force by Type of Benefits, continued

As of March 31		2022	2021	2020
				Number of Policies

Disability income insurance	1,617,180	10.8	1,459,822	31.1	1,113,116	9.5

Note: The number of policies for group insurance, group annuities, workers' asset-formation insurance, workers' asset-formation annuities, medical life insurance, and disability income insurance represents the number of insured persons.

2. Amount of insurance policies in force and rate of increase

Fiscal years ended March 31	2022		2021		2020	
	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)
Individual insurance	127,487.6	(1.7)	129,693.6	(2.1)	132,506.5	(2.1)
Mortality insurance	107,906.5	(3.1)	111,393.0	(3.5)	115,486.1	(3.7)
Life and mortality insurance	18,486.8	7.1	17,266.4	7.5	16,063.8	10.6
Pure endowment	1,094.2	5.8	1,034.1	8.1	956.5	8.6
Individual annuities	25,905.1	3.0	25,148.3	1.4	24,812.8	3.7
Group insurance	98,261.3	(0.5)	98,779.1	0.9	97,889.4	0.8
Group annuities	13,895.3	1.8	13,649.0	2.0	13,387.1	1.6
Workers' asset-formation insurance	340.1	(0.4)	341.3	0.4	340.0	0.1
Workers' asset-formation annuities	98.9	(4.0)	102.9	(3.5)	106.7	(3.5)
Medical life insurance	3.7	(0.5)	3.7	0.8	3.6	1.1
Disability income insurance	59.5	3.9	57.3	3.0	55.7	15.0

Notes: 1. Amounts for individual annuities, group insurance (annuities rider), and workers' asset-formation annuities (excluding workers' asset-formation funding annuities) are the total of annuity resources at the start of annuity payments for policies prior to the start of annuity payments and policy reserves for policies after the start of annuity payments.
2. Amounts for group annuities, workers' asset-formation insurance, and workers' asset-formation annuities (excluding workers' asset-formation funding annuities) are amounts for policy reserves.
3. Amounts for medical life insurance represent daily hospitalization benefits.
4. Amounts for disability income insurance represent monthly disability income insurance benefits.

26. Increase in New Policies

1. Number of new policies and rate of increase

Fiscal years ended March 31	2022		2021		2020	
	Policies	Rate of increase (decrease) (%)	Policies	Rate of increase (decrease) (%)	Policies	Rate of increase (decrease) (%)
Individual insurance	1,887,443	15.5	1,633,637	(22.1)	2,097,495	(4.6)
Mortality insurance	1,470,657	20.7	1,218,346	(24.6)	1,615,671	2.0
Life and mortality insurance	390,109	1.6	383,981	(14.8)	450,465	(22.7)
Pure endowment	26,677	(14.8)	31,310	(0.2)	31,359	0.0
Individual annuities	269,705	37.7	195,860	(26.7)	267,187	20.8
Group insurance	98,851	31.6	75,110	(3.3)	77,650	(35.3)
Group annuities	1,310	—	—	—	249	(96.9)
Workers' asset-formation insurance	1,377	(15.6)	1,632	(20.2)	2,045	(6.2)
Workers' asset-formation annuities	512	(19.9)	639	(13.6)	740	(9.2)
Medical life insurance	2,184	(18.9)	2,694	(19.7)	3,356	(94.9)
Disability income insurance	1,558,981	16.2	1,341,372	32.5	1,012,510	12.4

Notes: 1. The number of policies represents the number of insured persons for group insurance, group annuities, workers' asset-formation insurance, workers' asset-formation annuities, medical life insurance, and disability income insurance.
2. The policies above exclude converted policies.

2. Amount of new policies and rate of increase

Fiscal years ended March 31	2022		2021		2020	
	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)	Amount	Rate of increase (decrease) (%)
Individual insurance	6,299.6	11.7	5,641.3	(11.5)	6,374.9	(8.1)
Mortality insurance	4,004.7	13.3	3,536.1	(9.9)	3,924.5	(4.2)
Life and mortality insurance	2,219.1	10.1	2,016.2	(14.7)	2,362.3	(14.3)
Pure endowment	75.7	(14.9)	89.0	1.1	88.0	0.7
Individual annuities	2,048.2	40.5	1,458.0	(27.7)	2,016.6	34.5
Group insurance	216.9	(19.8)	270.4	35.1	200.1	(65.6)
Group annuities	0.1	(92.9)	2.0	665.7	0.2	(54.6)
Workers' asset-formation insurance	0.2	(9.3)	0.2	(0.5)	0.2	4.3
Workers' asset-formation annuities	0	4.3	0.0	17.6	0.0	(1.2)
Medical life insurance	0	7.1	0.0	(32.2)	0.0	(75.0)
Disability income insurance	42.1	16.8	36.0	4.6	34.4	30.8

Notes: 1. Amounts for individual annuities are annuity resources at the start of annuity payments.
2. Amounts for group annuities, workers' asset-formation insurance, and workers' asset-formation annuities represent the first-time premium.
3. Amounts for medical life insurance are daily hospitalization benefits.
4. Amounts for disability income insurance are monthly disability income insurance benefits.
5. The policies above exclude converted policies.

27. Average Policy Coverage (Individual Insurance)

Fiscal years ended March 31	Average policy coverage of new policies			Average policy coverage of policies in force		
	2022	2021	2020	2022	2021	2020
Mortality insurance	2,723	2,902	2,429	4,115	4,329	4,535
Life and mortality insurance	5,688	5,250	5,244	4,801	4,812	4,896
Pure endowment	2,839	2,843	2,808	2,631	2,615	2,594
Average	3,337	3,453	3,039	4,181	4,364	4,551

Note: Average policy coverage for new policies excludes converted policies.

28. Percentage of New Policies (Compared to the Beginning of the Fiscal Year)

%			
Fiscal years ended March 31	2022	2021	2020
Individual insurance	4.9	4.3	4.7
Individual annuities	8.9	6.4	9.2
Group insurance	0.2	0.3	0.2

Notes: 1. The policies above exclude converted policies.

2. For individual annuities, the ratio of policies prior to start of annuity payments is provided.

29. Rate of Cancellation and Expiration (Compared to the Beginning of the Fiscal Year)

%			
Fiscal years ended March 31	2022	2021	2020
Individual insurance	4.9	4.8	5.1
Individual annuities	2.9	2.7	2.9
Group insurance	1.5	0.7	1.1

Notes: 1. The rate of cancellation and expiration is determined by adjusting cancellations and expirations based on increases or decreases in policies and policy reinstatements.

2. For individual annuities, the percentage of policies prior to the start of annuity payments is provided.

30. Average New Policy Premium (Individual Insurance Policies with Monthly Payments)

Yen			
Fiscal years ended March 31	2022	2021	2020
Average premium of new individual policies (monthly payment policies)	47,180	43,450	39,318

Notes: 1. Amounts exclude converted policies.

2. Amounts represent policies with annualized monthly payments.

31. Mortality Rate (Primary Individual Insurance Policies)

‰			
Fiscal years ended March 31	2022	2021	2020
Number of policies	4.04	3.81	3.67
Insurance amount	5.86	5.52	5.26

Notes: 1. Mortality rate is the rate that is calculated by having mortality incidence policies as the numerator and outstanding policies as the denominator.

2. Outstanding policies are calculated by adding the policies at the start of the fiscal year, policies at the end of the fiscal year, and mortality incidence policies, and then dividing the total by two.

3. Mortality includes serious disability when the contract insures for that event. (When serious disability is not covered by the contract, serious disability is not included in mortality.)

32. Incidence of Events Covered by Riders (Individual Insurance)

Fiscal years ended March 31	2022		2021		2020	
	Ratio of the number of policies	Ratio of the amount of claims on policies	Ratio of the number of policies	Ratio of the amount of claims on policies	Ratio of the number of policies	Ratio of the amount of claims on policies
Accidental death	0.516	0.257	0.375	0.250	0.333	0.299
Disability	0.511	0.188	0.533	0.198	0.503	0.194
Hospitalization due to accident	6.685	157.3	6.388	150.9	6.692	153.2
Hospitalization due to illness	92.575	1,772.5	73.563	1,261.7	77.323	1,261.9
Hospitalization due to adult disease	26.599	455.5	23.336	425.3	21.441	382.3
Surgery due to illness or injury	63.266		62.846		69.107	
Surgery due to adult disease	24.601		22.821		21.880	

Notes: 1. Incidence of the events covered by riders is the rate that is calculated by having incidence of events covered by riders as the numerator and outstanding policies as the denominator.

2. Outstanding policies for accidental death insurance are calculated by adding the policies at the start of the fiscal year, at the end of the fiscal year, and at the incidence of accidental death, and then dividing the total by two. For policies other than accidental death insurance, amounts are calculated by adding the policies at the start of the fiscal year and at the end of the fiscal year, and then dividing the total by two.

3. Accidental death includes serious disability due to accident.

33. Ratio of Insured Amount to Premium Earned by Type of Third-sector Insurance Benefits or Type of Insurance

	%		
Fiscal years ended March 31	2022	2021	2020
Third-sector incidence rate	34.2	31.4	32.8
Medical care	40.1	34.8	37.4
Cancer	33.1	32.2	32.9
Nursing care	21.1	20.1	18.3
Others	27.0	26.8	27.9

Note: The third-sector incidence rate is calculated by dividing the sum of payments for insured incidents (i.e., payments, such as claims and benefits, matching provision for reserve for outstanding claims [excluding past unreported incidents as defined in Article 72 of the Ordinance for Enforcement of Insurance Business Act in Japan], and total operating expenses related to payments such as claims and benefits) by earned premiums.

34. Operating Expenses Percentage (Ratio of Operating Expenses to Premium Revenues)

	%		
Fiscal years ended March 31	2022	2021	2020
Operating efficiency (percentage of operating expenses to premium revenues)	13.3	13.5	13.2

35. Number of Major Insurance Companies that Accepted Reinsurance Contracts

	Number of Insurance Companies		
Fiscal years ended March 31	2022	2021	2020
Number of major insurance companies accepting reinsurance	13 [—]	13 [—]	13 [—]

Notes: 1. Insurance companies and others to which the Company has paid reinsurance premiums are included in the above table.

2. Figures in brackets indicate third-sector insurances (including only policies for which policy reserves are not recorded as provided by Article 71 of the Ordinance for Enforcement of the Insurance Business Act in Japan).

36. Ratio of Reinsurance Premiums Paid to the Top Five Insurance Companies Accepting Reinsurance to Total Reinsurance Premiums

	%		
Fiscal years ended March 31	2022	2021	2020
Ratio of reinsurance premiums paid to the top five insurance companies	82.3 [—]	78.7 [—]	80.2 [—]

Notes: 1. Insurance companies and others to which the Company has paid reinsurance premiums are included.

2. Figures in brackets indicate third-sector insurances (including only policies for which policy reserves are not recorded as provided by Article 71 of the Ordinance for Enforcement of the Insurance Business Act in Japan).

37. Ratio of Insurance Companies Accepting Reinsurance Contracts by Rating by Rating Agencies

	%		
Fiscal years ended March 31	2022	2021	2020
A and above	99.8 [—]	99.8 [—]	100.0 [—]
BBB and above, but below A	— [—]	— [—]	— [—]
Others (below BBB or no rating)	0.2 [—]	0.2 [—]	— [—]

Notes: 1. The rating above is based on data compiled by Standard & Poor's Financial Services LLC (S&P). When no rating was available from S&P, such insurance companies are classified as "Others."

2. Figures in brackets indicate third-sector insurances (including only policies for which policy reserves are not recorded as provided by Article 71 of the Ordinance for Enforcement of the Insurance Business Act in Japan).

38. Reinsurance Proceeds to Be Received

	Millions of Yen		
Fiscal years ended March 31	2022	2021	2020
Reinsurance proceeds to be received	104 [—]	157 [—]	137 [—]

Note: Figures in brackets indicate proceeds from third-sector insurances (which include only policies for which policy reserves are not recorded as provided by Article 71 of the Ordinance for Enforcement of the Insurance Business Act in Japan).

39. Reserve for Outstanding Claims

As of March 31		2022	2021	2020
Millions of Yen				
Death and other claims	Mortality insurance claims	106,171	95,531	90,878
	Accident insurance claims	1,533	1,452	1,835
	Serious disability insurance claims	8,465	9,435	10,924
	Maturity benefits	5,131	6,350	6,930
	Others	466	533	287
	Subtotal	121,768	113,304	110,857
	Annuity payments	5,028	4,603	4,430
	Health and other benefits	33,318	28,641	30,453
	Surrender benefits	28,874	28,712	40,512
	Deferred benefit payments	2,216	2,547	3,143
	Total, including other reserves	192,426	179,010	190,602

40. Policy Reserves

As of March 31		2022	2021	2020
Millions of Yen				
Policy reserves	Individual insurance	29,532,881	28,809,266	28,641,200
(Excluding contingency reserve)	[General Account]	[29,424,934]	[28,700,735]	[28,548,568]
	[Separate Account]	[107,947]	[108,531]	[92,632]
	Individual annuities	12,695,904	12,419,309	11,813,919
	[General Account]	[12,676,364]	[12,387,087]	[11,785,918]

	Subtotal	56,617,146	55,375,554	54,342,014
	[General Account]	[55,428,103]	[54,176,390]	[53,158,068]
	[Separate Account]	[1,189,043]	[1,199,164]	[1,183,946]
	Contingency reserve	2,060,657	2,044,663	1,878,267
	Total	58,677,803	57,420,217	56,220,282
	[General Account]	[57,488,760]	[56,221,053]	[55,036,336]
	[Separate Account]	[1,189,043]	[1,199,164]	[1,183,946]

41. Breakdown of Policy Reserves

As of March 31		2022	2021	2020
Millions of Yen				
	Insurance reserve funds	55,590,328	54,331,386	53,254,641
	Unearned premiums	1,026,818	1,044,167	1,087,373
	Refund reserve	—	—	—
	Contingency reserve	2,060,657	2,044,663	1,878,267
	Total	58,677,803	57,420,217	56,220,282

42. Policy Reserves for Individual Insurance and Annuities (by Policy Year)

1. Policy reserve valuation method and ratio

As of March 31		2022	2021	2020	%
Valuation method	Policies subject to standard policy reserves	Net level premium method	Net level premium method	Net level premium method	
	Policies not subject to standard policy reserves	Net level premium method	Net level premium method	Net level premium method	
Ratio (excluding contingency reserve)		100.0	100.0	100.0	

Notes: 1. Individual insurance and annuities are within the scope of the application of the valuation method and ratio. Policy reserves for group insurance and annuities are not included in the figures above due to the absence of an accumulation method.

2. The valuation ratio for policies subject to standard policy reserves is calculated in accordance with the method that is prescribed by Ordinance No. 48 issued by the Ministry of Finance in 1996. The ratio for policies not subject to standard policy reserves represents the ratio for the insurance premium reserve calculated by the net level premium method and unearned premium.

2. Policy reserves (breakdown by policy year)

Policy year	Balance of policy reserves			Assumed interest rate (%)
	2022	2021	2020	
As of March 31				
-1981	39,727	43,613	52,517	2.00
1982-1986	1,573,638	1,539,407	1,566,227	2.00-5.50
1987-1991	5,920,250	5,637,189	5,714,342	2.00-5.50
1992-1996	8,409,518	8,385,904	8,166,841	2.00-5.50
1997-2001	3,161,876	3,179,640	3,142,398	1.50-2.75
2002-2006	2,490,224	2,555,203	2,638,170	0.25-1.50
2007-2011	4,634,713	4,745,918	4,910,358	0.25-1.50
2012	1,470,203	1,573,544	1,606,501	0.25-1.50
2013	1,892,317	1,936,251	1,964,684	0.70-1.50
2014	1,787,868	1,791,247	1,794,281	0.50-1.50
2015	1,801,945	1,821,711	1,842,721	0.50-1.00
2016	1,859,412	1,933,052	2,025,991	0.01-3.45
2017	1,601,234	1,650,417	1,621,672	0.01-3.36
2018	1,331,014	1,254,472	1,138,680	0.01-3.51
2019	1,391,749	1,315,805	1,235,909	0.01-4.18
2020	1,155,943	1,053,234	913,186	0.01-3.59
2021	828,368	671,209	—	0.20-2.42
2022	751,291	—	—	0.20-3.21
Total	42,101,299	41,087,822	40,334,486	

Notes: 1. The balance of policy reserves represents policy reserves for individual insurance and individual annuities, excluding policy reserves for the separate account and contingency reserve.

2. The assumed interest rate represents major assumed interest rates on policy reserves for each policy year.

43. Policy Reserves for General Account (Insurance Policies with Separate Account Providing Guaranteed Minimum Insurance Benefits)

1. Policy reserve balance (general account)

As of March 31	2022	2021	2020	Millions of Yen
Policy reserves balance (general account)	—	—	—	

Notes: 1. The policy reserve above is applicable to insurance policies (policies subject to standard policy reserves) as defined in Article 68 of the Ordinance for Enforcement of the Insurance Business Act in Japan.

2. The policy reserve balance (general account) represents the insurance premium reserve related to guaranteed minimum insurance benefits.

3. Insurance policies executed on or after April 1, 2004, are subjected to policy reserves.

2. Calculation method and multipliers used as the basis for calculations

In terms of the calculation method, the Company uses the standard method defined in paragraph 9, item 1 of Ordinance No. 48 issued by the Ministry of Finance in 1996.

Regarding the multipliers used as the basis for calculations (volatility), the Company uses 0.3% for short-term loans that have not been prescribed in the ordinance above and the rate prescribed in paragraph 9, item 1 (d) of the above ordinance for all other policies.

44. Reasonableness and Validity of the Application of Article 121, Paragraph 1, Item 1 of the Insurance Business Act (Limited to Reserves Relating to Third-sector Insurance)

1. Method for assuring the appropriateness of policy reserves for third-sector insurance

The stress test and liability adequacy test are conducted based on clear risk management policies provided by laws and regulations, or the board of directors of the Company, and necessary policy reserves are calculated appropriately.

In addition, the Internal Audit Department, which is independent of the accounting unit, audits the balance of policy reserves to ensure the appropriateness of the balance.

2. Reasonableness and validity of the level of risk frequency used for the liability adequacy test and stress test

To provide for uncertainty regarding the worsening of the incidence rate of insured events, the Company establishes a risk frequency to cover anticipated and unexpected risks.

Specifically, the Company assumes that the future incidence of insured events follows a normal distribution based on the past experience of insured events and those trends, and has set a level covering increased insurance proceeds at a fixed probability ratio (99.0% and 97.7%).

3. Results of the liability adequacy test and stress test (insurance premium reserve and contingency reserve)

Millions of Yen			
As of March 31	2022	2021	2020
Insurance premium reserve	—	—	—
Contingency reserve	3,188	3,486	3,652

45. Reserve for Dividends to Policyholders

Millions of Yen							
	Individual insurance	Individual annuities	Group insurance	Group annuities	Workers' asset-formation insurance and annuities	Other insurance	Total

46. Allowance for Doubtful Accounts and Other Provisions

As of March 31		2022		2021		2020	
		Amount	Increase (decrease)	Amount	Increase (decrease)	Amount	Increase (decrease)
Allowance for doubtful accounts ¹	General allowance for doubtful accounts	1,912	(3,511)	5,424	4,389	1,035	240
	Specific allowance for doubtful accounts	4,998	2,203	2,794	1,143	1,651	(2,018)
	Allowance for specific overseas debt	—	—	—	—	—	—
Allowance for investment loss ²		28,867	(4,012)	32,879	(2,188)	35,068	5,471
Accrued bonuses for directors and audit and supervisory board members ³		434	0	433	341	92	(14)
Accrued retirement benefits ⁴		378,203	2,509	375,693	1,233	374,460	8,562
Accrued retirement benefits for directors and audit and supervisory board members ⁵		—	—	—	(4,304)	4,304	79
Reserve for program points ⁶		8,770	242	8,528	(335)	8,864	(339)
Reserve for price fluctuations in investments in securities ⁷		1,590,233	68,317	1,521,916	73,902	1,448,014	66,361

Notes: Reasons for recording allowances and provisions:

1. Allowance for doubtful accounts is recorded to prepare for bad debt losses.
2. Allowance for investment loss is recorded to prepare for losses from investment.
3. Accrued bonuses for directors, and audit and supervisory board members are recorded for executive bonus payments.
4. Accrued retirement benefits are recorded to prepare for employee retirement benefit and pension payments.
5. Accrued retirement benefits for directors, and audit and supervisory board members are transferred to accounts payable due to the abolishment of the retirement benefit plan for directors, and audit and supervisory members.
6. Reserve for program points is recorded to prepare for expenses from the use of points granted to policyholders.
7. Reserve for price fluctuations in investments in securities is recorded based on the provisions of Article 115 of the Insurance Business Act in Japan.

47. Allowance for Specific Overseas Loans

1. Allowance for specific overseas loans

There were no ending balances as of March 31, 2022, 2021, and 2020.

2. Balance of loans by creditor country

There were no ending balances as of March 31, 2022, 2021, and 2020.

48. Insurance Premiums

1. Premiums by payment method

Fiscal years ended March 31		2022	2021	2020
Individual insurance		2,233,309	2,249,873	2,472,113
	Single premium	248,718	248,837	422,141
	Annual payment	660,110	655,801	675,023
	Semiannual payment	2,123	2,555	3,025
	Monthly payment	1,322,356	1,342,678	1,371,922
Individual annuities		729,634	701,151	684,293
	Single premium	6,238	4,092	13,273
	Annual payment	257,704	242,331	228,971
	Semiannual payment	2,159	2,390	2,565
	Monthly payment	463,531	452,337	439,482
Group insurance		254,646	250,001	245,230
Group annuities		1,041,109	1,012,897	1,072,638
Total, including other premiums		4,306,688	4,263,255	4,525,225

Note: Total, including other premiums, includes premiums of workers' asset-formation insurance, workers' asset-formation annuities, medical life insurance, disability income insurance, and reinsurance assumed.

	Over one year	66,186	60,316	54,003
	Total	82,332	74,204	68,920

58. Overview of Investment for the Fiscal Year Ended March 31, 2022 (General Account)

(1) Investment environment

In the fiscal year ended March 31, 2022, the Japanese economy was lackluster and as consumer spending and capital investment were sluggish, due to the impact of the prolonged state of emergency and supply constraints including a shortage of semiconductors in the first half of the fiscal year. In the second half of the fiscal year, consumer spending temporarily recovered as the state of emergency was lifted. However, economic conditions remained severe with another slump in consumer spending due to the impact of restrained economic activities brought about by the spread of the Omicron variant and skyrocketing resource prices caused by the situation in Russia and Ukraine.

- The Nikkei Stock Average at the start of the fiscal year was ¥29,388 and remained largely in a flat range, with the support of the expectations of economic recovery and the accommodative monetary policies by the Bank of Japan. At the end of March 2022, this sank to ¥27,821 reflecting the increased signs of monetary tightening in Europe and the U.S., and the situation in Russia and Ukraine in the second half of the fiscal year.
- The yield rate on 10-year Japanese government bonds at the start of the fiscal year was 0.12%. Thereafter, with the Bank of Japan continuing to implement accommodative monetary policies, the yield rate remained largely in a flat range. In the second half of the fiscal year, domestic interest rates rose with the increased signs of monetary tightening in Europe and the U.S., and the yield rate at the end of March 2022 was 0.21%.
- The yen-dollar exchange rate at the start of the fiscal year was at the ¥110 level and moderately shifted toward depreciation of the yen against the dollar due to increased signs of the normalization of monetary policies in the U.S. Since March 2022, the yen continued to rapidly depreciate against the dollar as the U.S.-Japan interest rate gap widened due to the commencement of monetary tightening reflecting the upswing in inflation in the U.S. At the end of March 2022, the exchange rate was ¥122.39 against the dollar.

The yen-euro exchange rate at the start of the fiscal year was at the ¥130 level and remained largely in a flat range because accommodative monetary policies were expected to be maintained in the euro zone. In the second half of the fiscal year, the yen continued to depreciate against the euro due to increased signs of monetary tightening reflecting the upswing in inflation in Europe. At the end of March 2022, the exchange rate was ¥136.70 against the euro.

(2) Investment policy

The Company creates portfolios that serve as core medium- to long-term investments based on its ALM approach of appropriately controlling assets and liabilities.

Specifically, to supply the stable long-term yields promised to policyholders, the Company has positioned government and corporate bonds as well as loans that it expects to provide stable Japanese yen-denominated revenue as its primary assets. Furthermore, the Company is investing in domestic and foreign securities with an aim to improve its medium- to long-term profitability and increase returns to policyholders, while managing safety and risks associated with the investments to keep them within an acceptable level. The Company also continues to invest in other assets that are expected to earn excess returns, such as corporate bonds and securitized products, as well as private equity, hedge funds, and other investment areas in order to diversify earning sources and hedge investment risks.

(3) Overview of investment results

In the fiscal year ended March 31, 2022, the Company positioned yen-denominated assets that can be expected to provide stable income, such as public and corporate bonds, as its core assets. In addition, the Company continued to invest in domestic and foreign securities with an aim to improve its medium- to long-term profitability, while managing safety and risks associated with the investments to keep them within an acceptable level.

Public and corporate bonds

Considering the advantages of yen-denominated interest rate assets, the Company carefully increased the outstanding balance of bonds when positive signs were seen in interest rate trends.

Stocks

The Company shuffled investments in stocks during the year by assessing earning power and dividend payout trends of investees in order to improve the profitability of portfolios over a medium- to long-term period.

Foreign securities

Regarding foreign securities, the Company invested in foreign currency-denominated bonds based on currency movements. Also, the Company invested in foreign bonds that hedge the risk of exchange rate fluctuations, taking into consideration the advantages of yen-denominated interest rate assets.

Loans

The Company focused on safe and stable prime lending by appropriately assessing credit risks.

Real estate

The Company strove to improve the quality of its own buildings to secure profitability by maintaining occupancy rates and renovating existing properties.

58. Overview of Investment for the Fiscal Year Ended March 31, 2022 (General Account), continued

Billions of Yen			
As of March 31	2022	Increase*	Breakdown (%)

81. Appraisal Value of Real Estate (General Account)

As of March 31	Billions of Yen		
	2022	2021	2020
Land and land lease rights			
Balance sheet amount	1,221.1	1,221.2	1,201.9
Fair value (appraisal value)	1,827.9	1,768.5	1,717.4
Net unrealized gains	606.8	547.3	515.4
Gain	706.3	652.4	627.7
Loss	(99.4)	(105.1)	(112.3)
Revaluation differences	40.0	44.4	48.3
	1+2	646.9	591.8
		591.8	563.8

Notes: 1. Fair value (appraisal value) is calculated with reference to benchmark land prices.
2. In accordance with the Act on Revaluation of Land in Japan, business-use land was revalued and net valuation gains (losses) were recorded on the balance sheets.
3. For revaluation differences in Note 2, the difference between the amount revalued and the historical cost, net of tax, has been credited to revaluation reserve for land in net assets, and the tax equivalent amount for the revaluation is recognized in the liability section as deferred tax liabilities.

82. Real Estate Balance and Number of Rental Properties Held (General Account)

As of March 31	Millions of Yen, Number of Buildings		
	2022	2021	2020
Real estate balance (¥)	1,695,767	1,686,615	1,658,731
For business use (¥)	609,460	615,906	597,332
For rental use (¥)	1,086,306	1,070,709	1,061,399
Number of buildings held for leasing	258	261	262

Note: Real estate amount is the sum of land, buildings, and construction in progress.

83. Tangible Fixed Assets (General Account)

	Millions of Yen						
	Ending balance of the prior year	Increase in the current year	Decrease in the current year	Depreciation in the current year	Ending balance of the current year	Accumulated depreciation	Accumulated depreciation percentage (%)

Others	312,925	1.5	302,505	1.5	321,757	1.6
Total	21,569,434	100.0	20,675,767	100.0	19,687,377	100.0

Note: The table above represents asset balances denominated in the top six foreign currencies as of March 31, 2022.

87. Yield on Overseas Loans and Investments (General Account)

Fiscal years ended March 31	2022	2021	2020
Yield on overseas loans and investments	3.47	4.60	2.82

Notes: 1. Yield is calculated by dividing investment income, less investment expenses, by the daily average book value balance.
2. The amount of overseas loans and investments is the sum of assets denominated in foreign currencies and Japanese yen.

88. Summary of New Public Sector Investment Underwriting and Loans (General Account)

Fiscal years ended March 31	2022		2021		2020	
	Amount	%	Amount	%	Amount	%
Public bonds						
National government bonds	305,091	50.1	183,784	41.7	303,667	54.9
Local government bonds	—	—	—	—	—	—
Public corporation and agency bonds	1,134	0.2	2,368	0.5	1,995	0.4
Subtotal	306,225	50.3	186,152	42.2	305,663	55.3
Loans						
Government-affiliated organizations	1,099	0.2	1,136	0.3	1,551	0.3
Public entities	301,459	49.5	253,909	57.5	245,991	44.5
Subtotal	302,558	49.7	255,045	57.8	247,542	44.7
Total	608,784	100.0	441,197	100.0	553,205	100.0

Note: Public bonds represent the amount of new underwriting for each fiscal year, and loans represent the amount of new loans to domestic entities for each fiscal year.

89. Breakdown of Other Assets (General Account)

Fiscal year ended March 31	Acquisition cost	Increase in the current year	Decrease in the current year	Accumulated depreciation	Balance at the end of the current year
2022

90. Loan Interest Rates

										Dates, %	
										Type of loan	
Base rate of long-term loans (long-term prime rate loans)	Housing loans					Consumer loans					
	Fixed interest rate		Variable interest rate optional with fixed interest rate		Variable interest rate (long-term loans)	Variable interest rate (short-term loans)	Fixed interest rate		Variable interest rate (long-term loans)	Variable interest rate (short-term loans)	
			2.72–3.88 ^(*1)			2.475 ^(*2)		3.37–3.88 ^(*1)		2.775 ^(*2)	
Fiscal year ended March 31										2023	
Fiscal year ended March 31										2022	
2/10	1.10										
		3/1	3.42–4.55	3/1	2.77–3.93	3/1	1.10	3/1	3.42–3.93	3/1	1.40
Fiscal year ended March 31										2021	
4/10	1.10										
						5/1	1.10			5/1	1.40
5/8	1.05										
						6/1	1.05			6/1	1.35
8/12	1.00										
						9/1	1.00			9/1	1.30
Fiscal year ended March 31										2020	
7/10	0.95										
						8/1	0.95			8/1	1.25
Fiscal year ended March 31										2019	
		12/1	3.37–4.50								

- Notes: 1. Fixed interest rates for housing loans and consumer loans are set at interest rates according to the lending period.
2. For housing loans, variable interest rates optional with fixed interest rates are set according to the fixed interest rate period of 2, 3, 5, 10, or 15 years.
3. Housing loan interest rates represent interest rates at the time of initial lending.
4. Housing loan interest rates include group credit life insurance warranty fees.
5. Consumer loans represent traditional mortgage-backed loans.

*1 August 1, 2015

*2 January 19, 2009

91. Fair Value of Securities (General Account)

1. Net valuation gains (losses) of trading securities

As of March 31	2022		2021		2020	
	Balance sheet amount	Valuation gains (losses) recorded in profit or loss	Balance sheet amount	Valuation gains (losses) recorded in profit or loss	Balance sheet amount	Valuation gains (losses) recorded in profit or loss
Trading securities	—	4,292	81	(25,339)	33,120	27,919

Millions of Yen

Notes: 1. Net gains (losses) on derivative transactions are included in both assets held in trust under trading securities in the balance sheets and valuation gains (losses) in the statements of income.
2. Amounts above do not include cash, deposits, and call loans within assets held in trust that are included in trading securities.

2. Fair value information of securities (other than trading securities)

Notes: 1. The table above includes items that are deemed appropriate to be handled as securities under the Financial Instruments and Exchange Act in Japan.
2. Stocks and other securities without a market price and partnerships are excluded from this table.

91. Fair Value of Securities (General Account), continued

2. Fair value information of securities (other than trading securities), continued

The book values of stocks and other securities without a market price and partnerships are as follows.

		Millions of Yen		
As of March 31		2022	2021	2020
Investments in subsidiaries and affiliates		1,337,784	1,179,556	1,018,274
Available-for-sale securities		197,323	168,269	128,279
Domestic stocks		55,434	61,115	60,000
Foreign stocks		218	309	218
Others		141,670	106,844	68,060
Total		1,535,107	1,347,826	1,146,554

Note: For the stocks and other securities without a market price and partnerships, the net gains (losses) on currency valuation of assets denominated in foreign currencies were ¥92,119 million, ¥17,007 million and ¥(35,562) million as of March 31, 2022, 2021 and 2020, respectively.

92. Fair Value of Assets Held in Trust (General Account)

		Millions of Yen		
As of March 31		2022	2021	2020
Assets held in trust				
Balance sheet amount		—	135	33,779
Fair value		—	135	33,779
Net gains (losses)		—	—	—
Gains		—	—	—
Losses		—	—	—

Notes: 1. Fair value is based on a reasonably calculated price by the trustee of assets held in trust.

2. The balance sheet amount includes net gains (losses) on derivative transactions within assets held in trust.

Assets held in trust for investment

		Millions of Yen					
As of March 31	2022		2021		2020		
	Balance sheet amount	Valuation gains (losses) included in profit or loss	Balance sheet amount	Valuation gains (losses) included in profit or loss	Balance sheet amount	Valuation gains (losses) included in profit or loss	
Assets held in trust for investment	—	4,292	135	(25,339)	33,779	27,919	

Note: Balance sheet amount and valuation gains (losses) recorded in profit or loss include net gains (losses) on derivative transactions.

Assets held in trust classified as policy-reserve-matching bonds, held-to-maturity debt securities, and others

There were no ending balances as of March 31, 2022, 2021, and 2020.

93. Qualitative Information on Derivative Transactions (General Account)

1. Transaction details

The following are derivative transactions that the Company uses:

Interest rate-related:	Interest rate futures, interest rate swaps, and swaptions
Currency-related:	Foreign exchange forward contracts, currency options, and currency swaps
Equity-related:	Equity index futures, equity index options, equity options, and equity forwards
Bond-related:	Bond futures, bond futures options, and bond purchases and sales with attached options

2. Policy

The Company mainly uses derivative transactions for the purpose of controlling risks associated with assets or liabilities.

3. Purpose

The Company mainly uses derivatives to hedge risks associated with assets or liabilities and applies hedge accounting to certain derivatives.

The Company mainly applies the following hedge accounting methods:

- The exceptional accounting treatment ("*Tokurei-shori*") is applied to interest rate swaps to hedge the cash flow volatility of certain loans denominated in Japanese yen and foreign currencies.
- Deferred hedge accounting is applied to interest rate swaps to hedge the interest rate fluctuation exposures on certain insurance policies based on the Industry Audit Committee Report No. 26, "Accounting and Auditing Treatments related to Application of Accounting for Financial Instruments in the Insurance Industry" issued by the Japanese Institute of Certified Public Accountants.
- Deferred hedge accounting and designated hedge accounting ("*Furiate-shori*") are applied to currency swaps to hedge the cash flow volatility caused by foreign exchange rate fluctuations on certain foreign currency-denominated bonds and loans, and subordinated corporate bonds issued by the Company.
- Fair value hedge accounting is applied to foreign exchange forward contracts to hedge the price fluctuation exposures related to foreign exchange rate fluctuations on certain foreign currency-denominated bonds and other instruments.
- Fair value hedge accounting is applied to equity forward contracts to hedge the price fluctuation exposures on certain domestic stocks.

Effectiveness of hedging activities is mainly evaluated by performing a ratio analysis and comparing the fair value difference between hedging instruments and hedged items in accordance with the Company's risk management policies.

4. Risk details

Derivative transactions entered into by the Company are exposed to market risks (such as fluctuation risks in interest rates, currency exchange rates, and stock prices) and credit risks (such as counterparties' default risks due to bankruptcy). The Company recognizes market risks as limited given that derivative transactions are mainly for the purpose of controlling risks associated with assets or liabilities. Further, credit risks should remain low as the Company's transactions are entered into either through domestic and foreign financial instrument exchanges or with creditworthy counterparties.

5. Risk management system

The Company sets up transaction limits for derivative transactions based on the purpose and types of transactions. In addition, a control system is implemented for the front office engaged in investment activities, where the back office verifies transaction details with external documentations. Furthermore, the system is designed such that the state of risks, along with assets or liabilities, is monitored and analyzed quantitatively and information on the amount of risk as well as on positions and the status of profit and loss is reported periodically to the investment risk management committee.

6. Supplementary explanation regarding quantitative information

(1) Supplementary explanation regarding notional amounts (contract amounts)

Notional amounts for swap transactions and contract amounts for option transactions represent nominal values related to interest conversions and are not meant to indicate the level of credit risks (latent costs required to restore a market position in the event of a default of counterparties).

(2) Supplementary explanation regarding market price calculations

Futures and other market transactions:

Liquidation value or closing market price at the balance sheet date

Equity option transactions:

Mainly liquidation value or closing market price at the balance sheet date, or valuations obtained from external parties

Foreign exchange forward contracts, currency options, interest rate swap transactions, currency swaps, swaptions, equity forward transactions, and bond purchases and sales with attached options:

Mainly valuations obtained from external parties

(3) Supplementary explanation regarding transaction gains and losses

The Company mainly utilizes derivative transactions as a complementary measure in controlling risks associated with assets or liabilities.

For example, foreign exchange forward contracts and currency option transactions are mainly utilized to hedge fluctuations in foreign currency exchange rates; therefore, the amount of gains and losses arising from foreign bonds, stocks, and other foreign currency-denominated assets should be taken as a total amount.

94. Fair Value of Derivative Transactions, Combined Total with and without Hedge Accounting Applied (General Account)

(1) Breakdown of gains (losses) (with and without hedge accounting applied)

						Millions of Yen
	Interest rate	Currencies	Equities	Bonds	Others	Total
As of March 31						2022
Hedge accounting applied	(66,935)	(852,038)	6,712	—	—	(912,261)
Hedge accounting not applied	(31,997)	4,630	(8,103)	(64)	—	(35,535)
Total	(98,933)	(847,407)	(1,391)	(64)	—	(947,797)
As of March 31						2021
Hedge accounting applied	25,567	(474,173)	(14,871)	—	—	(463,476)
Hedge accounting not applied	(26,539)	7,547	(5,194)	—	—	(24,186)
Total	(971)	(466,625)	(20,065)	—	—	(487,663)
As of March 31						2020
Hedge accounting applied	103,876	(167,735)	11,972	—	—	(51,886)
Hedge accounting not applied	14,238	(29,315)	13,275	—	—	(1,802)
Total	118,114	(197,051)	25,247	—	—	(53,689)

Note: Net gains (losses) from applying the fair value hedge included in gain and loss on hedge accounting applied (as of March 31, 2022: Currencies ¥(399,749) million and equities ¥6,712 million; as of March 31, 2021: Currencies ¥(224,485) million and equities ¥(14,871) million; and as of March 31, 2020: Currencies ¥30,532 million and equities ¥11,972 million), and net gains (losses) included in hedge accounting not applied are recorded in the statements of income.

About General Account and Separate Account

A life insurance company classifies and manages its assets in two accounts: a separate account and a general account.

Individual variable insurance, individual variable annuities, and certain group annuities, which change in terms of insurance amount and accumulated value based on investment performance of assets, are managed as a separate account, which is clearly segregated from a general account.

95. Balance of Separate Account Assets

As of March 31	2022		2021		2020	
	Amount	%	Amount	%	Amount	%
Individual variable insurance	110,130	9.1	112,908	9.2	94,319	7.8
Individual variable annuities	19,550	1.6	32,223	2.6	28,017	2.3
Group annuities	1,077,876	89.3	1,082,174	88.2	1,080,089	89.8
Separate account total	1,207,557	100.0	1,227,305	100.0	1,202,426	100.0

96. Asset Management Overview for the Fiscal Year Ended March 31, 2022 (Separate Account Assets for Individual Variable Insurance and Individual Variable Annuities)

While domestic and international stock prices in the fiscal year ended March 31, 2022, rose until December 2021, reflecting the dissemination of COVID-19 vaccines and favorable earning reports from major corporations in the U.S., they fell dramatically since January 2022, reflecting concerns over monetary tightening by the Federal Reserve Board (FRB) and escalated geopolitical risks surrounding the situation in Russia and Ukraine. While domestic and international interest rates declined until early August 2021, reflecting concerns over the economic outlook due to the spread of COVID-19 variants, they rose thereafter reflecting inflation and concerns over monetary tightening by the FRB.

Amid this operating environment, the investment return on individual variable insurance for the fiscal year ended March 31, 2022, was positive at 6.93%.

This also represented investment return of 209.57% (3.24% on an annualized basis) since November 1, 1986, when investment was first undertaken.

In individual variable annuities, the Company continued its investment policy of holding a certain amount of cash and deposits to prepare for changes in insurance policies while maintaining, in principle, a high allocation ratio in investment trusts, the main investment vehicle for the separate account.

Note: Regarding investment return on the separate account for individual variable insurance

The investment return on the separate account for individual variable insurance represents growth rates on premiums received from policyholders, less portions allocated for death protection, and does not represent the growth rates on the total insurance premium.

Notes: 1. The asset management overview for individual variable insurance does not include variable insurance with survival benefits in a designated currency.
2. Investments for variable insurance with survival benefits in a designated currency conform to the asset management principles for the separate account assets for individual variable annuities.

97. Policies in Force (Separate Account for Individual Variable Insurance)

As of March 31	2022		2021		2020	
	Number of policies	Amount of policies (¥)	Number of policies	Amount of policies (¥)	Number of policies	Amount of policies (¥)

Trading securities	87,436	(6,757)	98,311	11,717	83,538	(5,710)

101. Fair Value of Assets Held in Trust (Separate Account for Individual Variable Insurance)

There were no ending balances as of March 31, 2022, 2021, and 2020.

102. Qualitative Information on Derivative Transactions (Separate Account for Individual Variable Insurance)

1. Transaction details

The Company engages in the following derivative transactions using separate account:

- Currency-related: Foreign exchange forward contracts
- Equity-related: Equity index futures
- Bond-related: Bond futures

2. Policy

Derivative transactions are used as complementary instruments relative to assets and liabilities with the aim of efficient asset investment and are not used excessively for speculative purposes to gain profit.

3. Purpose

Derivative transactions are mainly used to hedge against market risk related to assets held.

4. Risk details

Derivative transactions conducted in the separate account are exposed to market risks (price fluctuation and foreign exchange risks). With respect to

credit risks, the credit risks should remain extremely low as the Company's transactions are entered into either through domestic and foreign financial instrument exchanges or with creditworthy counterparties.

5. Risk management system

Transaction execution is governed by internal rules, such as transaction limits. Transactions are executed under a framework, including front-office and back-office functions, where the back-office is completely segregated from the front-office and confirms transaction details with external documentation.

6. Supplementary explanation of quantitative information

Market transactions, such as futures transactions, use liquidation value or closing market price to determine fair value.

For foreign exchange forward contracts, the appraisal value obtained from external parties is mainly used as fair value.

As for derivative transactions for separate account for individual variable insurance, the Company does not apply hedge accounting.

Note: There were no transactions that fell under the category of variable insurance with survival benefits in a designated currency nor ending balances of such insurance.

103. Fair Value of Derivative Transactions, Combined Total with and without Hedge Accounting Applied (Separate Account for Individual Variable Insurance)

POLICYHOLDER PROTECTION SYSTEMS

● Early Correction Safeguard System

Early correction safeguarding is a system designed to protect policyholders and ensure sound and appropriate operations at insurance companies. When an insurance company's solvency margin ratio falls below a certain level, depending on the circumstances, the regulatory agency may issue a directive to the insurance company to improve its operations.

An insurance company is subject to such a directive when its solvency margin ratio falls below 200%. The action standards and directives are categorized in the table on the right.

Depending on the assets and liabilities of the insurance company as well as the management improvement plans submitted to the regulatory agency, additional directives may be issued for classifications other than the solvency margin ratio in the table on the right.

● Bankruptcy Proceedings for Life Insurance Companies

When a life insurance company enters bankruptcy, the following two proceedings are taken to dispose of assets:

1. Corporate rehabilitation proceedings based on the court-guided rehabilitation law

These proceedings are taken under the supervision of a court of law.

First, the bankrupt insurance company petitions the court to start rehabilitation procedures (the commissioner of the FSA in Japan can also be petitioned). The court of law that receives this petition decides to start the procedures and appoints an administrator.

The court-appointed administrator formulates a rehabilitation plan for transferring policyholders while managing and examining the operations and financial assets of the bankrupt insurance company. Through the decisions of related parties, the court-appointed administrator requests authorization from the court of law. After authorization is granted, the administrator executes the disposal of assets based on the rehabilitation plan.

2. Government proceedings based on the Insurance Business Act

● Life Insurance Policyholders Protection Corporation of Japan

The Policyholders Protection Corporation is a corporate entity that was established in December 1998 through the Insurance Business Act. In the event that a life insurance company goes bankrupt, the Policyholders Protection Corporation will protect policyholders through a mutual support system.

● Members and Financial Resources

The Company and other life insurance companies that operate in Japan are members of the Policyholders Protection Corporation, and financial resources are, in principle, contributions paid by these members. However, until the end of March 2027, in the event that membership contributions from life insurance companies are insufficient as financial support to a life insurance company that goes bankrupt, the Japanese government may provide financial assistance to the Policyholders Protection Corporation through Diet deliberations.

■ Action Standards and Directives

Classification according to solvency margin	Directive
First classification Under 200% Over 100%	Directive to propose and implement a management improvement plan
Second classification Under 100% Over 0%	Directive to discontinue or limit policyholder dividends and/or directive to change calculation methods for new policies (anticipated rate of return, etc.)
Third classification Under 0%	Directive to halt all or a portion of operations

These proceedings are based on directives issued by the commissioner of the FSA.

The commissioner of the FSA orders the cessation of all or a portion of operations at the bankrupt insurance company and appoints an insurance administrator to dispose of financial assets under management and operations.

The insurance administrator manages and supervises the operations and financial assets of the bankrupt insurance company, creates plans for the management of operations and financial assets including the transfer of insurance policies, and seeks approval from the commissioner of the FSA. After approval is granted, the insurance administrator disposes of the assets according to the plan.

There are no clear standards as to which of the aforementioned procedures will be taken, and there are no differences in the indemnification through protective measures (see next page) between the two procedures.

● Main Operations

In the event of a bankruptcy of a life insurance company, the Policyholders Protection Corporation performs the following operations through a mutual support system for the purpose of protecting policyholders:

Primary Operations of the Policyholders Protection Corporation

1. Provides financial assistance to savior companies that take over insurance policies
2. Takes over insurance policies in the event that no savior company steps forward
3. Acts as a procedural representative for insurance policyholders in the event that the bankruptcy undergoes rehabilitation proceedings

• Summary of Indemnification Coverage

In the event of a bankruptcy of a life insurance company, policy indemnification is to be provided as follows:

Type of insurance	Indemnification	
Individual insurance	General policies	Policy reserves × 90% ¹
	High assumed interest rate policies ²	Policy reserves × (90% – Set rate) ^{1,3}
Group insurance	General policies	Policy reserves × 90% ¹
	High assumed interest rate policies ^{2,4}	Policy reserves × (90% – Set rate) ^{1,3}
	Portion related to separate accounts of group annuity policies	Not eligible for indemnification ⁵

Notes: 1. Policy reserves are reserves for future insurance claims, annuity, and benefit payments, accumulated through insurance premiums and investment returns. The purpose of the system is to indemnify policy reserves, not to indemnify insurance claims, annuities, or other benefits. Accordingly, 90% of pension resource coverage attached to individual variable annuity insurance will not be eligible for indemnification.

2. High assumed interest rate policies*¹ are policies for which assumed interest rates constantly exceed standard interest rates*² over five years preceding bankruptcy.

*1: When assumed interest rates are different for primary policies and riders within one insurance policy, decisions of whether or not such policies fall under the category of a high assumed interest rate policy are made for individual policies.

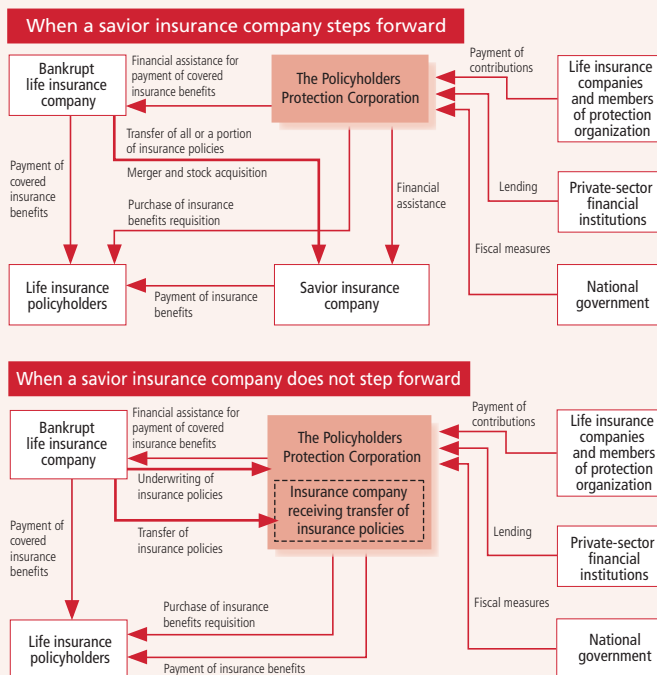

*2: Standard interest rates are determined by the commissioner of the FSA and the Finance Minister. The current reserve interest rate is 3%, which can be confirmed on the website of the Company or that of the Policyholders Protection Corporation.

3. Set rate = (Sum of assumed interest rates for the previous five years, less standard interest rates) / 2

4. When insured are contributing insurance premiums and assumed interest rates are different among each insured, each insured is deemed to have concluded its own insurance policy. As such, it should be determined individually whether or not such a policy falls into the category of a high assumed interest rate policy. However, regarding defined contribution annuity insurance policies, regardless of whether or not the insured is contributing premiums, it should be determined whether or not each insured's policy falls into the category of a high assumed interest rate policy.

5. In rehabilitation procedures, it is possible to develop a rehabilitation plan under which policy reserves need not be reduced to cover this area (i.e., it can be determined whether or not the reserves should be reduced by individual rehabilitation procedures).

■ Framework of the Policyholders Protection Corporation

Information on policyholder protection in the last two pages, including the scope of policies eligible for indemnification and their coverage, is based on current legal statutes and is subject to change in the future in accordance with revisions to those legal statutes (as of July 2022).
